

Justification for Change  
Request for Review  
OMB No. 0581-0126  
November - 2011

This Justification for Change requests a slight modification in the request for review timelines on form DA-162 with no change in burden.

Recently USDA has changed requirements for domestic and foreign travel timelines to pass travel authorizations through the GovTrip System.

Applicants use the DA-162 form to request service. The form provides applicants information concerning when they need to submit the DA-162 form to allow sufficient time for travel to occur. The timeline information for Domestic Inspections has changed from 7 days to 30 days, and from 30 days to 49 days for Foreign Inspections.

These changes will not affect the burden on applicants using the form.
