## 1. Fillable form Instructions

### Overview

USPTO fillable PDF forms use the features provided with Adobe Acrobat products. There is some validation of the information you enter but you are still responsible for entering all required information (instructions may require some information to be handwritten on the form).

### Software Requirements

To view, complete and print USPTO fillable PDF forms you will need the free [Adobe Acrobat Reader](#) software installed on your computer. Version 7.0.8, 7.0.9, 8.1.1, or 8.1.2 of Adobe Reader is recommended.

### Opening the Form

Your web browser may be configured with an Adobe Reader plug-in to automatically open the file within your browser's window upon download. To download the file directly to disk, right click the form title link then select "Save Target/Link As..." from the menu. Use Adobe Reader to open the file.

## Completing the Form

When positioning the cursor on a fillable area or element, the cursor will change appearance. The I-beam pointer allows you to type text. The hand pointer allows you to select a check box or radio button.

Enter the appropriate data in each box or field. To move from one field to the next, press the Tab key. You can also use your cursor to move from field to field. Place your cursor in the field you want to fill in, then left-click.

Some fields limit the maximum number of characters you can enter and may automatically advance to the next field.

For additional help with fillable forms, see the Adobe Reader's online help information.

### Tips:

- Use the latest version of Adobe Reader in order to ensure the form's full functionality
- This fillable form permits the entered data to be automatically loaded into the Office's electronic systems, such as PALM when electronically submitted. Printing the form, scanning it to create a PDF and submitting the scan of the printed form will require Office Personnel to key in the information by hand.
- **Do not use this ADS form as a Supplemental ADS.** This form does not comply with the requirements for a Supplemental Application Data Sheet (ADS). See 37 CFR 1.76(c). Supplemental ADS papers must be labeled Supplemental ADS or Supplemental Application Data Sheet and identify the information that is being changed.
- Save a copy of your work to avoid loss.
- The USPTO is only accepting certain types of applications electronically. Visit [www.uspto.gov](http://www.uspto.gov) for more details

# 1. Detailed Form Instructions by Field

## Applicant Information:

Secrecy Order Checkbox	Rule 37 C.F.R. 5.2, states that if an invention has been determined to be a matter of national security, the Director of Patents & Trademarks has the right to keep the invention secret. Under the same rule, applicants are obligated to notify the Office of any related cases that the Commissioner has kept secret. Note that documents associated with applications under Secrecy Order may not be filed electronically.
Applicant Authority	Select the radio button associated with the type of authority one has to file this patent application from Inventor, Legal Representative under 35 U.S.C 117, and Party of Interest under 35 U.S.C. 118.
Inventor	One who contributes to the conception of an invention. The patent law of the United States of America requires that the applicant in a patent application must be the inventor.
Legal Representative under 35 U.S.C. 117	35 U.S.C. 117 Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.
Party of Interest under 35 U.S.C. 118	35 U.S.C. 118 Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Director may grant a patent to such inventor upon such notice to him as the Director deems sufficient, and on compliance with such regulations as he prescribes.
Inventor Status Drop Down	In case of the death of the inventor, the legal representative (executor, administrator, etc.) of the deceased inventor may make the necessary oath or declaration, and apply for and obtain the patent. Where the inventor dies during the time intervening between the filing of the application and the granting of a patent thereon, the letters patent may be issued to the legal representative upon proper intervention.  When the inventor is insane or legally incapacitated. In case an inventor is insane or otherwise legally incapacitated, the legal representative (guardian, conservator, etc.) of such inventor may make the necessary oath or declaration, and apply for and obtain the patent. - (1) Intergovernmental organizations (regional patent offices) acting for certain Contracting States under the PCT (Patent Cooperation Treaty). In case of the European Patent Office, it also acts as International Searching Authority and International Preliminary Examining Authority under the PCT.
- (2) The Benelux Office for Intellectual Property (BOIP) (former Benelux Trademark and Designs Offices) have replaced the national Offices of Belgium, Luxembourg and the Netherlands with regard to actions relating to marks and industrial designs.
- (3) In the electronic database of the International Register of Marks, the International Bureau of WIPO uses the following additional codes, not part of the active codes of Standard ST.3: "DD" to designate Germany without the territory that, prior to October 3, 1990, constituted the Federal Republic of Germany; "DT" to designate Germany without the territory that, prior to October 3, 1990, constituted the German Democratic Republic.
- (4) The code "WO" is used in relation to the international publication under the Patent Cooperation Treaty (PCT) of international applications filed with any PCT receiving Office, as well as in the publication of international deposits of industrial designs under the Hague Agreement Concerning the International Deposit of Industrial Designs. In this regard, reference is made to INID code (33) given in WIPO Standards [ST.9](#) and [ST.80](#). The code "WO" is also the appropriate code to be used with respect to international registrations of marks under the Madrid Agreement and the Madrid Protocol Concerning the International Registration of Marks. The code "IB" is used in relation to the receipt of international applications under the PCT filed with the International Bureau of WIPO in its capacity as a PCT receiving Office.
- (5) Provisional name.
- (6) Code BF adopted in 1984..
- (7) Code CD adopted in 1997.
- (8) Code MM adopted in 1989.
- (9) Code TL adopted on May 20, 2002.
- (10) Code SY used before 1.1.1978.
- (11) Code DL used before 1.1.1978.
- (12) Subsequent to the country name change of "Yugoslavia" to "Serbia and Montenegro", that took effect on February 4, 2003, and to the decision by the ISO 3166/MA to use the new country name and new two-letter code "CS" (to replace "YU"), which was announced on July 23, 2003, the SCIT Standards and Documentation Working Group agreed, at its fifth session, in November 11, 2004, to recommend that the two-letter code "YU" continue to be used for "Serbia and Montenegro" in the industrial property field because code "CS" raised certain problems due to its former use to represent "Czechoslovakia" until 1993.
