ClaimStatus_v2.6.16 28 April 2010 2 of 61

17 Aug	1.1	All changes are highlighted yellow.	Jenny DeGroot,
2007		Turned the Skeleton Spec into a Full Spec: Filled in retry, timeout, and help prompts.	Nuance
		Made changes from Aug 13 review meeting and Aug 13-14 emails from SSA and Verizon:	
		6102: Revised prompt wording.	
		6105: Added Privacy/paperwork wording per A. Luster email forwarded by D. Synrod Aug 13. Edited attestation for brevity, as approved during Replacement 1099 review meeting Aug 13. Added dtmf-2 command for "no".	
		6120, 6130: Added Developer Notes about parameter values that are shown here, stating that developer should validate these values against the parameters that are in currently deployed code.	
		6140: Added new conditions and actions. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6150: Changed DM name, prompt wording. Added developer note. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6151, 6153, 6154: Created this new DM. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6152: Changed DM title to include "Auth". Changed prompt wording. Added developer note. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6160: Added confirmation prompt for "I don't have it."	
		6170-CS-LookupConfNumber-DB:	
		Added "SSN" as input field to database query.	
		Added additional conditions and actions. (Results of Aug 1 meeting with L. Moore and email from C. Walton.)	
		Removed <disclaimer_played> variables</disclaimer_played>	
		Created <canhearagainmsg_played> variable. Set to 'no' if we find 1, 2, or 3 claims.</canhearagainmsg_played>	
		Removed conditional checks for <claimstatusn> being returned. We only check whether <claimtypen> is returned.</claimtypen></claimstatusn>	
		Added notation "Unsuccessful return code" to the final "Else" condition.	
		6171, 6173, 6174: Created these new DMs. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6172: Removed "Hm" from prompt wording.	
		6175-CS-ReadNextClaimYN-DM:	
		Removed "else" from Retirement Benefits prompt condition. It should just start with "If."	
		Removed the statement "Increment <current_claim>" when we're already on the final claim in the list.</current_claim>	
		Added special treatment for 'Repeat' command.	
		6176: Created this new DM. (Results of Aug 16 meeting with L. Moore and email from C. Walton.)	
		6180-CS-ReadStatus-Msg:	
		Revised prompt wording and added CPR date readout for the following four conditions: <foreignbenefitsn>, <hearingrequestn>, <reconrequestn>, <fedrevreqn>, per email from H. Kim (SSA) titled "Action items for the TKCS/TK99 UI</fedrevreqn></reconrequestn></hearingrequestn></foreignbenefitsn>	

documents," dated Aug 14. Closed the open questions

associated with these four prompts. Moved prompts 26-29 (<foreignBenefitsN>, <hearingReguestN>, <reconRequestN>, <fedRevReqN>) to precede prompt 25, per H. Kim email. Changed the numbering of prompts 25-29 accordingly. Prompt 25 is now named 29. Added wording to the conditions for playing Prompt 5 and Prompt 29, based on H. Kim email. New wording: "...are filled with a valid entry (i.e., not null AND not 00000000)." In the conditions for playing Prompt 5 and Prompt 29: Added <foreignBenefitsN>, <hearingRequestN>, <reconRequestN>, and <fedRevReqN> to the list of fields, per H. Kim email. Changed wording of prompt 6180-CS-ReadStatus-Prompt-Initial-29 to say "send or bring" Added Open Question to prompt Initial-29: SSA to advise whether to say "We will return any documents that you send us." Added new prompt at top of table, to be played if <CanHearAgainMsg_played> ='no'. Set this variable to 'yes' in the Action section of the DM. 6190: Added developer note about special "Repeat" behavior. Made updates based on SSA emails of Aug 17, 2007, highlighted 20 Aug 1.2 J. DeGroot green. 2007 6102: Changed prompt wording. New wording is "...available yet..." instead of "available in this system yet." 6108: Changed the word "bring" to "take" in prompt 6180-CS-ReadStatus-Prompt-Initial-29. 6140: In "success" condition, added "<statusCode> = 0000" Updates based on client comments -- updates highlighted in blue. 23 Aug 1.3 Daniel Engelberg 2007 6170: Added IF success (ie "<statusCode> = 0000") to OneClaim, TwoClaims and ThreeClaims conditions 6170: Removed ZeroClaims condition 6170: Removed NoMatch condition 6177: Removed table 6170: Removed AcctBlocked condition 6180: In Initial-29 prompt, retained "We will return any documents that you send us." Removed struck-through text and struck-through tables carried over 28 Aug 1.4 Daniel Engelberg from previous versions. Removed highlighting carried over from 2007 previous versions. No changes to content of document. Internal Nuance release. Changes based on client comments. 30 Aug 1.5 Jenny DeGroot Changes highlighted in blue. 2007 6105: Added pronunciation note for OMB number. Changes highlighted in green. 31 Aug 1.6 D. Engelberg 2007 6120: Added DTMF option in Timeout2 and Help prompt. J. DeGroot 6130: Added DTMF option in all prompts 6190: Corrected typo in prompt name -- 6190-CS-MultiClaimEnd-Condition-Retry2 6190: Completed the Help prompt. (No references to "previous claim" and "next claim" because we don't know which applies.) Made the following changes to remove "Subroutine" notation. Changes highlighted in pink: • 6105: If Yes, go to 6120 instead of 6110.

			T
		6110-CS-CallAuthSubroutine-BC: Removed this DM.	
		6120: Entering from 6105 instead of 6110.	
		6145: Removed the "return code". Go to 6160 instead of 6110.	
		6150: Removed the "return code". Go to 6210 instead of 6110. 2454 Proposed the "return code". Go to 6210 instead of 6410. 2454 Proposed the "return code". Go to 6210 instead of 6410.	
		6151: Removed the "return code". Go to 6210 instead of 6110. CASO Paragonal the "return code". Go to 6210 instead of 6410. CASO Paragonal the "return code". Go to 6210 instead of 6410.	
		6152: Removed the "return code". Go to 6210 instead of 6110. CASO Removed the "return code". Go to 6210 instead of 6410. CASO Removed the "return code". Go to 6210 instead of 6410.	
		 6153: Removed the "return code". Go to 6210 instead of 6110. 6154: Removed the "return code". Go to 6210 instead of 6110. 	
		6154. Removed the Teturn code . Go to 6210 instead of 6110. 6155-CS-AuthResult-BC: Deleted this DM.	
		 6160: Entering from 6145 instead of 6155. 6210: Entering from 6150, 6151, 6152, 6153, 6154. Removed 	
		"entering from 6155".	
5 Sep 2007	1.6.1	Changes based on SSA comments. Changes highlighted in green:	J. DeGroot
		6170: In developer's note, changed Data Exchange document to reference v1.2 instead of v1.1. Added note that the DED is subject to	
5 Car 2007	4.00	change in the future, but that this spec references v1.2 Changes based on email from K. Harrigan, 5 Sep 2007. Changes	I DaCraat
5 Sep 2007	1.6.2	highlighted in green:	J. DeGroot
		6120-CS-GetSSN-DM:	
		SSN Option now has Requirement ID 6120-CS-GetSSN-Option- SSN instead of 5020-KBA-GetSSNumber-Option-SSN.	
		 Parameter now has Requirement ID 6120-CS-GetSSN-Parameter instead of 5020-KBA-GetSSNumber-Parameter. 	
		6175-CS-ReadNextClaimYN-DM:	
		Help Prompt now has Requirement ID 6175-CS- ReadNextClaimYN-Prompt-Help	
12 Sep 2007	1.6.3	Removed Global Defaults from retry 1 and 2 prompts	Sean Stallings/VZB
19 Sep 2007	1.6.4	Added Message Numbers	Sean Stallings/VZB
27 Sep	1.6.5	Changed 6210 to 6211	Sean
2007		Changed 6220 to 6121	Stallings/VZB
28 Sep, 2007	1.6.6	Added changes as recommended by Nuance	Sean Stallings/VZB
		Changes highlighted in yellow. S. Stallings' updates are still shown with changes tracked. All other previous changes have been accepted and previous highlighting removed.	
		Added new section, Developer Notes, in Chapter 1, for clarification purposes.	
		6103, 6105: Now goes to the new module, 6110-CS-Ping-DB instead of 6120.	
		6110-CS-Ping-DB: New DM added.	
		6111-CS-PingUnavailableMM-DM: New DM added.	
		6110, 6115: Added "entering from" new module 6110.	
		6151-CS-AuthSystemProblems-Msg: Added "entering from" 6110-CS-Ping-DB	
		6153-CS-AuthSystemUnavailable-Msg: Added "entering from" 6110-CS-Ping-DB	
11 Oct, 2007	1.6.7	Corrections of typos and cut&paste errors pointed out by SSA. Notes from Deborah Ellis /	Peter Modesto / Nuance

		Module 6175 (page 34) the prompt is titled Intial-16 and there is already a prompt titled Initial 16. Should this be Initial 26 instead?	
		6175 There are two each of Retry 1 & Retry 2 conditions listed yet the last two prompt names are Timeout1 & Timeout2. Should the condition for the last two be listed as conditions Timeout1 & Timeout2?	
		6180 & 6190 According to 6190-CS-MultiClaimEnd-Condition-Repeat2 a caller can enter this module from 6180 and will be returned to 6180 if requesting the claim to be repeated. If this is truly the case neither 6180 nor 6190 list the other within the "Entering from" section.	
		6182 Condition-No - the vocabulary states "yes and synonyms, including "no I wouldn't" & "no thanks". Should this read "no and synonyms" instead of yes?	
		6211 Currently grayed out so perhaps this is in the process of being updated. It seems this module can be entered from the following modules but not all are listed: 6150, 6151, 6152, 6153, 6154, 6171, 6173, 6174, and 6176.	
23 Oct 2007	1.6.8	Changed 6130 to 6125	Sean Stallings
			VZB
25 Oct 2007	1.6.9	Added message 81218 to DM 6174	Sean Stallings VZB
26 Oct 2007	1.7	Changed wording of attestation prompt, message 85002 in 6105-CS-Attestation-DM	Sean Stallings VZB
Nov 14 2007	1.71	Updated DM 6120, added new messages 82145, 82146, 82147 Updated prompting for DM 6160's Confirmation process	Sean Stallings VZB
Nov 19 2007	1.72	Changed prompt names in DM 6125 to reflect change from DM 6130 to DM 6125	Sean Stallings VZB
Nov 27 2007	1.73	Removed DM 6176 Updated stale hyperlink in DM 6170 Removed 'help' prompts from DM 6185 and DM 6190 Added module notes disabling 'the 'help' global for DM 6185 and DM 6190	Sean Stallings VZB Jenny DeGroot Nuance
Nov 28, 2007	1.74	Updated DM 6125; removed help prompt, moved module note regarding globals from the 'options' section to the 'module notes' section. Updated DM 6105, changed Success Prompt 1 to read "Thanks" Updated DM 6120, removed msg 70002, replaced it with msg 85146.	Sean Stallings VZB
Nov 29,2007	1.75	Updated DM 6125, changed success prompt 1 to play "Thanks" DM 6120 Removed developer note disabling dtmf in confirmation	Sean Stallings VZB
Nov 30, 2007	1.76	Updated, DM 6221, removed hyperlink for DM 6176 Updated DM 6120, added dtmf 1 for yes, dtmf 2 for no for confirmation	Sean Stallings VZB
Dec 3,	1.77	Updated DM 6180, added 6190 to "entering from" field	Sean Stallings

2007			VZB
Dec 3, 2007	1.78	Updated DM 6213-replaced msg. 85136 with msg. 82129 Updated DM 6216-replaced msg. 85137 with msg. 82130 Updated DM 6223-replaced msg. 85138 with msg. 12021 Updated DM 6226-replaced msg. 85139 with msg. 12401	Sean Stallings VZB
Jan 4, 2008	1.79	DM 6226-Corrected typo, message 120401 changed to 12041.	Sean Stallings VZB
Jan 4, 2008	1.8	Updated DM 6200. Per Bill Barnes, callers now route to DM 6213. Removed DM 6206	Sean Stallings VZB
Jan 10, 2008	1.81	Rolled back the changes implemented in 1.8 DM 6226- correct typo, message 12041 has been changed to 12401.	Sean Stallings VZB
Jan 11, 2008	1.82	Updated DM6125, changed name of confirmation prompts to conform with new numbering of the UI from 6130 to 6125	Sean Stallings VZB
Mar 3, 2008	1.83	Updated DM 6120; Clarified barge-in handling, added privacy direction to module notes. Updated DM 6125, added privacy direction to module notes. Added Privacy statement to Chapter 2 Global Behavior and General Info Added module 6103 Added module 6115 Added module 6122	Sean Stallings VZB
Mar 4, 2008	1.84	Updated 6102, 6103,6105 added "no barge in" to module notes	Jenny DeGroot Nuance
Mar 10, 2008	1.85	Updated DM 6115 and DM 6122; Corrected reporting information for "if else" conditions.	Sean Stallings VZB
Mar 12, 2008	1.86	Pause removed from message 85002 in DM 6105	Sean Stallings VZB
April 4, 2008	1.87	Clarified wording for conditions for 6103	Sean Stallings VZB
April 11, 2008	1.88	In order to assure that re-use items are properly reported, in Check Null Condition, if TVDC items to collect = 0, the call must then route to the next Check Condition Module.	Sean Stallings VZB
April 17, 2008	1.89	Updated Module 6105, removed 3 second pause from message 85003, broke message 85002 into two messages, 85002 and 85009. Disabled barge-in for initial prompt, enabled for all other prompts. Updated Module 6120, removed developer note stating that speech and dtmf were disabled for this module. Updated Module 6173, removed 4 second pause played after the message.	Sean Stallings VZB
April 21, 2008	1.90	Corrected reporting strings for Modules 6115, 6122 Updated DM6105 to add the [3 second pause] back into Retry 1 to mirror ClaimStatus Updated [1 sec silence] message numbers to be 1000, instead of 10000	Sean Stallings VZB Becky Stallings, VzB
May 6, 2008	1.91	Updated Module 6103, added conditional logic. If attestation flag is set to 1, callers should not route to 6105. Added entry to 'go to' field, callers exiting this module should have the attestation flag should be set to 1. Replaced message 85009 with 85003, since these messages had duplicate wording.	Sean Stallings VZB

May 23, 2008	1.92	Removed the barge-in settings for the Success prompts for DM6105. The recognizer is no longer listening for a response, so barge-in is not applicable at this point. Highlighted Barge-in changes in pink.	Becky Stallings, VzB
September 04, 2008	2.0	BBN Findings Effort 1) Updated module 6105, updated retry 2, message 85004 2) Updated module 6175, updated retry 2, messages 85058 and 85059 3) Updated module 6185, updated retry 2 message 85104 4) Highlighted all BBN Findings changes in Green	Sean Stallings VZB
September 25, 2008	2.1	Added Verizon Business proprietary statement to title page and all page footers.	Sean Stallings VZB
October 13, 2008	2.2	Updated input parameters for modules 6110, 6140, 6170. Agent Transfer: Agent Transfer is actually being done in main menu. UI has been updated to correctly document this. 1) Updated module 6200, now shows that callers route back to Main Menu for Max Timeout/Retries and Agent Transfer. 2) Removed modules 6203, 6206, 6221, 6223, 6226. These modules are duplicates of what is already documented in Main Menu. 3) Updated module, 6154, this module now routes to module 6200 on the Max Timeout/ Retries condition. 4) Updated module 6160, 6185, 6190, these modules now route to module 6200 on the Agent Request condition.	Sean Stallings VZB
October 20, 2008	2.2	Updated DM 6140 for HC 4.0. Removed AppID host command per 'As Built' configuration. Updated DM 6200, Agent Transfer, to reflect transfer to N8NN Main Menu DM 1201.	Kim Rothlis VzB
December 3, 2008	2.3	Updated module 6200, 'Agent Request' condition now routes to N8NN Main Menu, module 1220 NeedsAgentCheckAvailable. Updated module 6211, added additional clarification to module explanation. Note now states that callers will also come to 6211 for Agent assistance. Updated 'entering from' field, added module 6154. Updated module 6154, now shows as routing to module 6211	Sean Stallings VZB
January 27, 2009	2.4	Updated Header	Sean Stallings VZB
February 5, 2009	2.5	Implemented changes as recommended for Tuning 1. DM 6102: Converted from a PlayPrompt to a DM so that we can warn caller they need Claim Confirmation Number and ask if they have it on hand. Allow callers responding positively to proceed, terminate call for those without a Confirmation Number. DM 6182: remove distinction on 'repeat' between multi-claim and single-claim lists. DM 6185: add 'repeat' logic to the single-claim-end logic chain. Changes are in blue.	Peter Modesto Nuance
February 6, 2009	2.6	Removed all highlights from previous efforts. DM 6185: Changed 'main menu' DTMF option to '9'. Updated message 85106 to reflect this.	Sean Stallings VZB
Feb 10, 2009	2.6.1	DM 6102: • modify yes/no to 'I have it' / 'I do not have it' to enhance prompt clarity. • Make return to main menu an explicit option Changes are in green.	Peter Modesto Nuance

February 20, 2009	2.6.2	Updated module 6102, added message numbers for all new prompts.	Sean Stallings
February 24, 2009	2.6.3	Updated module 6102, corrected message numbers for new prompts. Set barge-in to 'yes' for timeout 2 and retry 2 prompts. Corrected message 85001, removed extraneous 'with'. Updated module 6103, removed TVDC Flag = 1 condition, since this flag is not being used. Updated 'if attestation flag =1' condition, now routes to module 6110. Updated 6110, 'entering from' field now shows entering from 6103. Updated 6115, 'entering from' field no longer shows entering from 6103.	VZB Sean Stallings VZB
February 26, 2009	2.6.4	Updated module 6185, added message number 85133 to confirmation prompt.	Sean Stallings VZB
March 12, 2009	2.6.5	Added reporting tags to all modules. Updated module 6185, corrected typo in message 85104. Added 'Repeat That' to vocabulary for 'Repeat' option—this resolves ticket 593896.	Sean Stallings VZB
March 19, 2009	2.6.6	Updated module 6125, corrected wording for message 85011, added missing 'and' back to the beginning of the message—this resolves ticket 602923. Updated module 6180, updated action for REQID 6180-CS-ReadStatus-Condition-Always, removed direction to play success prompt —This resolves ticket 602938. Removed audio directions for messages 85088 and 85089.	Sean Stallings VZB
March 20, 2009	2.6.7	Updated module 6102, corrected typo in REQID's.	Sean Stallings VZB
March 25, 2009	2.6.8	Updated module 6102, corrected naming error in REQID's.	Sean Stallings VZB
March 31, 2009	2.6.9	Updated module 6102, changed reporting tag to reflect code.	Kim Rothlis VzB
April 17, 2009	2.6.10	Updated module 6102, updated reporting tag, now shows 'DM' instead of 'Msg".	Sean Stallings VZB
April 28, 2009	2.6.11	Updated section 2.1 Timeouts and Retries. Added prompting for timeout global default. Updated module 6160, added global default tag to timeout 1 and timeout 2.	Sean Stallings VZB
May 26, 2009	2.6.12	Corrected all reporting tags. Removed all highlights/struck through text for previous releases. Updated module 6102, 'entering from' now correctly shows N8NN module 6000 instead of 1100. Updated module 6122, corrected broken hyperlink to module 6135. Updated module 6125, corrected broken hyperlink to module 6135. Updated module 6135, corrected broken hyperlink to module 6125. Updated module 6153, removed duplicate hyperlinks for module 6211. Updated module 6171, removed duplicate hyperlinks for module 6211. Updated module 6174, removed duplicate hyperlinks for module 6211. Updated module 6200, agent request now routes to module 1201.	Sean Stallings VZB
June 29, 2009	2.6.13	Tuning 2 changes: *6102-CS-Preamble-DM: - Added "do not have it" as a synonym for "no". *6160-CS-GetConfNumber-DM: - Added developer notes to indicate that params should be changed as follows:	Ilana Rozanes Nuance
		<pre><var expr="'2200ms'" name="property_collection_completetimeout"></var> <var expr="'2200ms'" name="property_interdigittimeout"></var></pre>	

Verizon Business -- Confidential

July 8, 2009	2.6.14	*6185-CS-OneClaimEnd-DM: - Changed Retry2 prompt so that it is the same as Timeout2 prompt Updated the cover page to include the name of the effort (SARA 2 Tuning 2). Updated DM 6185 to include in track changes, previous version of wording for message #85104.	Kim Rothlis VzB
August 11, 2009	2.6.15	Misc: -Updated wording in DM 6102, msg# 85153 to reflect audio recording (SSA to Social Security Administration)Fixed various broken linksAdded missing links: DM 6153, Entering From section, missing link to DM 6110 DM 6180, Entering From section, missing link to DM 6185	Kim Rothlis VzB
April 28, 2010	2.6.16	SARA 2 OMB Attestation Revision: Revised attestation wording in DM 6105, msg# 85002 per Change Control requirements.	Kim Rothlis, VzB

Chapter 1: Introduction

This document is one part of a set of documents that describe the user interface for the Social Security Administration (SSA) N8NN SARA 2 application. This document describes only the interaction for checking Claim Status. The call flow has passed through Call Steering (in the N8NN application) before getting to this section.

Developer Notes

The following notes apply throughout this document.

1. For all recognition modules in this spec, the return string for coding is the string that follows the last dash in the Option or Requirement ID name, excluding any trailing digits.

For example (from DM 6190):

Option or Req ID (shown in the DM tables in this spec)	Return string (specified in the grammar)
6190-CS-MultiClaimEnd-Condition- Repeat1	Repeat
6190-CS-MultiClaimEnd-Condition- Repeat2	Repeat
6190-CS-MultiClaimEnd-Condition- Next1	Next
6190-CS-MultiClaimEnd-Condition- Next2	Next
6190-CS-MultiClaimEnd-Condition- Previous1	Previous
6190-CS-MultiClaimEnd-Condition- Previous2	Previous
6190-CS-MultiClaimEnd-Condition- Other	Other

2. For each DM that contains a Help prompt in this spec, the grammar will provide a "help" return string. When **help** is returned, the app should play the DM-specific Help prompt and wait for a response.

Speech Science note: For the "Help" option, the grammar should include the phrase "more information." The grammar should not include the word "help" itself because it can often be a false attractor.

Chapter 2: Global Behavior and General Info

2.1 Time-outs and Retries

Retry prompts are specified in the DialogModule tables, and they are preceded by the appropriate apology prompt.

Message Number 110	retry 1	upon rejection of speech	apology_re1	I'm sorry, I didn't understand you.
Message Number		upon confirmation	apology_re1	My mistake.
Message Number	retry 2	upon rejection of speech	apology_re2	I'm sorry, I still didn't understand you.
Message Number		upon confirmation	apology_re2	My mistake again.
Message Number	Timeout 1	upon no input	apology_re1	I'm sorry, I didn't hear anything.
Message Number		upon confirmation	apology_re1	My mistake.
Message Number	Timeout 2	upon no input	apology_re2	I'm sorry, I still didn't hear anything.
Message Number		upon confirmation	apology_re2	My mistake again.
	excess retri	∍s	[]	<pre><timeout dialogmodule="" in="" prompt(s)="" retry="" specified="" table=""></timeout></pre>

Note that Timeout prefixes for the *collection* phase (rejection of speech) are included as part of the Timeout prompts in each DM, whereas Timeout prefixes for the *confirmation* phase are usually not specified in the DM tables.

When a caller reaches Max Timeout or Max Retry, the callflow should go to 6200-GiveUpSendSomewhere-BC

2.2 System Timeout

In addition to the regular timeouts, there is also a global *System Timeout*, set to a specific number of minutes. The prompting and logic for this condition is specified in the N8NN user interface specification.

2.3 Privacy

The following information is considered confidential; SSN, Date of Birth. The confidential flag should be set to true for all dialog modules collecting this information from the caller.

2.4 Global Commands and Global Prompts

Global prompts, grammar, and logic are specified in the N8NN user interface specification.

Developer notes

The parameter values above are taken from 5130-GetDOB-Date in the KBA spec. These are the latest ones we have on record. Please validate these against the ones that you have in the deployed code.

Remove all global grammars for this DM.

(The following notes are based on 5130-GetDOB-Date in KBA spec)

Although the application does not explicitly guide callers to use DTMF for the Date of Birth entry, it is enabled.

Date entry should be in the form of MM/DD/YY to be accepted.

Trim the grammar so that the day of the week is not allowed.

For CPR of date playback, insert 250 msec silence between month and day, and 500 msec silence between day and year

Set Confidential Flag to TRUE

Developer Notes

The output fields are from the TKCS_Data_Exchange_Protocol.doc, v1.2, section 5.7.2, provided by SSA. The Data Exchange document (DED) is subject to future change by SSA; however, the information in this UI spec is based on v1.2 of the DED.

The "Output Fields" listed above all have names ending in "1". These all refer to the first or only claim retrieved for this confirmation number.

If 2 claims are returned for this confirmation number, there will also be output fields named <claimType2>, <claimStatus2>, etc. -- the same long list of fields that were returned for Claim 1.

If 3 claims are returned, there will also be output fields named <claimType3>, <claimStatus3>, etc. -- the same long list of fields.

The values in the table above will be used for reading out claim types, status, and dates in DMs 6175 and 6180.

6180-CS-ReadStatus-Msg

Play Prompt

This DM plays the claim status information for one claim. If the caller has 2 or 3 claims, the callflow can bring the caller back to this DM multiple times. On each visit to this DM, the info for just one claim is read.

Entering from

6170-CS-LookupConfNumber-DB, 6175-CS-ReadNextClaimYN-DM, 6182-CS-RepeatStatusYN-DM, 6190-CS-MultiClaimEnd-DM, 6185-CS-OneClaimEnd-DM

Developer Notes / Entry Logic

Many of the variables below contain an 'N', e.g., <claimStatusN>, <pendingIssuesN>, etc.

Before playing out the prompts, **set N= <current_claim>**. I.e., N will be set to 1 or 2 or 3, depending on which claim is being reviewed. This will enable us to properly play out <claimStatus1> or <claimStatus2> or <claimStatus3>, and the associated prompts for that claim. (The value of <current_claim> is set in 6170, 6175, 6185, and 6190.)
