SUPPLEMENTARY INFORMATION:

I. Abstract

Office of Management and Budget (OMB) regulations in 5 CFR part 1320, which implement the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities

(see 5 CFR 1320.8(d)). This notice identifies an information collection activity that the Office of Budget is planning to submit to OMB for extension or re-approval.

Public Law 97-258 (31 U.S.C. 6901-6907), as amended, the Payments in Lieu of Taxes (PILT) Act, was designed by Congress to help local governments recover some of the expenses they incur in providing services on public lands. These local governments receive funds under various Federal land payment programs such as the National Forest Revenue Act, the Mineral Lands Leasing Act, and the Taylor Grazing Act. PILT payments supplement the payments that local governments receive under these other programs. While the program is due to expire in 2012, the FY 2013 budget proposes a one-year extension of the current PILT program, maintaining the existing formula for calculating payments to counties. That proposal is currently pending before Congress. This renewal authority is being done in anticipation of reauthorization by Congress.

The PILT Act requires that the Governor of each State furnish the Department of the Interior with a listing of payments disbursed to local governments by the States on behalf of the Federal Government under 12 statutes described in Section 6903 of 31 U.S.C. The Department of the Interior uses the amounts reported by the States to reduce PILT payments to units of general local governments from that which they might otherwise receive. If such listings were not furnished by the Governor of each affected State, the Department would not be able to compute the PILT payments to units of general local government within the States in question.

In fiscal year 2004, administrative authority for the PILT program was transferred from the Bureau of Land Management to the Office of the Secretary of the Department of the Interior. Applicable DOI regulations pertaining to the PILT program to be administered by the Office of the Secretary were published as a final rule in the **Federal Register** on December 7, 2004 (69 FR 70557). The Office of Budget, Office of the Secretary is now planning to extend the information collection approval authority in order to enable the Department of the Interior to continue to comply with the PILT Act.

The Act requires that the Governor of each State furnish a statement as to amounts paid to units of general local government under 12 revenue-sharing statutes in the prior fiscal year. While the program is due to expire in 2012, the FY 2013 budget proposes a one-year extension of the current PILT program, maintaining the existing formula for calculating payments to counties. That proposal is currently pending before Congress. This renewal authority is being done in anticipation of reauthorization by Congress.

III. Request for Comments

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to
