

## Note to Reviewer

The electronic system for the Form ETA-9142A - H-2A Application for Temporary Employment Certification is still being built. However, the electronic system for the ETA-9142B - H-2B Application for Temporary Employment Certification has been completed. Because the Department has simply cloned the form from the original ETA-9142 that is currently approved by OMB for use under the 1205-0466 control number into two identical forms, but called them the ETA-9142A and ETA-9142B, the screen shots attached depict the H-2B version of the exact same form that will be available later this year for the H-2A form. The only difference there will be in the H-2A electronic version is that the words "H-2A" will replace "H-2B" within the form. Other than that the screen shots will be identical.
