C. TERM. This permit shall expire at midnight on [date], [number of years (F.Sup/20, RF/30, NTE/30)] from the date of issuance. Expiration of this permit shall not require notice, a decision document, or any environmental analysis or other documentation.

Select item 2. For new areas or areas in need of a Master Development Plan per FSM 2341.

C. TERM. This permit is for a term of [number (1 to 5 recommended)] years to provide for the holder to prepare a Master Development Plan (MDP). Subject to acceptance of the MDP by the authorized officer, this permit shall be extended for an additional [number (1 to 5 recommended)] years for a total of [number (NTE/10)] years to provide the holder sufficient time to construct facilities approved in the MDP within the schedule outlined in clause II.D. (Site Development Schedule), so that the area may be used by the public. Further Provided; this permit shall be extended by its terms for an additional [number] years for a total of [number (F.Sup.20, RF30, NTE30)] years if it is in compliance with the site development schedule in the MDP. The total term of this permit

shall not exceed 30 years. Failure of the holder to comply with all or any provisions of this clause shall cause the permit to terminate under its terms.

D. RENEWAL. This permit does not provide for renewal. Prior to expiration of this permit, the holder may apply for a new permit that would renew the use and occupancy authorized by this permit. Applications for a new permit must be submitted at least one year prior to expiration of this permit. Renewal of the use and occupancy authorized by this permit shall be at the sole discretion of the authorized officer. At a minimum, before renewing the use and occupancy authorized by this permit, the authorized officer shall require that (1) the use and occupancy to be authorized by the new permit is consistent with the standards and guidelines in the applicable land management plan; (2) the type of use and occupancy to be authorized by the new permit is the same as the type of use and occupancy authorized by this permit; and (3) the holder is in compliance with all the terms of this permit. The authorized officer may prescribe new terms and conditions when a new permit is issued.

E. AMENDMENT

1. This permit may be amended in whole or in part by the Forest Service when, at the discretion of the authorized officer, such action is deemed necessary or desirable to incorporate new terms that may be required by law, regulation, the applicable land management plan, or projects and activities implementing a land management plan pursuant to 36 CFR Part 215.

2. At the sole discretion of the authorized officer, this permit may be amended to remove authorization to use any National Forest System lands not specifically covered in the master development plan for this permit or not needed for the use and occupancy authorized by this permit.

3. The holder may apply for an amendment to this permit to cover new or changed uses or areas. In approving or denying an amendment, the authorized officer shall consider, in addition to the requirements in applicable laws and regulations, the findings or recommendations of other affected agencies and whether the new or changed use or area can be accommodated by an amendment to this permit, or whether a new permit should be issued.

F. COMPLIANCE WITH LAWS, REGULATIONS, AND OTHER LEGAL REQUIREMENTS. In exercising the privileges granted by this permit, the holder shall comply with all present and future federal laws and regulations and all present and future state, county, and municipal laws, regulations, and other legal requirements that apply to the permit area, to the extent they do not conflict with federal law, regulation, or policy. The Forest Service assumes no responsibility for enforcing laws, regulations, and other legal requirements that fall under the jurisdiction of other governmental entities.

G. NON-EXCLUSIVE USE. The use and occupancy authorized by this permit are not exclusive. The Forest Service reserves the right of access to the permit area, including a continuing right of physical entry to the permit area for inspection, monitoring, or any other purpose consistent with any right or obligation of the United States under any law or regulation. The Forest Service reserves the right to allow others to use the permit area in any way that is not inconsistent with the holder's rights and privileges under this permit, after consultation with all parties involved. Except for any restrictions that the holder and the authorized officer agree are necessary to protect the installation and operation of authorized improvements, the permit area shall remain open to the public for all lawful purposes.

H. ASSIGNABILITY. This permit is not assignable or transferable.

I. TRANSFER OF TITLE TO THE IMPROVEMENTS

1. Notification of Transfer. The holder shall notify the authorized officer when a transfer of title to all or part of the improvements is contemplated.

2. Transfer of Title. Any transfer of title to the improvements covered by this permit shall result in termination of the permit. The party who acquires title to the improvements must submit an application for a permit. The Forest Service is not obligated to issue a new permit to the party who acquires title to the improvements. The authorized officer shall determine that the applicant meets requirements under applicable federal regulations.

a. In the case of a corporation, control is an interest, beneficial or otherwise, of sufficient outstanding voting securities or capital of the business so as to permit the exercise of managerial authority over the actions and operations of the corporation or election of a majority of the board of directors of the corporation.

b. In the case of a partnership, limited partnership, joint venture, or individual entrepreneurship, control is a beneficial ownership of or interest in the entity or its capital so as to permit the exercise of managerial authority over the actions and operations of the entity.

c. In other circumstances, control is any arrangement under which a third party has the ability to exercise management authority over the actions or operations of the business.

2. Effect of Change in Control. Any change in control of the business entity as defined in clause J.1 shall result in termination of this permit. The party acquiring control must submit an application for a special use permit. The Forest Service is not obligated to issue a new permit to the party who acquires control. <Delete clauses II.C and II.D from permits that do not have and will not have a master development plan.>

C. MASTER DEVELOPMENT PLAN. The holder shall prepare and maintain, in a form acceptable to the Forest Service, a master development plan (MDP) encompassing the entire operation presently envisioned for development in connection with the NFS lands authorized by this permit. The MDP should encompass all NFS lands authorized for use by this permit. For planning purposes, a capacity for use measured in people-at-one time shall be established in the MDP. Upon acceptance by the authorized officer, the MDP shall become a part of this permit. Overall development at the resort or marina authorized by the permit shall not exceed the capacity established in the MDP, and additional construction beyond maintenance of existing improvements at the resort or marina covered by this permit shall not be authorized without amendment of the MDP and without the requisite environmental analysis and documentation needed to support that additional construction or development under the National Environmental Policy Act (NEPA). The holder shall propose any changes to the MDP in a form acceptable to the Forest Service and shall submit the proposed changes to the authorized officer. Once accepted, the revised MDP shall become a part of this permit. Acceptance of the original or revised MDP by the authorized officer does not authorize new development or uses. The authorized officer's acceptance of the original or revised MDP does not constitute approval of its contents or provide any assurance that any particular item in the original or revised MDP will be authorized by the Forest Service or constructed by the holder. No rights or obligations of the holder or the Forest Service are determined by the authorized officer's acceptance of the original or revised MDP, nor do any legal consequences, including the requirement to conduct environmental analysis under NEPA, flow from the authorized officer's acceptance of the original or revised MDP.

D. SITE DEVELOPMENT SCHEDULE. The holder and the Forest Service jointly shall prepare a site development schedule, which shall become part of this permit, before any construction occurs in the permit area. The site development schedule shall list improvements in the master development plan and any amendments to the plan in order of priority, the starting date for their construction, and the due date for their completion. All required plans and specifications for improvements included in the site development schedule shall be properly

certified and submitted to the authorized officer at least 45 days before the starting date for their construction. The holder may accelerate the scheduled date for completion of any improvement, as long as the other scheduled improvements are completed on time and to the satisfaction of the authorized officer. Any other changes to the site development schedule must have prior written approval from the authorized officer. Pursuant to clause IV.K, the authorized officer may require a performance bond for improvements constructed under a site development schedule.

III. OPERATIONS -

A. OPERATING PLAN. The holder shall prepare and annually revise by [date] an operating plan. The operating plan shall be prepared in consultation with the authorized officer or the authorized officer's designated representative and shall cover all operations authorized by this permit. The operating plan shall outline steps the holder will take to protect public health and safety and the environment and shall include sufficient detail and standards to enable the Forest Service to monitor the holder's operations for compliance with the terms and conditions of this permit. The operating plan shall identify and schedule any inspections that the holder is required to conduct at the holder's expense. The operating plan shall be submitted by the holder and approved by the authorized officer or the authorized officer's designated representative prior to commencement of operations and shall be attached to this permit as an appendix. The authorized officer may require an annual meeting with the holder to discuss the terms and conditions of the permit or operating plan, update gross fixed assets (GFA) when the permit fee is calculated under the graduated rate fee system (GRFS), provide annual use reports, determine need for performance bond for construction projects and amount of bond or other concerns either party may have.

B. PERIOD OF USE. The use and occupancy authorized by this permit shall be in normal operation at least [] days each year or season. Failure of the holder to exercise this minimum use may result in revocation of this permit under clause VII.A.

A limited amount of activities may be conducted by a party other than the holder, but only with prior written approval of the authorized officer. E. CONDITION OF OPERATIONS. The holder shall maintain the authorized improvements and permit area to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the authorized officer and consistent with other provisions of this permit. Standards are subject to periodic change by the authorized officer. The holder shall comply with inspection requirements deemed appropriate by the authorized officer.

F. MONITORING BY THE FOREST SERVICE. The Forest Service shall monitor the holder's operations and reserves the right to inspect the permitted facilities and improvements at any time for compliance with the terms of this permit. The obligations of the holder under this permit are not contingent upon any duty of the Forest Service to inspect the premises. A failure by the Forest Service or other governmental officials to inspect is not a defense to noncompliance with any of the terms and conditions of this permit.

G. REMOVAL AND PLANTING OF VEGETATION. This permit does not authorize the cutting of timber or other vegetation. Trees or shrubbery may be removed or destroyed only after the authorized officer or the authorized officer's designated representative has approved in writing and marked or otherwise identified what may be removed or destroyed. Timber cut or destroyed shall be paid for at current stumpage rates for similar timber in the National Forest. The Forest Service reserves the right to dispose of the merchantable timber to those other than the holder at no stumpage cost to the holder. Unmerchantable material shall be disposed of as directed by the authorized officer. If the permit authorizes the holder to operate all or part of a federally owned drinking water system, delete clause III.K, reletter the remaining clauses in section III, and attach Appendix F, "Operation of Federally Owned Drinking Water Systems," from Form FS-2700-4h to the permit. >

< Selection item 3: Use the following clause VI.A for permits on the GRFS fee system that have an annual land use fee of \$3500 or more.>

The holder shall pay market value for the use of National Forest System lands for operation of the authorized facilities as determined by the Graduated Rate Fee System (GRFS). The land use fee may be readjusted every 5 years to ensure that the fee is commensurate with the market value of the use and occupancy authorized by this permit.

1. The provisions of GRFS identified under this permit may be revised by the Forest Service to reflect changed times and conditions. Changes shall become effective when:
 - (a) mutually agreed;
 - b) the permit is amended for other purposes; or
 - (c) a new permit is issued (including after termination of this permit).

2. GRFS may be replaced in its entirety by the Chief of the Forest Service if a new generally applicable fee system is imposed affecting all holders of authorizations under 16 U.S.C. 497. Replacement shall become effective on the beginning of the holder's business year.

<User note for clause A.3. Include this clause if use and occupancy are located on both private and National Forest System lands. Otherwise, omit it.>

3. Allocation of GFA and Sales For purposes of the calculation, GFA will be adjusted as follows: Full value will be allowed for assets used solely to generate sales for permitted operations. No value will be given for assets used solely to generate sales for private operations. Assets used jointly to generate sales for private and permitted operations will be allocated on a basis of use. All GFA will be shown on the depreciation schedule.

B. FEES - GRFS. The annual fees due the United States for those activities authorized by this permit shall be calculated on sales according to the following schedule:

Kind of Business	Break-even point (Sales to GFA) (Percentage)	Rate Base (Percentage)	Balance of Sales Rate (Percentage)
Grocery	70	.75	1.13
Service, Food	70	1.25	1.88
Service, Car	70	1.30	1.95
Merchandise	70	1.50	2.25
Service, Liquor	60	1.80	2.70
Outfitting/Guiding	50	2.00	3.00
Rental and Services	30	4.50	6.75
Lodging	40	4.00	6.00
Lifts, Tows, Ski Schools	20	2.00	5.00

1. A weighted-average break-even point (called the break-even point) and a weighted-average rate base (called the rate base) shall be calculated and used when applying the schedule to mixed business. If the holder's business records do not clearly segregate the sales into the business categories authorized by this permit, they shall be placed in the most logical category. If sales with a different rate base are grouped, place them all in the rate category that shall yield the highest fee. Calculate the fee on sales below the break-even point using 50 per cent of the rate base. Calculate the fee on sales between the break-even point and twice the break-even point using 150 percent of the rate base. Calculate the fee on sales above twice the break-even point using the balance of sales rate.

2. The minimum annual fee for this use, which is due in advance and is not subject to refund, shall be equal to the fee that would result when sales are 40 percent of the break-even point. This fee shall be calculated and billed by the Forest Service during the final quarter of the holder's fiscal year, using the most recent GFA figure and previously reported sales data for the current year, plus, if the operating season is still active, estimated sales for the remainder of the year.

GFA shall be established by and changed at the sole discretion of the authorized officer based on the current interpretation of guidelines supporting GRFS.

(b) Revaluing GFA. Revalue GFA when events result in a change or restatement of fixed assets on the holder's official accounting records, prepared in accordance with GAAP. Examples of events that may cause the holder to restate the value of fixed assets include, but are not limited to:

- (1) Sale of assets or common stock which results in a change in ownership, or controlling interest;
- (2) Mergers or other business combinations;

D. CHANGE OF GFA UPON SALE OR CHANGE IN CONTROLLING INTEREST. Upon change of ownership, effective dominion or controlling interest or upon sale of assets or common stock which results in a change of ownership, effective dominion, or controlling interest, the value of GFA shall be established applying GAAP.

E. DETERMINING SALES AND OTHER REVENUE. Sales and GFA shall be derived from all improvements and facilities, including those of applicable third parties, which constitute a logical single overall integrated business operation regardless of the land ownership. A map shall be prepared designating the development boundary and may be augmented by narrative or table and shall become a part of this permit.

Sales for the purpose of fee calculation include; (1) all revenue derived from goods and services sold which are related to operations under this permit and all revenue derived within the development boundary, unless otherwise excluded; (2) the value of goods and services traded-off for goods and services received (bartering); and (3) the value of gratuities.

The holder provides little, if anything, in the way of facilities or services. They may be the only fee paid to the holder or, if some facilities or services are provided by the holder, they may be made in addition to a rental fee. The franchise receipts may be in the form of fixed amounts of money or in reduced prices for the franchiser's product or service.

(b) Inclusions. The following items shall be included as gross receipts to arrive at sales:

(2) The value of meals and lodging furnished by an employer to an employee for the employer's convenience if, in the case of meals, they are furnished on the employer's business premises. The fact that the employer imposes a partial charge for or that the employee may accept or decline meals does not affect the exclusion if all other conditions are met. If employer imposes a charge for meals and lodging it shall be included at transaction price.

The holder need not keep records of employee meals and lodging more detailed than those required by the Internal Revenue Service.

The Forest Service may update these addresses as needed by sending written notice to the holder.

1. Periodic Reports. The holder shall report sales and calculate fees due each calendar [enter the reportable period, e.g. month, quarter, or year], except for periods in which no sales take place and the holder has notified the authorized officer that the operation has entered a seasonal shutdown for a specific period. Reports shall be made within 30 days of the end of each reportable period to [enter mailing address of administering office]. If the holder does not submit reports within the required timeframe, the Forest Service reserves the right to bill the holder based on historic sales data and to assess interest and late fees.

2. Tentative Fee Rate. Prior to the authorized officer shall annually determine and furnish the holder with a tentative rate (as determined in paragraphs B.2 through F.1 of this clause). which shall be applied to sales in the fee calculation.

3. Initial Payment. The Forest Service shall bill the minimum fee (as determined in paragraph B.2 of this clause) 30 days prior to issuance of this permit and each year thereafter that this permit is in effect within 30 days of the final reporting period for the previous year. The holder shall submit payment in accordance with instructions in the bill to the lockbox address.

<USER NOTES FOR CLAUSE F.4>

<Each year after the holder has submitted annual sales data, estimate the annual fee for the following year based on the most recent sales data. Divide the estimated annual fee by the number of units in the reportable period (for example, 12 for months, 4 for quarters, or 1 for a year) to determine the amount of subsequent payments. Compare the minimum fee to the amount of subsequent payments to determine the number of reportable periods represented by the minimum fee. Commence the billing cycle when the minimum fee no longer covers subsequent payments due. Continue billing in advance of the authorized use.>

4. Subsequent Payments. The Forest Service shall bill the permit fee [enter month, quarter, or year] based on the reportable period. The holder shall submit payments in accordance with instructions in the bill to the lockbox address.

5. End-of-Year Report. The holder must provide within three months after the close of each fiscal year under this permit a balance sheet representing the financial condition of the authorized operations at the close of the holder's fiscal year; an annual statement reporting the results of the authorized operations, including year-end adjustments for the holder and each of the holder's lessees for the same period; and a schedule of GFA adjusted to comply with the terms of this permit in a format and manner prescribed by the authorized officer. If the authorized officer determines that additional permit fees are owed due to the holder's failure to report all sales in the period they were made or misreporting of GFA, the holder shall pay the additional fees, subject to the late payment provisions in clause G.3.

6. Reconciled Fee. The estimated permit fee shall be reconciled against the holder's actual sales at the end of the holder's fiscal year and shall be adjusted, if necessary. The Forest Service shall bill the holder for any additional fees owed, and the holder shall submit payment in accordance with the instructions in the bill to the lockbox address. The Forest Service shall credit any overpayment against the next payment due.

G. FEE PAYMENT ISSUES.

1. Crediting of Payments. Payments shall be credited on the date received by the deposit facility, except that if a payment is received on a non-workday, the payment shall not be credited until the next workday.

2. Disputed Fees. Fees are due and payable by the due date. Disputed fees must be paid in full. Adjustments will be made if dictated by settlement terms or an appeal decision.

3. Late Payments

(a) Interest. Pursuant to 31 U.S.C. 3717 et seq., interest shall be charged on any fee amount not paid within 30 days from the date it became due. The rate of interest assessed shall be the higher of the Prompt Payment Act rate or the rate of the current value of funds to the Treasury (i.e., the Treasury tax and loan account rate), as prescribed and published annually or quarterly by the Secretary of the Treasury in the Federal Register and the Treasury Fiscal Requirements Manual Bulletins. Interest on the principal shall accrue from the date the fee amount is due.

(b) Administrative Costs. If the account becomes delinquent, administrative costs to cover processing and handling the delinquency shall be assessed.

(c) Penalties. A penalty of 6% per annum shall be assessed on the total amount that is more than 90 days delinquent and shall accrue from the same date on which interest charges begin to accrue.

4. Administrative Offset and Credit Reporting. Delinquent fees and other charges associated with the permit shall be subject to all rights and remedies afforded the United States pursuant to 31 U.S.C. 3711 et seq. and common law. Delinquencies are subject to any or all of the following:

(a) Administrative offset of payments due the holder from the Forest Service.

(b) If in excess of 60 days, referral to the Department of the Treasury for appropriate collection action as provided by 31 U.S.C. 3711(g)(1).

(c) Offset by the Secretary of the Treasury of any amount due the holder, as provided by 31 U.S.C. 3720 et seq.

(d) Disclosure to consumer or commercial credit reporting agencies.

H. NONPAYMENT. Failure of the holder to make timely payments, pay interest charges, or any other charges when due shall be grounds for revocation of this permit.

I. ACCESS TO RECORDS. For the purpose of administering this permit (including ascertaining that the correct land use fee was paid) the holder shall make all accounting books and supporting records for the authorized operations, as well as those of lessees operating in the permit area, available for review by the Forest Service or other federal agencies authorized to review Forest Service activities. Review of accounting books and supporting records shall be made at dates convenient to the holder and reviewers. The holder shall retain these records and keep them available for review for 5 years after they were generated, unless otherwise approved by the authorized officer in writing.

J. ACCOUNTING RECORDS. The holder shall follow GAAP or other comprehensive bases of accounting acceptable to the Forest Service in recording financial transactions and in reporting financial results to the authorized officer. When requested by the authorized officer, the holder at its own expense, shall have annual accounting reports for the authorized operations audited or prepared by a licensed independent accountant acceptable to the Forest Service. The holder shall require lessees to comply with these same requirements. At a minimum, the holder's and lesees' accounting system shall include:

1. Systematic internal controls and recording by type of business the gross receipts derived from all operations conducted under this permit. Gross receipts should be recorded daily and, if possible, deposited into a bank account without reduction by disbursements. Receipt entries shall be supported by cash register tapes, sale invoices, rental records, cash accounts from other sources, or some other means.
2. A permanent record of capital investments in facilities (including a depreciation schedule).
3. Generation and maintenance of such other records and accounts as may be specified by the authorized officer.

K. AUDIT. All fee calculations and records of sales and GFA are subject to periodic audit. Errors in calculation or payment shall be corrected as needed for conformance with those audits. Additional fees and interest due as a result of such audits shall be assessed in accordance with clause G.3.

1. Correction of errors includes but is not limited to any action necessary to establish the cost of GFA to the current holder, including sales, or other data required to accurately assess and calculate land use fees. For land use fee calculation purposes, errors may include:

(a) Misreporting or misrepresentation of amounts;

(b) Arithmetic mistakes;

(c) Typographical mistakes; and

(d) Variation from GAAP, when such variations are inconsistent with the terms and conditions of this permit.

2. Correction of errors shall be made retroactively to the date the error was made or to the previous audit period, whichever is more recent, with past fees adjusted accordingly.

3. Changes effected by agency policy, including definition of assets included in GFA, shall only be made prospectively.

VII. REVOCATION, SUSPENSION, AND TERMINATION

A. REVOCATION AND SUSPENSION. The authorized officer may revoke or suspend this permit in whole or in part:

1. For noncompliance with federal, state, or local law.
2. For noncompliance with the terms and conditions of this permit.
3. For abandonment or other failure of the holder to exercise the privileges granted.
4. With the consent of the holder.
5. For specific and compelling reasons in the public interest.

Prior to revocation or suspension, other than immediate suspension under clause VII.C, the authorized officer shall give the holder written notice of the grounds for revocation or suspension. In the case of revocation or suspension based on clause VII.A.1, 2, or 3, the authorized officer shall give the holder a reasonable period, not to exceed 90 days, to cure any noncompliance.

B. REVOCATION FOR SPECIFIC AND COMPELLING REASONS IN THE PUBLIC INTEREST.

1. If during the term of this permit the authorized officer determines that specific and compelling reasons in the public interest require revocation of this permit, this permit shall be revoked after 90 days written notice to the

holder, provided that the authorized officer may prescribe a shorter notice period if justified by the public interest. The Forest Service shall then have the right to purchase the holder's authorized improvements, remove the holder's authorized improvements, or to require the holder to relocate or remove them. The Forest Service shall be obligated to pay the lesser of (1) the cost of relocation and damages resulting from their relocation that are caused by the Forest Service or (2) the value of the authorized improvements as determined by the Forest Service through an appraisal of their replacement cost, less an allowance for physical depreciation. If that amount is fixed by mutual agreement between the authorized officer and the holder, that amount shall be accepted by the holder in full satisfaction of all claims against the United States under this clause. If mutual agreement is not reached, the authorized officer shall determine the amount to be paid, which shall become part of the revocation decision. A payment made pursuant to this clause is subject to the availability of appropriations. Nothing in this permit implies that Congress will appropriate funds to cover a deficiency in appropriations.

2. If revocation in the public interest occurs after the holder has received notification that a new permit will not be issued following expiration of this permit, the amount of damages shall be adjusted as of the date of revocation by multiplying the replacement cost by a fraction which has as the numerator the number of full months remaining in the term of the permit as of the date of revocation (measured from the date of the revocation notice) and as the denominator the total number of months in the original term of this permit.

C. IMMEDIATE SUSPENSION. The authorized officer may immediately suspend this permit in whole or in part when necessary to protect public health or safety or the environment. The suspension decision shall be in writing. The holder may request an on-site review with the authorized officer's supervisor of the adverse conditions prompting the suspension. The authorized officer's supervisor shall grant this request within 48 hours. Following the on-site review, the authorized officer's supervisor shall promptly affirm, modify, or cancel the suspension.

D. APPEALS AND REMEDIES. Written decisions made by the authorized officer relating to administration of this permit are subject to administrative appeal pursuant to 36 CFR Part 214. Revocation or suspension of this permit shall not give rise to any claim for damages by the holder against the Forest Service, other than as provided in clause VII.B.

E. TERMINATION. This permit shall terminate when by its terms a fixed or agreed upon condition, event, or time occurs without any action by the authorized officer. Examples include but are not limited to expiration of the permit by its terms on a specified date and termination upon change of control of the business entity. Termination of this permit is not subject to administrative appeal and shall not give rise to any claim for damages by the holder against the Forest Service.

F. RIGHTS AND RESPONSIBILITIES UPON REVOCATION OR TERMINATION WITHOUT RENEWAL. Except as provided in clause VII.B., upon revocation of this permit or termination of this permit without renewal of the authorized use, the authorized officer has the discretion to require the holder to sell or remove all structures and improvements, except those owned by the United States, within a reasonable period prescribed by the authorized officer and to restore the site to the satisfaction of the authorized officer. If the holder fails to sell or remove all structures or improvements within the prescribed period, they shall become the property of the United States and may be sold, destroyed, or otherwise disposed of without any liability to the United States. However, the holder shall remain liable for all costs associated with their removal, including costs of sale and impoundment, cleanup, and restoration of the site.

G. CONTINUATION OF OBLIGATIONS AND LIABILITIES BEYOND EXPIRATION OR REVOCATION. Notwithstanding the termination or revocation of this permit, its terms and conditions shall remain in effect and shall be binding on the holder and the holder's personal representative, successors, and assignees until all the holder's obligations and liabilities accruing before or as a result of termination or revocation of this permit have been satisfied.

<USER NOTES FOR CLAUSE VII.H>

<Include clause VII.H when the lands authorized for use are withdrawn for hydroelectric power or reclamation purposes. Otherwise, delete it.>

Any lands

covered by this permit which have been withdrawn under the Reclamation Act of June 17, 1902, are subject at any time to use for reclamation purposes. This permit is issued with the specific understanding that (1) the use and occupancy authorized by this permit shall not interfere with such development of hydroelectric power or reclamation and that (2) the permit shall terminate after 90 days written notice when, in the judgment of the Federal Power Commission, the lands in question are needed for the development of hydroelectric power or, in the judgment of the Bureau of Reclamation, the lands in question are needed for reclamation purposes. The holder shall have 90 days to remove the authorized improvements. Termination under this clause shall not give rise to any claim by the holder against the Federal Power Commission, the Bureau of Reclamation, the Forest Service, or hydroelectric power licensees for damages, including lost profits and damage to improvements, due to such development of hydroelectric power or reclamation.

VIII. MISCELLANEOUS PROVISIONS
