

Targeted Surveillance Reminder Postcard Text – Mail Sample

Dear <<Community>> Resident:

A few days ago, you should have received a questionnaire in the mail. Organizations in your community and across the nation are relying on this survey to learn more about the health, experiences, and perspectives of people like you. If someone in your household has already participated, thank you.

If no one in your household has participated yet, please ask the selected adult to fill out the forms and survey you received earlier or call **XXX-XXX-XXXX** (toll free) and mention ID number «CASEID».

We will send a **\$20** gift card or check after the selected adult participates, as a token of our appreciation.

Thank you for taking part in this important study,

{Name}
