E-CIGARETTE SECTION

The next questions are about **electronic cigarettes**, often called **e-cigarettes**. E-cigarettes look like regular cigarettes, but are battery-powered and produce vapor instead of smoke. There are many types of e-cigarettes. Some common brands include Smoking Everywhere, NJOY, Blu and Vapor King.

E-cigarettes can be bought as one-time, disposable products, or can be bought as re-usable kits with a cartridge. These cartridges come in many different flavors and nicotine concentrations.

Some people refill their own cartridges with "juice," sometimes called "e-juice."

SHOW GENERIC IMAGES OF E-CIGARETTES, CARTRIDGES AND JUICE.

PIPE TOBACCO SECTION

The next set of questions are about smoking tobacco in a **pipe**. Pipes come in many shapes and sizes. They all have a bowl that holds the tobacco and a stem. Pipe tobacco is often sold loose in packages or tins. In the following section, we are only asking about smoking pipes filled with tobacco. The picture below shows a typical pipe and some pipe tobacco.

The next few questions are about smoking tobacco in a **hookah**. A hookah pipe is a type of water pipe that is sometimes also called a narghile pipe. From now on, we will use hookah to refer to a water pipe or narghile pipe that is used to smoke tobacco.

There are many types of hookahs. People often smoke tobacco in hookahs in groups at cafes or in hookah bars.

SMOKELESS TOBACCO SECTION

The next questions ask about **smokeless tobacco** which you put in your mouth. Frequently you chew, suck or spit while using smokeless tobacco, although there is no need to do so for some types. Snus, for instance, is a type of smokeless tobacco that comes in a small pouch that you put under your lip.

There are many kinds of smokeless tobacco, such as snus pouches, loose snus, moist snuff, dip, spit, and chewing tobacco. Common brands include Redman, Levi Garrett, Beechnut, Skoal, Nordic Ice and Copenhagen.

DISSOLVABLE TOBACCO SECTION

BOX AD1

The next questions ask about another new type of tobacco called **dissolvable tobacco**. You don't smoke dissolvable tobacco products – they are made of finely ground flavored tobacco that dissolves in your mouth.

Dissolvable tobacco products come in a variety of shapes, including small round pellets, thin sticks and flat strips. Some common brands are Ariva, Stonewall, or Camel Orbs, Sticks or Strips.
