Title: 30 CFR 874.16—Contractor Eligibility and the Abandoned Mine Land Contractor Information Form.

OMB Control Number: 1029-0119.

Summary: 30 CFR 874.16 requires that every successful bidder for an AML contract must be eligible under 30 CFR 773.15(b)(1) at the time of contract award to receive a permit or conditional permit to conduct surface coal mining operations. Further, the regulation requires the eligibility to be confirmed by OSM's automated Applicant/Violator System (AVS) and the contractor must be eligible under the regulations implementing Section 510(c) of the Surface Mining Act to receive permits to conduct mining operations. This form provides a tool for OSM and the States/Indian tribes to help them prevent persons with outstanding violations from conducting further mining or AML reclamation activities in the State.

Bureau Form Title: AML Contractor Information Form (No form number).

Frequency of Collection: Once per contract.

Description of Respondents: AML contract applicants and State and Tribal regulatory authorities.

Total Annual Responses: 279 bidders and 46 State/Tribal responses.

Total Annual Burden Hours: 169.

Send comments on the need for the collection of information for the performance of the functions of the agency; the accuracy of the agency's burden estimates; ways to enhance the quality, utility and clarity of the

information collection; and ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information, to the offices listed in the **ADDRESSES** section. Please refer to the appropriate OMB control number in all correspondence.
