*Title of Proposal:* Pre-Purchase Homeownership Counseling Demonstration and Impact Evaluation.

*OMB Control Number, if applicable:* Pending.

*Description of the need for the information and proposed use:* This request is for the clearance of data collection instruments designed to collect the information necessary to conduct a random assignment evaluation of pre-purchase homeownership counseling. The evaluation will produce valuable information about the impact of pre-purchase homeownership counseling on a range of outcomes for low- to moderate-income, first-time home buyers. Up to 7,000 study participants will be recruited through branch offices and telephone centers of three national lenders in 20 jurisdictions throughout the country. Lender staff will ask potential homebuyers if they are interested in learning more about the study. If potential homebuyers are interested in learning more about the study, then the lender will pass potential homebuyers' contact information to the study team. The study team will then contact those potential homebuyers to explore study participation and complete an informed consent agreement, an eligibility assessment, and baseline survey. To achieve 7,000 enrolled study participants, the intake and eligibility assessment will be conducted with up to 17,500 potential study participants over a period of 12 months. To achieve 17,500 potential study participants, lenders will contact approximately 87,500 customers. Additionally, 200 study participants will be asked to participate in semi-structured follow-up interviews that seek to learn about participants' experiences with enrollment and interaction with participating counseling agencies.
