Docket No. IC12-14-000

ERRATA NOTICE

(August 21, 2012)

On May 25<sup>1</sup> and August 7<sup>2</sup>, 2012, the Commission issued Notices in Docket No. IC12-14-000 proposing an erroneous annual burden estimate. This Errata corrects errors contained within the data presentation of those burden estimates.

The Commission proposed including Electronic Quarterly Reports (EQR) within the burden upon respondents for FERC-914. However, the Commission accounts for the burden of all EQR filings in FERC-920 (OMB Control No. 1902-0255) including any burden that is imposed upon cogenerators and small power producers (i.e. any EQR burden within FERC-914). To correct the redundant counting of EQR filers, the Commission proposes the removal of the EQR hourly burden from FERC-914 since they are already included within FERC-920.

Originally, the Commission provided the estimated annual burden as presented within this table:

<b>FERC-914 (IC12-14-000): Cogeneration and Small Power Production - Tariff Filings</b>					
	<b>Number of Respondents (A)</b>	<b>Number of Responses Per Respondent (B)</b>	<b>Total Number of Responses (A)x(B)=(C)</b>	<b>Average Burden Hours per Response (D)</b>	<b>Estimated Total Annual Burden (C)x(D)</b>
FPA Section 205 filings	100	1	100	183	18,300
Electric Quarterly	100	1	100	230	23,000

<sup>2</sup> 30-day public notice: 77 FR 47049

Reports (initial)					
Electric Quarterly Reports (later)	100	3	300	6	1,800
Change of Status	100	1	100	3	300
<b>TOTAL</b>	N/A	N/A	600	N/A	43,400

However, the Commission will correctly present the data in the following table:

<b>FERC-914: Cogeneration and Small Power Production—Tariff Filings</b>					
	<b>Number of Respondents (A)</b>	<b>Number of Responses Per Respondent (B)</b>	<b>Total Number of Responses (A)x(B)=(C)</b>	<b>Average Burden Hours per Response (D)</b>	<b>Estimated Total Annual Burden (C)x(D)</b>
FPA Section 205 filings <sup>3</sup>	100	1	100	183	18,300
Change of StatusError : Reference source not found	100	1	100	3	300
<b>TOTAL</b>					18,600

The Commission will document the corrections within the submitted approval package and the corresponding supporting statement for FERC-914.

Kimberly D. Bose,  
Secretary.
