

requirements. This determination is effective on August 16, 2012.

FAA's determination on the airport operator's Noise Exposure Maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of 14 CFR part 150. Such determination does not constitute approval of the airport operator's data, information or plans, or a commitment to approve a Noise Compatibility Program or to fund the implementation of that Program. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a Noise Exposure Map submitted under Section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise exposure contours, or in interpreting the Noise Exposure Maps to resolve questions concerning, for example, which properties should be covered by the provisions of Section 47506 of the Act.

These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under 14 CFR part 150 or through FAA's review of Noise Exposure Maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under Section 47503 of the Act. The FAA has relied on the certification by the airport operator, under Section 150.21 of 14 CFR Part 150, that the statutorily required consultation has been accomplished.

Copies of the full Noise Exposure Maps documentation and of the FAA's evaluation of the maps are available for examination at the following locations: Federal Aviation Administration, Orlando Airports District Office, 5950 Hazeltine National Drive, Citadel International Building, Suite 400, Orlando, FL 32822.

Notice and request for comments

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Requirements (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collections and their expected burdens. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collections of information was published on June 20, 2012, volume 77, page number 119.

DATES: Comments must be submitted on or before September 21, 2012.

FOR FURTHER INFORMATION CONTACT: Ms. Janet Wylie, Office of Planning and

Administration, RPD-3, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 20, Washington, DC 20590 (telephone: (202) 493-6353), or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On June 20, 2012, FRA published a 60-day notice in the **Federal Register** soliciting comments on ICR that the agency was seeking OMB approval. 77 FR 37092. FRA received no comments after issuing this 60-day notice. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c).

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507(b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The revised requirements are being submitted for clearance by OMB as required by the PRA.

Title: Notice of Funds Availability and Solicitation of Applications for Grants under the Railroad Rehabilitation and Repair Grant Program.

OMB Control Number: 2130-0580.

Type of Request: Revision of a currently approved collection.

Affected Public: State and local governments, government sponsored authorities and corporations, railroads.

Abstract: The Railroad Rehabilitation and Repair Grant Program (Catalog of Federal Domestic Assistance (CFDA) Program Number 20.314), was originally supported with up to \$20,000,000 of Federal funds provided to FRA as part of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Pub. L. 110-329, September 30, 2008). On May 27, 2009, FRA selected 12 projects, totaling \$15 million under this program. On August 5, 2010, FRA selected 10 more projects for the remaining funds. A few revisions to grant agreements and close-out of grants are the only remaining activities for this program.

Funds provided under this program may constitute no more than 80 percent of the total cost of a selected project, with the remaining cost funded from other non-Federal sources. Projects include repairs and rehabilitation to Class II and Class III railroad infrastructure damaged by hurricanes, floods, and natural disasters that are located in counties that were identified in a Disaster Declaration for Public Assistance issued by the President (<http://www.fema.gov/news/disasters.fema#sev1>).

Class II and Class III railroad infrastructure repaired and rehabilitated include railroad rights-of-way, bridges, signals and other infrastructure which are part of the general railroad system of transportation and primarily used by railroads to move freight traffic. FRA anticipates that no further public notification will be made with respect to this program.
