

Supporting Statement for Paperwork Reduction Act Submissions

A. Justification

1. why is this information necessary? Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating/authorizing the collection of information.

Ginnie Mae is a wholly-owned corporation of the United States within the Department of Housing and Urban Development. Its powers are prescribed generally by Title III of the National Housing Act, as amended, 12 U.S.C. 1716 et.seq. Ginnie Mae is authorized by Section 306(g) of the National Housing Act to guarantee the timely payment of principal and interest on securities which are based on or backed by a pool composed of mortgages insured by the Federal Housing Administration or guaranteed by the Department of Veterans Affairs or the Rural Housing Service. Ginnie Mae's guaranty of mortgage-backed securities is backed by the full faith and credit of the United States. The information being collected is necessary in order for Ginnie Mae to be able to properly administer its Mortgage-Backed Securities programs.

In light of current market conditions, Ginnie Mae is committed to expanded transparency with regard to disclosures on outstanding Ginnie Mae securities. In line with this goal, the package includes revisions to Ginnie Mae's Pool Issuance requirements for forward mortgages. This change includes the addition of four new data elements to the HUD Form 11706. The data items to be added to the HUD Form 11706 include the following: First-Time Homebuyer Indicator, Third-Party Origination Type, Upfront MIP Rate and Annual MIP Rate.

Along with the added data elements to the HUD Form 11706, the approximate time that it takes our forms to be completed are being reviewed. We have changed the completion times on the 8 forms. There are 15 forms and appendices in our collection which are volume drive rather than participant driven, these have increased as our portfolio has grown. Between the increase in burden time and the increase in volume, there is an increase of 684,055 in the burden hours associated with this collection. The forms whose completion times have been adjusted are identified in Questions 12 and 15.

2. how is the information collected and how is the information to be used?

Ginnie Mae's Mortgage-Backed Securities Guide 5500.3, Revision 1 ("Guide") provides instructions and guidance to participants in the Ginnie Mae Mortgage-Backed Securities programs ("Ginnie Mae I and Ginnie Mae II"). Participants are organizations (mortgage companies, banks, etc.) that have been approved by Ginnie Mae to issue Ginnie Mae securities. Participants in the Ginnie Mae I program issue securities backed by single-family or multifamily loans. Participants in the Ginnie Mae II program issue securities backed by single-family loans. Ginnie Mae II MBS are modified pass-through mortgage-backed securities on which registered holders receive an aggregate principal and interest payment from a central paying agent on all of their Ginnie Mae II MBS. The Ginnie Mae II MBS also allow small issuers who do not meet the minimum dollar pool requirements of the Ginnie Mae I MBS to participate in the secondary mortgage market. In addition, the Ginnie Mae II MBS permit the securitization of adjustable rate mortgages ("ARMs"). Any requirement in a document created under a Ginnie Mae MBS program is effective as of the date of the Guide, including amendments. Included in the Guide are Appendices. The Appendices include the forms or documents needed to comply with program requirements. Below are the required forms or data collected to participate in the MBS programs.

The following describes how, by whom, how frequently, and for what purpose the information is to be used. The forms are available in a PDF fillable format unless stated otherwise on our website at www.ginniemae.gov.

38. Data Verification Form

Issuers are required to inform us when there are changes to the names of our contact persons, address, or phone numbers. To ensure that we have the most accurate information, Ginnie Mae, semiannually, requests issuers to update their contact information for its records. Ginnie Mae is not currently requiring issuers to semiannually verify their contact information. This form has been removed from our Attachment A.

3. Describe whether, and to what extent, the collection of information is automated (item 13b1 of OMB form 83-i). If it's not automated, explain why not. Also describe any other efforts to reduce burden.

Ginnie Mae has implemented automated and electronic means of submitting most of its collection of information in order to minimize burden. GinnieNET is used by the issuers and document custodians to collect and retrieve information as it relates to pool processing. It is also used for the reporting of remaining principal balances to Ginnie Mae. Ginnie Mae participants must submit their monthly report of pool and loan level data via the RFS Module in Ginnie Mae's portal. All such pool and loan level reporting is electronic.

Currently, forms HUD 11700, 11701, 11702, 11704, 11707, 11709, 11709A, 11715, 11720, are not required to be submitted electronically. However, the forms can be downloaded from HUDClips or Ginnie Mae's website. All applicable forms are now fillable online. The fillable forms are accepted via fax or e-mail after the issuer completes them, except for those forms that require original signatures.

Effective June 1, 2012, financial statements and audit reports can be submitted either electronically or in paper format.

GinnieNET is a secure web-based system that is used by Ginnie Mae issuers, Document Custodian, and Ginnie Mae's Pool Processing Agent to process pools, certifications, and electronic reporting. Issuers may certify, recertify pools and /or make corrections using GinnieNET. The following forms are submitted using GinnieNET: 11705, 11706, 11708, 11709A, 11711B, 11714, 11714SN, 11715, and 11732. In addition, to the above listed forms, the information pertaining to the Master Agreements (11707, 11709, 11715, and 11720) are stored electronically in GinnieNET and are to be certified annually. On a monthly basis the 11710D and Reporting of Principal Balances is done through GinnieNET.

Ginnie Mae Enterprise Wide Portal

Ginnie Mae's Enterprise Wide Portal is a secure web-based system. The Ginnie Mae portal provides access to several applications, which include the Reporting and Feedback System, Monthly Pool and Loan Reporting, Exception Feedback, Servicemember's Civil Relief Act, Contact Management and E-notification.

4. Is this information collected elsewhere? If so, why cannot any similar information already available be used or modified.

The collection contains no duplication of information.

5. Does the collection of information impact small businesses or other small entities (item 5 of OMB form 83-i)? Describe any methods used to minimize burden.

There is no significant economic impact on small businesses or entities through the collection of the information. The forms are designed to minimize burden, and Ginnie Mae is constantly reviewing its forms and processes to see how the forms and/or processes can be streamlined to further minimize burden.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Ginnie Mae is a wholly-owned corporation of the United States within the Department of Housing and Urban Development whose guaranty of mortgage-backed securities is back by the full faith and credit of the United States. As such, the information required from issuers is necessary for Ginnie Mae to issue mortgage-backed securities as each security is unique and determined by the information provided on the forms received from the issuers. The collections permit Ginnie Mae to verify: 1) the individuals who are signing documents on behalf of an issuer are authorized to do so; 2) the name and location of the entities responsible for the various Ginnie Mae accounts and mortgage documents, and 3) those entities who are responsible for servicing the mortgages that back the Ginnie Mae pools. Ginnie Mae needs this information to mitigate risk and evaluate its business operations, procedures and programs. Ginnie Mae also requires the collection of information to ensure that there are no deficiencies, which could affect the pass through of securities to its investors.

7. Explain any special circumstances requiring:

- **respondents to report information more than quarterly;**
- **a written response in fewer than 30;**
- **more than an original and two copies of any document;**
- **respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **a statistical survey not designed to produce results that can be generalized to the universe of study;**
- **the use of a statistical data classification that has not been reviewed and approved by OMB;**
- **a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **respondents to submit proprietary trade secret, or other confidential information.**

The majority of Ginnie Mae's forms require issuers to submit only one original with a copy being retained by the issuer for their records.

Issuers are required to submit duplicate originals of the form HUD 11702 – Resolution of Board of Directors and Certificate of Authorized Signatures in order for Ginnie Mae or its pool processing agent to compare the names and signatures of the individuals authorized by the issuer to do business with Ginnie Mae.

When issuers submit their pool requests in paper format – the form 11705 – Schedule of Subscribers must be currently submitted in quadruplicate. Issuer retains an unexecuted copy for their files and submits three originals to the pool processing agent. Once the pool has been approved by Ginnie Mae or its agent, Ginnie Mae retains one original for its records and returns the other two signed originals to the issuer.

When issuers execute Assignment Agreements, they are required to submit three forms with original signatures to either Ginnie Mae or its pool processing agent for review and approval. When approved, an executed original is retained by Ginnie Mae or the pool processing agent for its records. The remaining executed originals are returned to the issuer.

To remain in compliance with Ginnie Mae's program requirements and obtain certain benefits, issuers are required to submit financial information monthly, quarterly, and annually in order for Ginnie Mae or its agents to monitor their Ginnie Mae portfolio and financial status. As part of this requirement, issuers are to maintain adequate accounting records in electronic format and hard copy to submit to Ginnie Mae or its agents as needed.

Forms/information required to be submitted monthly are as follows:

- 11714 – Issuer's Monthly Remittance Advice
- 11714SN – Issuer's Monthly Serial Note Remittance Advice;

- XI-9 – Servicemembers Civil Relief Act Eligibility and Reimbursement Files
- VI-18 – WHFIT Tax Reporting File Layout

Forms/information required to be submitted annually are as follows:

- IX-1 – Financial Statements and Audit Reports
- Master Agreements (forms 11702, 11707, 11709, 11715, and 11720) – may be certified electronically unless a change to company or personnel has occurred

8. Identify the date and page number of the *Federal Register* notice (and provide a copy) soliciting comments on the information. On an on-going basis, Ginnie Mae meets with its business partners to discuss new policy, new programs and enhancements to its business processes (which include data collected from issuers), for the purpose of seeking industry input before implementation. This is done formally and informally in several arenas, through the Mortgage Bankers Association's Ginnie Mae Liaison Committee meetings, which are held three times a year, regular issuer training sessions conducted by Ginnie Mae, quarterly issuer outreach calls and yearly on-site issuer field visits performed by Ginnie Mae account executives.

9. Explain any payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or gifts other than remuneration of contractors or grantees.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation or agency policy.

The forms are in compliance with the Privacy Act. Ginnie Mae's GinnieNET and Enterprise Wide Portal are secure web-based systems. The information collected will not be disclosed outside the Department except as required or permitted by law..

11. Justify any questions of a sensitive nature, such as sexual, religious beliefs, and other matters that are commonly considered private

The information collected contains no questions of a sensitive nature, therefore, no justification is required.

12. Estimate public burden: number of respondents, frequency of response, annual hour burden. Read the complete instructions on the form 83i. Explain how the burden was estimated. Generally estimates should not include burden hours for customary and usual business practices. Provide a table to describe the elements of the burden. Break out each form used.

- if this collection uses more than one form, provide separate estimates for each form and aggregate the hour burdens in item 13 of OMB Form 83i; and
- provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories.
- The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead this cost should be included in Item 13.

There are approximately 22 forms and 35 appendices included with this submission. In the event that there are more than 10 respondents, the collection will be PRA compliant. .

Annual reporting and recordkeeping hour burden:

a. Number of respondents	210
b. Total annual responses	9,296,021
Percentage of these responses collected electronically	80%
c. Total annual hours requested	761,156
d. Current OMB Inventory	76,518
e. Difference	684,055
f. Explanation: See above	

The cost to respondents is based on the average hourly wages of mortgage industry employees to review, collect and submit the information to Ginnie Mae or its agent

Calculation is as follows:

\$31.00 per hour x total burden hours = Estimated cost to respondents/issuers.

13. **Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information (do not include the cost of any hour burden shown in Items 12 and 14).**
 - **The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance purchase of services component. The estimates should take into account costs associated**

with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s) and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities;

- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10) utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.
- generally, estimates should not include purchases of equipment or services, or portions thereof made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.
