General Instructions

A Supporting Statement, including the text of the notice to the public required by 5 CFR 1320.5(a)(i)(iv) and its actual or estimated date of publication in the Federal Register, must accompany each request for approval of a collection of information. The Supporting Statement must be prepared in the format described below, and must contain information specified in Section A below. If an item is not applicable, provide a brief explanation. OMB reserves the right to require the submission of additional information with respect to any request for approval.

Specific Instructions

A. Justification

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

The Export-Import Bank of the United States (Ex-Im Bank) pursuant to the Export Import Bank Act of 1945, as amended (12 USC 635, et seq), facilitates the finance of export of U.S. goods and services. By neutralizing the effect of export credit insurance and guarantees offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to complete fairly in foreign markets on the basis of price and product. This collection of information is necessary, pursuant to 12 USC Sec. 635 (a) (1), to determine eligibility of the export for Ex-Im Bank assistance.

This form enables Ex-Im Bank to transfer the duties and obligations of an insured exporter's medium term insurance policy to the financial institution providing financing to the exporter. These details are necessary for identifying the participating entities and documenting their agreement to transferring aforementioned duties and obligations.

2. Indicate how, by whom and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

Ex-Im Bank staff reviews the form to transfer the duties and obligations of the insured to the financial institution, by endorsement to the policy. It also provides the financial institution financing the exporter, certifications that the financed export transaction results in a valid, enforceable, and performing debt obligation.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

This form is provided on our website as a fillable form, however it must be manually signed. Policy holders may submit it to Ex-Im Bank in a PDF or other electronic format.

4. Describe effort to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

All export transaction are independent of each other; therefore there is no duplication since each export corresponds to a unique financing transaction.

5. If the collection of information impacts small businesses or other small entities describe any methods used to minimize burden.

The ability to complete the form electronically, except for the signature, and submit electronically reduces the paperwork burden on small businesses and processing time for Ex-Im Bank.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Without the collection of this information, the likely result is that financial institutions will be unwilling to provide financing to exporters.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner”
 - *requiring respondents to report information to the agency more often than quarterly;
 - *requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;
 - *requiring respondents to submit more than an original and two copies of any document;
 - *in connection with a statistical survey, that is not designed to produce valid or reliable results that can be generalized to the universe of study;
 - *requiring the use of statistical data classification that has not been reviewed and approved by OMB;
 - *that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or

*requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

This collection is consistent with guidelines in 5 CFR 1320.6.

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments.
