Study Introduction:

Thank you for agreeing to participate. The following questions are about dietary supplements and the labels you might see on these products.

Dietary supplements include vitamins, minerals, and other less familiar substances such as herbals, botanicals, amino acids, enzymes, and animal extracts. Dietary supplements are often sold in the form of tablets, capsules, softgels, and gencaps.

It usually takes about 10 minutes to answer all the questions in this survey. The information you provide will be kept strictly confidential.

Please click the "NEXT" button to begin the study.

SECTION A. QUESTIONS TO ESTABLISH ELIGIBILITY FOR STUDY INCLUSION

Before you start the main part of the survey, we'd like to ask a few questions about you.

1. Please think about dietary supplements such as vitamins, minerals, herbs, and other dietary supplements that you may take in addition to your regular diet. Some examples include garlic pills, Echinacea, selenium, ginkgo, glucosamine, fish oil, and calcium.
