The next set of questions asks about experiences that may or may not have happened to you. There will be some questions about physical injuries, harassing behaviors and unwanted sexual activity.

Remember, you don't have to answer any question that you don't want to. We suggest that you be in a private setting during the survey. If, at any time, you do not feel physically or emotionally safe, you can just say "Goodbye". I will understand and I will not call you back. You can call me back if you'd like at 1-877-287-3782.

SV_INTRO
Women and men may experience unwanted and uninvited sexual situations by strangers or people they know well, such as a romantic or sexual partner, friend, teacher, coworker, supervisor, or family member. Your answers will help us learn how often these things happen. Some of the language we use is explicit, but it is important that I ask the questions this way so that you are clear about what I mean. The questions we ask are detailed and some people may find them upsetting. The information you are providing will be kept private. You can skip questions you don't want to answer and you can stop at anytime.

I'm going to ask you about different types of unwanted sexual situations. In general, these are: unwanted sexual situations that did NOT involve touching and situations that DID involve touching. I will also ask you about situations in which you were unable to provide consent to sex because of alcohol or drugs, and about your experiences with unwanted sex that happened when someone used physical force or verbal pressure.

Shall we continue?

How many people have ever done any of the following things when you didn't want it to happen? How many people have ever…

        [RECORD NUMBER OF PEOPLE FOR EACH ITEM]
        [RANGE 0 – 15 PEOPLE]

SV1   **exposed their sexual body parts to you, flashed you, or masturbated in front of you?**
SV2   **made you show your sexual body parts to them when you didn't want it to happen?**
SV3   **made you look at or participate in sexual photos or movies?**

How many people have ever…

SV4   **verbally harassed you while you were in a public place in a way that made you feel unsafe?**
SV5   **kissed you in a sexual way when you didn't want it to happen?**
SV6   **fondled, groped, grabbed, or touched you in a way that made you feel unsafe?**

Sometimes sex happens when a person is unable to consent to it or stop it from happening because they were drunk, high, drugged, or passed out from alcohol, drugs, or medications. This can include times when they voluntarily consumed alcohol or drugs or they were given drugs or alcohol without their knowledge or consent. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.

When you were drunk, high, drugged, or passed out and unable to consent, how many people have ever had…?

SV7   **vaginal sex with you? By vaginal sex, we mean that** {if female: **a man or boy put his penis in your vagina**} {if male: **a woman or girl made you put your penis in her vagina**}**.**

When you were drunk, high, drugged, or passed out and unable to consent, how many people have ever…?

SV8   {if male} **made you perform anal sex, meaning they made you put your penis into their anus.**

Some people are threatened with harm or physically forced to have sex when they don't want to, for example, by being pinned or held down, or by the use of violence.

Sometimes unwanted sex happens after a person is pressured in a nonphysical way.
