Introduction

Thank you for accessing the survey for the Point of Contact at the Host Institution. The Common Fund of the National Institutes of Health (NIH) is doing a process evaluation of the Early Independence Award (EIA) program. The purpose of this evaluation is to document EIA program operations and how the program is being implemented at host institutions. The information collected may be used to make adjustments to improve the EIA program.

We would like to invite you to participate in this online survey. This is an opportunity for you to share your experience as an Early Independence Principal Investigator and provide feedback anonymously. The survey should take approximately 60 minutes to complete. There are no right or wrong answers, and you may skip any questions that you do not wish to address. Please note that you can stop at any point and continue at another time.
