About Password Services

Social Security provides this website for your convenience.

Limitations:

- This website can be used to get a password for online and automated telephone service access to your personal account. **If you are a representative payee** for another person you cannot get a password to access their information.
- For security reasons, there are time limits for your work on each page. You will receive a warning after 25 minutes, and you will be able to extend your time on the page. After the third warning on a page, you must move to another page or your time will run out and your work on that page will be lost. If you have turned JavaScript off in your browser, you will not receive these warnings. After spending 30 minutes on a page, you must move to another page or you will be logged out.

Do not use the Back button on your browser to move backward. Use the Prior Page button instead.

Do not use the Enter key to move around in the form. Use the Continue button instead.

Change Your Permanent Password - Choose Your New Password

Choose a new 7 digit password. Use 7 numbers that are meaningful to you to help you remember.

Helpful Hints for Choosing a password:

- Use 7 numbers only.
- Use a number that is meaningful to you so that you will remember it.

Do NOT choose a password containing:

- part of your Social Security number,
- a series of numbers that would be easy to guess: 1234567 or 7654321;
- a series of the same numbers: 2222222 or 3333333; or
- your temporary Password Request Code (PRC).

Do NOT use a password others might associate with you:

- telephone number,
- birthday or your child's birthday,
- license plate number, or
- street address number or zip code.

Enter your current permanent password:

Special Instructions for People Who Are Blind

The following instructions are for screen reader users like JAWS and Window-Eyes and browser based readers like Home Page Reader.

Filling out this application is best accomplished in a Forms or MSA mode that allows the user to tab to controls and fill-in input boxes, radio buttons, check boxes, and/or list boxes. Instructional text usually occurs at the beginning of these screens and can be accessed in non-MSAA or virtual-cursor mode. Tab indices have also been added to allow for tabbing through text. Additionally, consistent headers have been set up to access questions and examples/instructions more easily. All headers that are level 3 will have additional help text. The titles of each page are header level 1 and they will have general help information. Questions that have additional help or instructional text will be indicated by the screen reader. The user can then tab to the additional help or continue tabbing to the next question to bypass this help.

Unless you have turned JavaScript off in your browser, you will receive a warning after 25 minutes and you can extend your time on the page. After the third warning, you must move to another page, or your time will run out and your work on that page will be lost.

On many screens there is a continue button at the end of the screen to allow the user to go to the next page, a prior page button to return to the previous page, an exit button or log out button to exit the application, and a return to Check Your Benefits button. The hotkey ALT + C is associated with the "Continue" button, ALT + P with the "Prior Page" button, ALT + X with the "Exit" button, ALT + L with the "Logout" button, and ALT + K with the "Return to Check Your Benefits" button. In Internet Explorer, you must press Enter to execute the command of the hotkeys. However, in Netscape the hotkeys execute the command without the need for an additional Enter key.

Keyboard commands, hotkeys, or access keys will vary based upon the browser and the version of that browser you are using. A list of these commands can be found in the "Help" section of your browser. The "Help" feature can be located on the Menu bar of your browser or by using the F1 function key on the keyboard. Any assistive devices that you may be using will also have a list of these shortcut keys in the "Help" section. Also, see our [Keyboard Commands](#) web page.

When pages are submitted that have errors, a new page will be displayed that has a list of links at the top of the page indicating each error. Selecting the link will place focus at the specific error control. Fixing the error will not be reflected in the list of links or error messages at the field until the page is re-submitted. To navigate to the next error, the user can invoke the screen reader or screen magnifier's links list or simply tab through the fields and listen to the screen reader to hear when there is an error message.

Close this window to return to the application.

SSA will insert the following revised Privacy Act Statement to the RISPA screens upon approval of the ICR:

Privacy Act Statement

Section 205, of the Social Security Act, as amended, authorizes us to collect this information. The information is needed to quickly ascertain and verify identity and to provide you with the requested information. Providing this information is voluntary. However, failure to provide all or part of the requested information may prevent the Social Security Administration (SSA) from providing you with the requested information.

We rarely use the information you supply for any purpose other than for ascertaining and verifying identity in order to provide you with requested information. However, we may use it for the administration and integrity of Social Security programs. We may also disclose information to another person or to another agency in accordance with approved routine uses, which include but are not limited to: (1) to enable a third party or an agency to assist Social Security in establishing rights to Social Security benefits and/or coverage; (2) to comply with Federal laws requiring the release of information from Social Security records (e.g., to the Government Accountability Office and Department of Veteran Affairs); (3) to make determinations for eligibility in similar health and income maintenance programs at the Federal, State, and local level; (4) to appropriate Federal, State and local agencies, entities and persons if there has been a breach of security to this system that would result in the a risk of harm to economic or property interests, identity theft or fraud or harm to the security or integrity of other SSA systems and such a disclosure is necessary to respond to the breach; and (5) to facilitate statistical research, audit or investigative activities necessary to assure the integrity of Social Security programs.

We may also use the information you provide in computer matching programs. Matching programs compare our records with records kept by other Federal, state or local government agencies. Information from these matching programs can be used to establish or verify a person's eligibility for Federally funded and administered benefit programs and for repayment of payments or delinquent debts under these programs.

A complete list of routine uses for this information is available in Systems of Record Notice 60-0290. The notice, additional information regarding this application , and information regarding our programs and systems, are available on-line at www.socialsecurity.gov or at your local Social Security office.
