OVERVIEW

NEFRLS is a system developed to help reunite families separated after a major disaster. This system enables displaced individuals to register themselves and select up to three (3) friends or family members to view their message, contact information, and/or individuals they may be traveling with. It also enables individuals to search for messages left by displaced friends or family.

NEFRLS is only activated when large numbers of individuals have been evacuated or displaced. Information on NEFRLS is available for **up to 30 days** after registration or until the system has been de-activated. Registration in NEFRLS is completely voluntary.
