Section II. Goals and assurances

ANNUAL GOALS

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. IHEs that do not have a teacher preparation program in one or more of the areas listed below can enter NA for the area(s) in which the IHE does not have that program. (§205(a)(1)(A)(i), §205(a)(1)(A)(ii), §206(a))

ASSURANCES

assura	a check next to each statement certifying that your institution is in compliance with the following nces. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your uses, when requested, to support the following assurances.
	preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends;
·	preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom;
	prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects;
·	prospective general education teachers are prepared to provide instruction to students with disabilities;
·	prospective general education teachers are prepared to provide instruction to limited English proficient students;
·	prospective general education teachers are prepared to provide instruction to students from low-income families; and
	prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
Descri	be your institution's most successful strategies in meeting the assurances listed above:

Section III. Pass rates and scaled scores

Provide the information in the following tables on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. This information will be provided to your institution by the state or the testing company or companies (or entities). In cases where a student has taken a given assessment more than once, the highest score on that test must be used. There must be at least 10 students in each category taking the same assessment in an academic year for data on that assessment to be reported; for summary data, there must also be at least 10 students (although not necessarily taking the same assessment) for data to be reported. In cases where there are less than 10 students taking the same assessment and the assessment pass rate is not reported, those students must be included in the summary data.

Enrolled students are those students admitted to the teacher preparation program who have not yet completed the program.

In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.
