Road Initials:

Year:

ANNUAL REPORT OF

TO THE

SURFACE TRANSPORTATION BOARD

FOR THE

YEAR ENDED DECEMBER 31, 200_

.

Name, official title, telephone number, and office address of officer in charge of correspondence with the Board regarding this report.

(Name)		(Title)	
(Telephone number)			<u>.</u>
	(Area code)	(Telephone number)	
(Office address)		(Street and number, city, state, and ZIP code)	

NOTICE

1. This report is required for every class I railroad operating within the United States. Three copies of this Annual Report should be completed. Two of the copies must be filed with the Surface Transportation Board, Office of Economics, Environmental Analysis, and Administration, 395 E Street, S.W. Suite 1100, Washington, DC 20423, by March 31 of the year following that for which the report is made. One copy should be retained by the carrier.

2. Every inquiry must be definitely answered. Where the word "none" truly and completely states the fact, it should be given as the answer. If any inquiry is inapplicable, the words "not applicable" should be used.

3. Wherever the space provided in the schedules in insufficient to permit a full and complete statement of the requested information, inserts should be prepared and appropriately identified by the number of the schedule.

4. All entries should be made in a permanent black ink or typed. Those of a contrary character must be indicated in parenthesis. Items of an unusual character must be indicated by appropriate symbols and explained in footnotes.

5. Money items, except averages, throughout the annual report form should be shown in thousands of dollars adjusted to accord with footings. Totals for amounts reported in subsidiary accounts included in supporting schedules must be in agreement with related primary accounts. For purposes of rounding, amounts of \$500 but less than \$1,000 should be raised to the nearest thousand dollars, and amounts of less than \$500 should be lowered.

6. Except where the context clearly indicates some other meaning, the following terms when used in this Form have the following meanings:

(a) Board means Surface Transportation Board.

(b) Respondent means the person or corporation in whose behalf the report is made.

(c) Year means the year ended December 31 for which the report is being made.

(d) Close of the Year means the close of business on December 31 for the year in which the report is being made. If the report is made for a shorter period than one year, it means the close of the period covered by the report.

(e) Beginning of the Year means the beginning of business on January 1 of the year for which the report is being made. If the report is made for a shorter period than one year, it means the beginning of that period.

(f) Preceding Year means the year ended December 31 of the year preceding the year for which the report is made.

(g) The Uniform System of Accounts for Railroad Companies means the system of accounts in Part 1201 of Title 49, Code of Federal Regulations, as amended.

7. The ICC Termination Act of 1995 abolished the Interstate Commerce Commission and replaced it with the Surface Transportation Board. Any references to the Interstate Commerce Commission or Commission contained in this report refer to the Surface Transportation Board.

8. Any references to the Bureau of Accounts or the Office of Economics contained in this report refer to the Office of Economics, Environmental Analysis, and Administration of the Surface Transportation Board.

Railroad Annual Report R-1

,

Road Initials

Year

SPECIAL NOTICE

Docket No 38559, Railroad Classification Index, (ICC served January 20, 1983), modified the reporting requirements for Class II, class III, and Switching and Terminal Companies These carriers will notify the Board only if the calculation results in a different revenue level than its current classification.

The dark borders on the schedules represent data that are captured by the Board

Supplemental Information about the Annual Report (R-1)

This information collection is mandatory pursuant to 49 U.S.C 11145.

The estimated hour burden for filing this report is less than 800 hours.

Information in the Annual Reports is used to monitor and assess railroad industry growth, financial stability, traffic, and operations and to identify industry changes that may affect national transportation policy. In addition, the Board uses data from these reports to more effectively carry out regulatory responsibilities, such as acting on railroad requests for authority to engage in Board regulated financial transactions (for example, mergers, acquisitions of control, consolidations and abandonments); developing the Uniform Rail Costing System (URCS); conducting rail revenue adequacy proceedings; developing rail cost adjustment factors; and conducting investigations and rulemakings.

The information in this report is ordinarily maintained by the agency in hard copy for 10 years, after which it is transferred to the National Archives, where it is maintained as a permanent record. These reports are also maintained by the agency indefinitely on microfiche. In addition, some of this information is posted on the Board's website, where it may remain indefinitely.

All information collected through this report is available to the public.

The display of a currently valid OMB control number for this collection is required by law

Year: 200. COMPARATIVE STATEMENT OF FINANCIAL POSITION - EXPLANATORY NOTES (Dollars in Thousands)

The notes listed below are provided to disclose supplementary information on matters which have an important effect on the financial condition of the carrier. The carrier shall give the particulars called for herein and where there is nothing to report, insert the word "none", and in addition thereto shall enter in separate notes with suitable particulars other matters involving material amounts of the character commonly disclosed in financial statements under generally accepted accounting principles, except as shown in other schedules. This includes statements explaining (1) service interruption insurance policies and indicating the amount of indemnity to which respondent will be entitled for work stoppage losses and the maximum amount of additional premium respondent may be obligated to pay in the event such losses are sustained by other railroads, (2) particulars concerning obligations for stock purchase options granted to officers and employees, and (3) what entries have been made for net income or retained income restricted under provisions of mortgages and other arrangements.

1 Amount (estimated, if necessary) of net income or retained income which has to be provided for capital expenditures, and for sinking funds, pursuant to provisions of reorganization plans mortgages, deeds of trust, or other contracts ________S_____

3 (a) Explain the procedure in accounting for pension funds and recording in the accounts the current and past service pension costs, indicating whether or not consistent with the prior year

(b) State amount, if any, representing the excess of the actuarially computed value of vested benefits over the total of the pension fund

S

(c) is any part of the pension plan funded? Specify Yes _____ No _____

If funding is by insurance, give name of insuring company _____

If funding is by trust agreement, list trustee(s) ______ Date of trust agreement or latest amendment ______ If respondent is affiliated in any way with the trustee(s), explain affiliation ______

(d) List affiliated companies which are included in the pension plan funding agreement and describe basis for allocating charges under the agreement

(e) Is any part of the pension plan fund invested in stock or other securities of the respondent or its affiliates? Specify Yes ____ No ____ If yes, give number of the shares for each class of stock or other security ______

Are voting rights attached to any securities held by the pension plan? Specify Yes ____ No ____ If yes, who determines how stock is voted?

4 State whether a segregated political fund has been established as provided by the Federal Election Campaign Act of 1971 (18 U S C 610) Yes No

5 (a) The amount of employer's contribution to employee stock ownership plans for the current year was \$____

(b) The amount of investment tax credit used to reduce current .ncome tax expense resulting from contributions to qualified employee stock ownership plans for the current year was \$_____

6 In reference to Docket 37465, specify the total amount of business entertainment expenditures charged to the non-operating expense account \$______

240. STATEMENT OF CASH FLOWS (Dollars in Thousands)

Give the information as requested concerning the cash flows during the year. Either the direct or indirect method can be used. The direct method shows as its principal components operating cash receipts and payments, such as cash received from customers and cash paid to suppliers and expense items that were nor the result of operating activities. The indirect method starts with net income and adjusts it for revenues and expense items that were nor the result of operating activities. The indirect method starts with net income and adjusts it for revenues and expense items that were nor the result of operating activities. The indirect method starts with net income and adjusts it for revenues and expense items that were nor the result of operating activities. The indirect method is used complete lines flow from operating activities if the current period to reconcile it to net cash. Flow from operating activities if this schedule, shall include cash and cash equivalents which are short-rerm, highly round investments readily convertible to known amounts of cash and so near their matunity that they present insignificant risk of changes in value because of changes in interest rates information about all investing and finance activities which do not directly affect cash shall be separately disclosed in footholes to this schedule. They shall clearly relate the cash (if any) and noncash aspects of transactions. Examples of noncash investing ard transactions induce converting debit to equity, acturing assets by assuming directly related i abilities such as purchasing a burding by incurring a mortgage to the seller, obtaining an asset by entering into a capito lease; and exchanging noncash assets or liabilities for other noncash assets or labilities. Some transactions are part cash and part noncash injust here a ported price directly in the statement of cash flows. Refer to FAS Statement No. 95. Statement of Cash Flows for further details.

NOTES

--

(A) Use common carrier portion only Common carrier refers to railway transportation service

(B) Rent income is the sum of Schedule 410, column h, lines 121, 122, 123, 127, 128, 129, 133, 134, 135, 208, 210, 212, 227, 229, 231, 312, 3:4, and 316. Rent income is added to railway operating revenues to produce total revenues. Rent income is also added to total operating expenses to exclude the rent revenue items from operating expense.

(C) If result is negative, use zero

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES 310 AND 310A

- 1 Schedule 310 should give particulars of stocks, bonds, and other secured obligations, unsecured notes, and investment advances of affiliated companies held by respondent at the close of the year. Also disclose the investments made, disposed of, and written down during the year and the applicable dividends and interest credited to income as a result of those investments. They should exclude securities issued or assumed by respondent. For definition of affiliated companies, see the rules governing Account No. 721 "Investments and Advances, Affiliated Companies", in the Uniform System of Accounts for Railroad Companies.
- 2 List the investments in the following order and show a total for each group and each class of investment by accounts in numerical order
 - (A) Stocks
 - (1) Carriers-active
 - (2) Carners-inactive
 - (3) Noncarriers-active
 - (4) Noncamers-inactive
 - (B) Bonds (including US government bonds)
 - (C) Other secured obligations
 - (D) Unsecured notes
 - (E) Investment advances
- 3 The subclassification of classes (B), (C), (D), and (E) should be the same as those provided for class (A)
- 4 The kinds of industry represented by respondent's investments in the securities of other companies should be shown by symbol opposite the names of the issuing corporations. The symbols and industrial classifications are as follows

Symt Kind of Industry

- I Agriculture, forestry, and fisheries
- II Mining
- III Construction
- IV Manufacturing
- V Wholesale and retail trade
- VI Finance, insurance, and real estate
- VII Transportation communications, and other public utilities
- VIII Services
- IX Government
- X All other
- 5 By carriers, as the term is used here, is meant companies owning or operating railroads, facilities auxiliary thereto such as bridges, fernes union depots, and other terminal facilities, sleeping cars, partor cars, dining cars, freight cars, express services and facilities, electric railways, highway motor vehicles, steamboats and other manne transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included.
- 6 Noncarrer companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely holding companies are to be classified as noncarrier companies even though the securities held by such companies are largely or entirely issued or assumed by carriers.
- 7 By an active corporation is meant one which maintains an organization for operating property or administening its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation and which neither operates property nor administers its financial affairs. If it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.
- 8 Combine in one account investments in which the original cost or present equity in total assets is less than \$10,000
- 9 include investments in unincorporated entities such as lessee organizations. Exclude amounts normally settled on a current basis
- 10 Do not include the value of securities issued or assumed by respondent
- 11 For affiliates which do not report to the Surface Transportation Board and are jointly owned, disclose in footnotes the name and extent of control of the other controlling entities

Road Initials:

310. INVESTMENTS AND ADVANCES AFFILIATED COMPANIES

Dollars in Thousands

1 Give particulars of investments in stocks bonds, other secured obligations unsecured notes and investment advances of companies affiliated with respondent, from accounts 715 (sinking funds), 716 (capital funds), 721 (investments and advances affiliated companies), and 717 (other funds)

2 Entries in this schedule should be made in accordance with the definitions and general instructions given on page 25 classifying the investments by means of letters, figures, and symbols in columns (a), (b) and (c)

3 Indicate by means of an arbitrary mark in column (d) the obligation in support of which any security is pledged, mortgaged, or otherwise encimbered. Give names and other important particulars of such obligations in footnotes

4 Give totals for each class and for each subclass and a grand total for each account

5 Entries in column (d) should show date of maturity of bonds and other evidence of indebtedness. In case obligations of the same designation mature senally, the date in column (d) may be reported as "Serially ______ to _____" Abbreviations in common use in standard financial publications may be used to conserve space

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 330

- Give particulars of balances at the beginning and close of the year and of all changes during the year in Account No 731 Road and Equipment
 Property" and Account No 732, "Improvements on Leased Property" classified by primary accounts in accordance with the Uniform System
 of Accounts for Railroad Companies The balances, by primary accounts, should, insofar as known, be stated in column (b) and all changes
 made during the year should be analyzed in columns (c) to (f) inclusive Column (g) should be the net of the amounts in columns (c) through
 (f) Column (h) is the aggregate of columns (b) through (f), inclusive Grand totals of columns (b) and (h) should equal the sum of Accounts
 731 and 732 for the respective periods, if not, a full explanation should be made in a footnote
- 2 In column (c), show disbursements made for the specific purpose of purchasing constructing, and equipping new lines and for the extension of old lines, as provided for in Instruction 2-1. .Items to be charged" in the Uniform System of Accounts for Railroad Companies for such items
- 3 In column (d), show the cost of a railway or portion thereof acquired as an operating entity or system by purchase merger consolidation, reorganization, receivership sale or transfer, or otherwise
- 4 Columns (c) and (e) should include all entries covering expenditures for additions and betterments, as defined, whether or not replacing other property
- 5 All credits representing property sold, abandoned or otherwise retires should be shown in column (f)
- 6 Both the debit and credit involved in each transfer, adjustment, or clearance, between road and equipment accounts should be included in the column in which the item was initially included. Also the transfer of prior years' debits or credits from investment in road and equipment to operating expenses or other accounts, or vice versa, should be included in the column applicable to current items of like nature. Each such transfer, adjustment, or clearance should be fully explained when in excess of \$100,000.
- 7 If during the year an individual charge of \$100,000 or more was made to Account No 2, "Land for Transportation Purposes," state the cost, location, area, and other details which will identify the property in a footnote
- 8 Report on line 29, amounts not included in the primary road accounts. The items reported should be briefly identified and explained under Notes and Remarks," below. Amounts should be reported on this line only under special circumstances, usually after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining the amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board
- 9. If during the year a segment of transportation property was acquired, state in a footnote the name of the vendor, the mileage acquired, and the date of acquisition, giving location and cost of the property to the respondent. Also furnish a statement of the amount included in each primary account representing such property acquired, referring to the column or columns in which the entries appear.
- 10. If an amount of less than \$5,000 is used as the minimum for additions and betterments to property investment accounts as provided for in instruction 2-2 of the Uniform System of Accounts for Railroad Companies, state the amount used in a footnote

Road Initials:

Year 332. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT OWNED AND LEASED FROM OTHERS

(Dollars in Thousands)

Show in columns (b) and (e) for each primary account, the depreciation base used to compute depreciation charges for the month of January 1 and in columns (c) and (f) the depreciation charges for the month of December In columns (d) and (g) show the composite rates used in computing depreciation charges for December, and on lines 30 and 39 of these columns show the composite percentage for all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December, and dividing that total by the total depreciation base for the same month. The depreciation base should not include cost of equipment used, but not owned, when the rents are included in rent for equipment and account nos 31-22-00, 31-23-00, 31-25-00, 31-21-00, 35-21-00, 35-23-00, 35-22-00, and 35-25-00 It should include cost of equipment owned and leased to others when the rents therefrom are included in the rent for equipment, accounts nos 32-21-00, 32-22-00, 32-23-00, 32-25-00, 36-21-00, 36-22-00, 36-23-00, and 36-25-00, inclusive Composite rates used should be those prescribed or authorized by the Board, except that where the use of component rates has open authorized, the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give particulars in a footnote

2 All leased property may be combined and one composite rate computed for each primary account, or a separate schedule may be included for each such property

3 Show in columns (e), (f), and (g) data applicable to lessor property, when the rent therefore is included in accounts nos 31-11-00, 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive

4 If depreciation accruals have been discontinued for any account the depreciation base should be reported, nevertheless, in support of cepreciation reserves. Authority for discontinuance of accruals should be shown in a footnote, indicating the effected account(s)

5 Disclosures in the respective sections of this schedule may be omitted if either total read leased from others or total equipment leased from others represents loss than 5% of total road owned or total equipment owned, respectively

Year

340. DEPRECIATION BASE AND RATES - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

1 Show in column (b) for each primary account the depreciation base used in computing the depreciation charges for the month or January, and in column (c) show the depreciation base used in computing the depreciation charges for the month of December, in column (d) show the composite rates used to compute depreciation charges for December, and on lines 30 and 40 of these columns show the composite percentage of all road and equipment accounts, respectively ascertained by applying the primary account composite rates to the depreciation base used in computing the charges for December and dividing the total so computed by the total depreciation base for the same month. This schedule should include only improvements to leased property charged to Account 732, "Improvements on Leased Property." The composite rates used should be those prescribed or authorized by the Board, except that where the use of component rates has been authorized the composite rates to be shown for the respective primary accounts should be recomputed from the December charges developed by the use of the authorized rates. If any changes in rates were effective during the year, give part culars in a footnote

2 All improvements to leased property may be combined and one composite rate computed for each primary account or a separate schedule may be included for each such property

3 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless, in support of depreciation reserves. Authority for discontinuance of accruals should be shown in a footnote, indicating the effected account(s).

4 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment loased from others represents less than 5% of total road owned or total equipment owned, respectively However, line 41, Grand Total, should be completed

Year 342. ACCUMULATED DEPRECIATION - IMPROVEMENTS TO ROAD AND EQUIPMENT LEASED FROM OTHERS (Dollars in Thousands)

Enter the required information concerning debits and credits to Account 733, "Accumulated Depreciation - Improvements on Leased Property," 1 during the year relating to improvements made to road and equipment property leased from others, the depreciation charges for which are included in operating expenses of the respondent

2 If any entries are made for column (d) "Other credits" or column (f) "Other debits," state the facts occasioning such entries on page 39 A debit balance in columns (b) or (g) for any primary account should be shown in parenthesis or designated "Dr "

3 Any inconsistency between credits to the reserve as shown in column (c) and charges to operating expenses should be fully explained on page 39

4 Show in column (e) the debits to the reserve arising frum retirements. These debits should not exceed investment, etc.

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased from others or total equipment leased from others represents less than 5% of total road owned or total equipment owned, respectively However, line 39, Grand Total, should be completed

Road Initials: 350. DEPRECIATION BASE AND RATES - ROAD AND EQUIPMENT LEASED TO OTHERS

Year

(Dollars in Thousands) 1 This schedule is to be used in cases where the related depreciation reserve is carried in the accounts of the respondent and the rent

therefrom is included in Accounts 32-11-00, 32-12-00, 32-13-00, 32-21-00, 32-22-00, and 32-23-00

2 Show in columns (b) and (c), for each primary account, the depreciation base used in computing the depreciation for the months of January and December, respectively, with respect to road and equipment owned by the respondent but leased to others, the depreciation charges for which are not included in operating expenses of the respondent, but for which the depreciation reserve is recorded in the accounts of the respondent If the base for road is other than the original cost or estimated original cost as found by the Board's Office of Economic and Environmental Analysis, brought to a current date by the respondent from its Order No. 3 records and accounts, or is other than ledger value for equipment a full explanation should be given

3 In column (d) show the composite rates used to compute depreciation for December, and on lines 29 and 38 of this column show the composite percentage of all road and equipment accounts, respectively, ascertained by applying the primary account composite rates to the depreciation base used to compute depreciation for December and dividing the total also computed by the depreciation base

4 If depreciation accruals have been discontinued for any account, the depreciation base should be reported, nevertheless in support of depreciation reserves. Authority for discontinuance of accruals should be shown in a footnote, indicating the effected account(s)

5 Disclosures in the respective sections of this schedule may be omitted if either total road leased to others or total equipment leased to others represents less than 5% of total road owned or total equipment owned, respectively However, line 39, Grand Total, should be completed

* To be reported with equipment expenses rather than W&S expenses Railroad Annual Report R-1

Road Initials: Year 352A. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Company) (Dollars in Thousands)

1 Disclose the investment in railway property used in transportation service at the close of the year. This investment represents the aggregate of property owned or leased by respondent and used in respondent's transportation service. Such property includes (a) investment reported in Accounts 731, "Road and Equipment Property" and 732, "improvements on Leased Property" of respondent less any 731 or 732 property leased to others for their exclusive use of road, track, or bridges (including equipment or other railway property covered by the contract) Equipment leased to others under separate distinct contracts shall not be deducted from respondent's 731 or 732 property, and (b) the investment of other companies' 731 or 732 property (including operating and lessor railroads) used by respondent when the lease is for exclusive use or control of roads, tracks, or bridges (including equipment of other railway property covered by the contract). This excludes leased equipment from operating railroads under separate distinct contracts and the investment of other carriers in property (by the contract).

2 In column (a) classify each company in this schedule as "R" for respondent, "L" for lessor railroad, "P" for inactive or proprietary company or "O" for other leased properties

3 In columns (a) to (e), inclusive, first show the data requested for respondent (R) next show data for companies whose entire properties are used in transportation service of the respondent, divided between lessor (L) and proprietary (P) companies, followed by data for carriers and others (O), portions of whose property are used in transportation service of respondent. Show a total for each class of company in columns (d) and (e) Then show, as deductions data for transportation property leased to carriers and others

4 In column (c), line-haul carriers report the miles of road used in line-haul service. Report miles in whole numbers

42

5 In column (d), show the amount applicable to Accounts 731 and 732 on the books of companies whose names appear in column (b). Values of property of other carners segregated by estimate or otherwise should correspond in amount to deductions made by the owners in their records If separate value is not available, an explanation should be provided. Differences between amounts shown in column (d) of this schedule and column (c), line 24, on the asset side of the general balance sheet of each individual railway should be explained in a footnate. Book values included in Accounts 731 and 732 of the owner should be reported in column (d) in reference to the investment of respondent in securities of the owner unless a good reason can be given for the contrary. Methods of estimating (b) capitalizing rentals at 6% or otherwise) value of property of private owners, or portions of property of other carners. should be explained

6 In column (e), show the amount of depreciation and amortization accrued as of the close of the year in Accounts 733, 734, 735, 736, and 772, that is applicable to the property of the carriers whose names are listed in column (b), regardless of where reserves therefor are recorced

Line No.	Class (See (Ins. 2)	Name of company	Miles of road used (See Ins. 4) (whole number)	Investments In property (See Ins. 5)	Depreciation & amortization of - defense projects (See Ins. 6)	Line No.

Year

352B. INVESTMENT IN RAILROAD PROPERTY USED IN TRANSPORTATION SERVICE (By Property Account) (Dollars in Thousands)

1 In columns (5) through (e) give, by primary accounts, the amount of investment at the close of the year in property of respondent and each group or class of companies and properties

2 The amounts for respondent and for each group or class of companies and properties on Line 44 should correspond with the amounts for each class of company and property shown in Schedule 352A. Continuing records shall be maintained by respondent of the primary property accounts separately for each company or property included in this schedule.

3 Report on line 29 amounts representing capitalization of rentals for leased property based on 6% per year where property is not classified by accounts by noncarrier owners, or where the cost of property leased from other carriers is not ascertainable. Identify noncarrier owners and briefly explain on page 39 the methods of estimating value of property on noncarriers or property of other carriers.

4 Report on line 30 amounts not included in the accounts shown, or on line 29 The items reported should be briefly identified and explained Also include here those items after permission is obtained from the Board for exceptions to prescribed accounting. Reference to such authority should be made when explaining amounts reported. Respondents must not make arbitrary changes to the printed stub or column headings without specific authority from the Board.

			Railroad Annual Report R-1

-

GENERAL INSTRUCTIONS CONCERNING RETURNS TO BE MADE TO SCHEDULE 415

- 1 Report freight expenses only
- 2 Report by type of equipment all natural expenses relating to equipment functions (salaries and wages, materials, tools supplies fuels and lubricants, purchased services and general)
- 3 Report in column (b) net repair expense, excluding the cost to repair damaged equipment
 - Schedule 415, column (b) will balance to Schedule 410, column (f) as follows
 - (a) Locomotives, line 5 plus line 38 compared to the sum of Schedule 410, lines 202, 203, and 216 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 204
 - (b) Freight cars, line 24 plus line 39, compared to the sum of Schedule 410, lines 221, 222, and 235 (excluding wreck repairs) Do not report in Schedule 415, Equipment Damaged from Schedule 410, line 223
 - (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41), compared to Schedule 410, the sum of lines 302 through 307, plus line 329 (excluding wreck repairs). Do not report in Schedule 415, equipment damaged from Schedule 410, line 308.

Note Lines 216, 235, and 320 of Schedule 410 are credit amounts

- The allocation of freight car repair expenses reportable on Schedule 415 by car types shall be in accordance with Instruction 2-21, Freight Irain repair costing, 49 CFR 1201
- 4 Depreciation expense for each class of equipment by car type shall be reported in columns (c) and (d) For improvements on leased property. Accounts 732 and 733, use a supplementary Schedule 415, which will relate to Schedules 340 and 342
 - Depreciation charges reported in columns (c) and (d) will balance to Schedule 410, column (f) as follows
 - (a) Locomotives, lines 5 and 38, compared to Schedule 410, line 213
 - (b) Freight cars, lines 24 and 39, compared to Schedule 410, line 232
 - (c) Sum of highway equipment (line 32), floating equipment (line 35), passenger and other revenue equipment (line 36), computer and data processing equipment (line 37), machinery-other equipment (line 40), and work and other non-revenue equipment (line 41), compared to Schedule 410, line 317
- 5 Amortization adjustment of each equipment type which is included in column (c) shall be reported in column (e) as a debit or credit to the appropriate line item. The net adjustment on line 43 shall equal the equipment amortization adjustment applicable to equipment used in freight service included in line 39, column (c), of Schedule 335
- 6 Lease/rentals reported in column (f) should balance to column (f) of Schedule 410 as follows
- (a) Locomotives, lines 5 and 38 compared to Schedule 410, lines 207, 208, 211, and 212

(b) Freight cars, lines 24 and 39 compared to Schedule 410, lines 226 and 227 (note that Schedule 410, lines 230 and 231, are reported in Schedule 415, and are not included in Schedule 415)

- (c) Sum of lease/rentals for all other equipment. lines 32, 35, 36, 37, 40, and 41, will balance to Schedule 410, lines 311, 312, 315, and 316, except for the interchange rental on trailers and containers which is reported in Schedule 414. Therefore, both Schedules 414 and 415 should be used when balancing lease/rentals other equipment to Schedule 410. Do not report in Schedule 415, the trailer and
- container rentals reported in Schedule 414
 7 Investment base by types of equipment shall be reported in columns (g) and (h) and should not include the cost of equipment used but not owned when rents therefore are included in the rent for equipment and Account Nos 31-21-00 31-22-00, 31-23-00, 35-21-00. 35-22-00, and 35-23-00 It should include the cost of equipment owned and leased to others when the rents are included in the rent for Equipment Account Nos 32-21-00, 32-22-00, 36-21-00. 36-22-00, and 36-23-00

Property used but not owned should also be included when the rent is included in Account Nos 31-12-00, 31-13-00, 31-21-00, 31-22-00, and 31-23-00, inclusive

The grand total of each equipment account in column (h) of Schedule 330 should equal the totals of line items constituting the equipment account totals of columns (g) and (h) of Schedule 415

8 Accumulated depreciation for each class of equipment shall be reported in columns (i) and (j) The grand total of each equipment reserve account in column (g), Schedule 335, shall equal the combined aggregate total accumulated depreciation for line items constituting the corresponding equipment accounts reported in columns (i) and (j), on Schedule 415

Data reported on lines 38, 39, and 40 in columns (g) and (h) are investment recorded in property account 44, allocated to locoinolive freight cars, and other equipment

(2) Depreciation reported on lines 38, 39, and 40 in column (c) is calculated by multiplying the investment in each element by the effective composite rate for property account 44, and then adding or subtracting the adjustment reported in column (e). This calculation

B. Adjustments to Federal Income Taxes

1 In column (a) are listed the particulars which most often cause a differential between taxable income and pretax accounting income. Other particulars which cause such a differential should be listed under like caption "Other (Specify)" including state and other taxes deferred if computed separately. Minor items, each less than \$100,000, may be combined in a single entry under "Other (Specify)".

2 Indicate in column (b) the beginning of year totals of Accounts 714, 744, 762, and 786 applicable to each particular item in column (a)

3 Indicate in column (c) the net changes in Accounts 714. 744 762, and 786 for the net tax effect of timing differences originating and reversing in the current accounting period

4 Indicate in column (d) any adjustments, as appropriate including adjustments to eliminate or reinstate deferred tax effects (credits or debits) due to applying or recognizing a loss carry-forward or a loss carry-back

5 The total of line 19 in columns (c) and (d) should agree with the total of the contra charges (credits) to Account 557, Provision for Deferred Taxes, and Account 591 Provision for Deferred Taxes - Extraordinary Items, for the current year

6 Indicate in column (e) the cumulative total of columns (b), (c), and (d) The total of column (e) must agree with the total of Accounts 714, 744, 762, and 786

460. ITEMS IN SELECTED INCOME AND RETAINED EARNINGS ACCOUNTS FOR THE YEAR

Year

(Dollars in Thousands)

Give a brief description for all items, regardless of amount included during the year in Accounts 555. Unusual or Infrequent Items, 560, Income or Loss From Operations or Discontinued Segments, 562, Gain or Loss on Disposal of Discontinued Segments, 570 Extraordinary Items, 590, Income Taxes on Extraordinary Items, 592, Cumulative Effect of Changes in Accounting Principles, 603, Appropriations Released, 606, Other Credits to Retained Earnings, 616, Other Debits to Retained Earnings, 620, Appropriations for Sinking and Other Funds, and 621, Appropriations for Other Purposes. If appropriations released reflect appropriations provided during the year, each account should not be reported.

For Accounts 519, Miscellaneous Income, and 551, Miscellaneous Income Charges, if the total in either account exceeds 10% of net income before extraordinary items, describe the three largest items in the account and any other items in excess of 10% of net income

502. COMPENSATING BALANCES AND SHORT-TERM BORROWING AGREEMENTS (Dollars in Thousands)

Using the following notes as a guideline show the requirements of compensating balances and short-term borrowing agreements. Footnote disclosure is required even the arrangement is not reduced to writing

1 Disclose compensating balances not legally restricted, lines of credit used and unused, average interest rate of short-term borrowings that are outstanding at balance sheet date, maximum amount of outstanding borrowings during the period and the weighted average rate of those borrowings

2. Time deposits and certificates of deposit constituting compensating balances not legally restricted should be disclosed

3 Compensating balance arrangements need only be disclosed for the latest fiscal year

Year

4 Compensating balances included in Account 703, Special Deposits, and in Account 717 Other Funds, should also be separately disclosed below

5 Compensating balance arrangements are sufficiently material to require disclosure in footnotes when the aggregate of written and oral

agreement balances amount to 15% or more of liquid assets (current cash balances restricted and unrestricted plus marketable securities) 6 When a carrier is not in compliance with a compensating balance requirement, that fact should be disclosed, along with stated and possible

sanctions, whenever such possible sanctions may be immediate (not vague or unpredictable) and material

Year 510. SEPARATION OF DEBTHOLDINGS BETWEEN ROAD PROPERTY AND EQUIPMENT (Dclivars in Thousands)

The principal use of this schedule is to determine the average rate of debt capital

I. Debt Outstanding at End of Year

Line	Account	Title	Source	Balance
No	No			Close of Yea
	(a)	(b)	(3)	(d)
1	751	Loans and notes payable	Sch 200, Line 30	
2	764	Equipment obligations and other long-term dept due within one year	Sch 200, Line 39	
3	765/767	Funded debt unmatured	Sch 200, Line 41	
4	766	Equipment obligations	Sch 200, Line 42	
5	766 5	Capitalized lease obligations	Sch 200, Line 43	
6	768	Debt in default	Sch 200, Line 44	
7	769	Accounts payable - affiliated companies	Sch 200, Line 45	
8	770 1/770 2	Unamortized debt premium	Sch 200, Line 46	
9		Total debt	Sum of Lines 1 through 8	
10		Debt directly related to road property	Note 1	
11		Debt directly related to equipment	Note 1	
12		Total debt related to road and equipment	Lines 10 and 11	
13		Percent directly related to road	Line 10 /Line 12	
	_		Whole % + 2 decimals	
14		Percent directly related to equipment	Line 11 /Line 12	
			Whole % + 2 decimals	
15		Debt not directly related to road and equipment	Line 9 - Line 12	
16		Road property debt (Note 2)	(Line 13 x Line 15) / Line 10	
17		Equipment debt (Note 2)	(Line 14 x Line 15) / Line 11	

II. Interest Accrued During the Year

Line	Account	Tille	Source	Balance
No	No			Close of Year
	(a)	(b)	(c)	(d)
18	546-548	Total interest and amortization (fixed charges)	Sch 210, Line 42	
19	546	Contingent interest on funded debt	Sch 210, Line 44	
20	517	Release of premium on funded debl	Sch 210, Line 22	
21		Total interest (Note 3)	(Line 18 / Line 19) - Line 20	
22		Interest directly related to road property debt	Note 4	
23		Interest directly related to equipment debt	Note 4	
24		Interest not directly related to road or equipment property debt	Line 21 - (Lines 22 + 23)	
25		Interest on road property debt (Note 5)	_ine 22 + (Line 24 x Line 13)	
26		Interest on equipment debt (Note 5)	Line 23 + (Line 24 x Line 14)	
27		Embedded rate of debt capital - road property	Line 25 / Line 16	
28		Embeddod rate of debt capital - equipment	Line 26 / Line 17	

Note 1 Directly related means the purpose which the funds were used for when the debt was issued

Note 2 Line 16 plus Line 17 must equal Line 9

Note 3 Line 21 includes interest on debl in Account 769 - Accounts Payable, Affiliated Companies

Note 4 This interest relates to debt reported on Lines 10 and 11, respectively

Note 5 Line 25 plus Line 26 must equal Line 21

					2

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 700

State particulars of all tracks operated by the respondent at the close of the year, according to the following classifications

(1) Line owned by respondent

(2) Line owned by proprietary companies

(3) Line operated under lease for a specified sum, lessor being (A) an affiliated corporation, or (B) independent or not affiliated with the respondent

(4) Line operated under contract or agreement for contingent rent, owner being (A) an affiliated corporation, or (B) independent or not affiliated with the respondent

(5) Line operated under trackage rights

Give subtotals for each of the several numbered classes, in the order listed above, as well as the total for all classes

Lengths of track should be reported to the nearest WHOLE mile adjusted to accord with footings, i.e., counting one-half mile or over as a whole mile and disregarding any fraction less than one-half mile

In Column (a) insert the figure (and letter, if any) indicating its class in accordance with the above list of classifications

In Column (b) give the various proportions of each class owned or leased by respondent, listing each proportion once in any grouping Canadian mileage should be segregated and identified on separate lines in the various groupings. For each listing, in Column (d) give its entire length (the distances between terminals of single or first main track), and in the following columns the lengths of second main track, all other main tracks, passing tracks, cross-overs and turn-outs, way switching tracks, and yard switching tracks. These classes of tracks are defined as follows

RUNNING TRACKS - Running tracks, passing tracks, cross-overs, etc including turn-outs from those tracks to clearance points WAY SWITCHING TRACKS - Station, team, industry, and other switching tracks for which no separate service is maintained YARD SWITCHING TRACKS - Yard where separate switching services are maintained, including classification, house team, industry, and other

tracks switched by yard locomotives

The returns in Columns (h) and (i) should include tracks serving industries, such as mines, mills smelters, factories, etc. Tracks belonging to an industry for which no rent is payable should not be included

Tracks leading to and in gravel and sand pits and quarries, the cost of which is chargeable to a clearing account and which are used in getting out material for the respondent's use, should not be included,

Class (1) includes al lines operated by the respondent at the close of the year to which it has title in perpetuity

Class (2) includes each line, full title to which is in an inactive proprietary corporation of the respondent (i.e., one all of whose outstanding stocks or obligations are held by or for the respondent, and which is operated by the respondent or an affiliated system corporation without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent. But in the case of any such inclusion, the facts of the relationship to the respondent of the corporation holding the securities should be fully set forth in a footnote. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs. If it maintains an organization, it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

Class (3) includes all tracks operated under a lease or formal conveyance of less than the grantor's interest in the property, with a specific and unconditional rent reserved. The fact that the lessor does or does not maintain an independent organization for financial purposes is immaterial in this connection.

Class (4) is the same as Class (3), except that the rent reserved is conditional upon earnings or some other fact

Class (5) includes all tracks operated and maintained by others but over which the respondent has the right to operate some or all of its trains. In the road of this class, the respondent has no prophetary rights, but only the rights of a licensee include in this class, also, on main tracks, industrial tracks and sidings owned by noncarrier companies and individuals when the respondent operates over them but does not have exclusive possession of them

Road held by respondent as a joint or common owner or a joint lessee or under any joint arrangement should be shown in its appropriate class and the entry of length should be the entire length of the portion jointly held. The class symbol should have the letter (J) attached Road operated by the respondent as an agent for another carrier should not be included in this schedule.

reporting purposes indicate radio-controlled self-powered diese! units on lines 1 through 8 as		
appropriate. Radio-controlled units that are not self-propolled, i.e., those without a diesel should be reported on line 13 under "auxiliary units."

710. INVENTORY OF EQUIPMENT - Continued

Instructions for reporting freight-train car data

Give particulars of each of the various classes of equipment which respondent owned or leased during the year

2 In Column (d) give the number of units purchased or built in company shops. In Column (e) give the number of new units leased from others. The term "new" means a unit placed in service for the first time on any railroad.

3 Units leased to others for a period of one year or more are reportable in Column (n) Units temporarily out of respondent's service and rented to others for less than one year are to be included in Column (i) Units rented from others for a period less than one year should not be included in Column (j)

Year 710. INVENTORY OF EQUIPMENT - Continued

Column (m) should show aggregate capacity for all units reported in Columns (k) and (l), as follows. For freight-train cars, report the nominal capacity (in tons of 2 000 ibs) as provided for in Rule 86 of the AAR Code of Rules Governing Cars in Interchange. Convert the capacity of tank cars to capacity in tons of the commodity which the car-s intended to customarily carry Time-mileage cars refers to freight cars, other than cabooses, owned or held under lease arrangement, whose interline rental is settled on a per diem and line hauf mileage basis under "Code of Car Hire Rules" or would be so settled if used by another railroad

Railroad Annual Report R-1

Road Initials 710S. UNIT COST OF EQUIPMENT INSTALLED DURING THE YEAR

(Dollars in Thousands)

Year

1 Give particulars, as requested, separately, for the various classes of new units and rebuilt units of equipment installed by respondent during the year. If information regarding the cost of any units installed is not complete at the time of filing of this report, the units should be omitted, but reference to the number of units omitted should be given in a foolnote, the details as to cost to be given in the report of the following year. The cost of units under construction at the close of the year should not be reflected in this schedule even though part of the cost appears in the property account for the year. Indicate in column (e) whether an installation represents equipment purchased (P), built or rebuilt by contract in outside railroad shops (C), or built or rebuilt in company or system shops (S), including units acquired through capital zed leases (L)

2 In column (a) list each class or type of locomotive unit, car or TOFC/COFC equipment on a separate line. By class is meant the standard classification used to distinguish types of locomotive units, freight cars, or other equipment adopted by the Association of American Rairoads and should include physical characteristics requested by Schedule 710. Locomotive units should be identified as to power source, wheel arrangement, and horsepower por unit, such as multiple-purpose diesel locomotive A units (B-B), 2500 HP. Cars should be identified as to special construction or service characteristics, such as aluminum-covered hopper car (LO) or steel boxcars-special service (XAP). For TOFC/COFC show the type of equipment as enumerated in Schedule 710.

3 In column (c) show the total weight in tons of 2 000 pounds. The weight of equipment accurred should be the weight empty

4 The cost should be the complete cost as entered on the ledger, including foreign line freight charges and handling charges

5 Data for this schedule should be confined to the units reported in Schedule 710, columns (c) and (e) for locomotive units, passenger-train cars, and company service cars, and columns (d) and (f) for freight train cars, floating equipment and highway revenue equipment. Disclose new units in the upper section of this schedule. Disclose rebuilt units acquired or rewritten into the respondent's accounts in the lower section. The term "new" as used herein shall mean a unit or units placed in service for the first lime on any railroad.

All unequipped boxcars acquired in whole or in part with incentive per diem funds should be reported on separate lines and be appropriately identified by footnote or sub-heading

723. RAILS LAID IN REPLACEMENT

- Furnish the requested information concerning rails laid in replacement - ~
- The term "spot maintenance" in column (h) means repairs to track components during routine inspections, as opposed to programmed replacements aimed at upgrading the general condition of the tracks "Porcont of spot maintenance" refers to the percentage of total rails laid in replacement that are considered to be spot maintenance
 - In line 9, the average cost of new and relay rail should include the cost of loading at the point of purchase ready for shipment, freight charges paid to forcign lines, and the cost of handling rails in ო

Road Initials

Year 724. RAILS LAID IN ADDITIONAL TRACKS AND IN NEW LINES AND EXTENSIONS

(Dollars in Thousands)

1 Give particulars of all rais applied during the year in connection with the construction of new track

In Column (a) classify the kind of rail applied as follows

(1) New steel rails, Bessemer process

(2) New steel rails, cpen-hearth process

(3) New rails, special alloy (describe more fully in a footnote)

(4) Relay rails

2 Returns in Columns (c) and (g) should be reported in WHOLE numbers Fractions of less than one-half should be disregarded and fractions of one-half or more should be counted as one

3 The returns in Columns (d) and (h) should include the cost of loading at the point of purchase ready for shipment, the freight charges paid to foreign lines, and the cost of handling rails in general supply and storage yards. The cost of unloading, hauling over carner's own lines, and placing the rails in tracks, as well as train service in connection with the distribution of the rail, should not be included in this schedule.

Road Initials 725. WEIGHT OF RAIL

Give the particulars called for below concerning the road and track operated by respondent at the close of the year. Only the respondent's proportion of jointly owned mileage should be included. Under "Weight of rail," the various weights of rail should be given. Road and track occupied under trackage rights or other form of license should not be included herein, but all road and track held under any form of lease (granting exclusive possession to the lessee) should be included.

Road Initials: Year INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755

Unit Train, Way Train, and Through Train data under items 2, 3, 4, 6, and 12 shall be obtained from conductor's wheel reports (freight) or similar reports. Unit train service is a specialized scheduled shuttle type service in equipment (railroad or privately owned) dedicated to such service moving between origin and destination. The applicable ranffs and/or contracts generally require that a specific minimum tonnage or quantity of carloads be tendered as a unit for shipment on one bill of lading or other shipping document in a solid train for movement between origin and destination. Such tariffs and/or contracts generally contain restricted delention provisions and are subject to time-volume requirements which reflect the approximate capacity of the unit trains for the stated period. Way trains are defined as trains operated primarity to gather and distribute cars in road service and move them between way stations or way points. Through trains are those trains operated between two or more major concentralion or distribution points. Do not include unit train statistics in way or through train statistics. A work train is a train operated solely or preponderantly for the purpose of transporting company freight, work equipment, or company employees. Statistics for work trains should be reported under Item 11, only. Statistics related to company equipment, company employees, and company freight moving in transportation trains are not to be reported in Item 11, but are to be reported in Items 4-17, 6-04, 7-02, 8-04, and 8-05, as instructed in notes I, K, and L.

(A) Report miles of road operated at close of year, excluding industrial tracks, vard tracks, and sidings

92

(B) A train-mile is a movement of a train a distance of one mile in computing train-miles, fractions representing less that one-half mile shall be disregarded and other fractions shall be considered as one mile. Train Miles-Running shall be based on the actual distance run between terminals and/or stations and shall be computed from the official time tables or distance tables. Train-Miles shall not be increased to cover the running of locomotives from shops to terminals doubling hills, switching, or other work at way stations, or for the service of holper or pusher locomotives or of extra locomotives on double-head or triple-head trains. When the carner's trains are detoured over foreign roads, the miles shall be computed on the basis of the miles and and accordance with the service performed. Train-miles shall be kept separately for trains hauled by locomotives and trains moved by molorcars.

(C) A motorcar is a self-propelled unit of equipment designed to carry freight or passengers, and is not considered a locomotive

(D) A locomotive is a self-propelled unit of equipment designed solely for moving other equipment. A locomotive unit-mile is a movement of a locomotive unit a distance of one mile under its own power. Include miles made by all locomotive units. Exclude miles made by motorcars. Miles of locomotives in helper service shall be computed on the basis of actual distance run in such service.

(E) All locomotive unit-miles in road service shall be based on the actual distance run between terminals and/or stations. Follow instruction (B) regarding fractions and official time tables for computing locomotive miles.

(F) Train switching locomotive-miles shall be computed at the rate of six miles per hour for the time actually engaged in such service. Include miles allowed for train locomolives for performing switching service at terminals and way stations.

(G) Yard switching locomotive-miles shall be computed at the rate of six m les per hour for the time actually engaged in yard switching service include miles allowed for yard locomotives for switching service in yards where regular switching service is maintained and in terminal switching and transfer service

(H) A car-mile is a movement of a unit of car equipment a distance of one mile. Use car designations shown in Schedule 710. Under Railroad Owned and Leased Cars, Items 4-01 and 4-11, report both foreign cars and respondent's own cars while on the line of the respondent railroad. In items 4-13 and 4-15, report private-line cars and shipper owned cars. Loaded and empty miles should be reported whether or not the railroad reimbursed the owner on a loaded and/or empty mile basis. Report miles made by flatcars carrying empty highway trailers that are not moving under revenue billings as empty freight car-miles. Do not report miles made by motorcars or business cars.

(I) Exclude from Items 4-01, 4-11, 4-13, and 4-5, car-miles of work equipment, cars carrying company freight, and non-revenue private line cars moving in transportation trains include such car-miles in Items 4-17, 4-18, and 4-19. If private line cars move in revenue sorvice, the loaded and empty miles should not be considered no-payment or non-revenue car-miles.

(J) Report miles actually run by passenger-frain cars in transportation service. Passenger-train car-miles include miles run by coaches and cars in which passengers are carried at regular tariff fares without extra charge for space occupied, miles run by combination passenger and baggage, passenger and mail, passenger and express miles run by sleeping, parlor, and other cars for which an extra fare is charged, miles run by dining, cafe, and other cars devoted exclusively to the serving of meals and other refreshments and by club, lounge, and observation cars, and miles run by other passenger-frain cars where services are combined such as baggage, express and mail

(K) From conductor's or dispatcher's train reports or other appropriate sources, compute weight in tons (2 000 pounds) Item 6-01 includes weight of all locomotive units moved one mile in transportation trains. Ton-miles of motorcars should be excluded. Items 6-02 and 6-03 represent tons behind locomotive units (cars and contents, cabooses) moved one mile in transportation Irains (excluding non revenue gross ton-miles). Nonrevenue gross ton-miles in transportation trains include work equipment and cars carrying company freight and their contents. Use 150 pounds as the average weight per passenger and four tions as the average weight of contents of each head-end car.

Road Initials:

INSTRUCTIONS CONCERNING RETURNS TO BE MADE IN SCHEDULE 755 - (Concluded)

93

Year

(L) From conductor's train reports or other appropriate sources, compute ton-miles of freight. Ton-miles represent the number of tons of revenue and nonrevenue freight moved one mile in a transportation train. Include net ton-miles in motorcar trains. Exclude I c I shipment of freight handled in mixed baggage express cars. Total ton-miles of revenue freight should correspond to the ton-miles reported on Form CBS.

(M) Road service represents elapse time of transportation trains (both ordinary and light) between the time of leaving the initial terminals and the time at final terminals, including trains switching at way stations and delays on road as shown by conductor's or dispatcher's train reports. Include time of motorcar service performed by train locomotives at terminals and way stations. Report in Item 9-02, train switching hours included in Item 9-01. Train switching is the time spent by the train while performing switching service at terminals and way stations where no regular yard service is maintained. A train hour is independent of the number of locomotives in the train.

(N) Yard switching hours are hours expended in switching service performed by yard crows in yards where regular switching service is maintained, including switching and transfer service in connection with the transportation of revenue and incidentally of company freight. Hours in yard switching are independent of the number of locomotives used.

(O) Work-train miles include the miles run by trains engaged in company service such as official inspection, inspection trains for railway commissioners for which no revenue is received, trains running special with fire apparatus to save camer's property from destruction. Irains run for transporting the camer's employees to and from work when no transportation charge is made, wrecking trains run solely for the purpose of transporting company material, trains run for distributing material and supplies for use in connection with operations, and all other trains used in work-train services. Exclude miles run by locomotives while engaged incidentally in switching company materials in company shops or material yards in connection with regular yard switching service or in switching equipment for repairs between yards and shops.

(P) The number of loaded freight cars shall be obtained from the conductors' wheel report and shall be the sum of all loaded cars handled by each train. For example, if a car moves loaded (1) in a way train from the origination points, (2) in two through trains, and (3) in a way-train to the destination point, the total count of loaded cars would be four, two counts for the movements in the way trains and two counts for the movements in through trains. Therefore, each car originated or received from a connecting carrier receives an initial count, plus one count for each subsequent physical transfer between trains on respondent's lines. No additional count is given because of crew change or changes in track identification number unless there is a physical transfer of the car between trains. Each car moving under revenue billing shall be considered as a loaded car

(Q) Report vehicles (TOFC trailers/containers, automobiles and trucks) loaded and unloaded to and from TOFC and multiple level freight cars when the work is performed at the railroad's expense

(R) Report the number of loaded revenue trailers/containers picked up plus revenue trailers/containers delivered in TOFC/COFC and in highway interchange service, when the work is performed at the railroad's expense (Performed at railroad's expense means that railroad employees perform the service or that the railroad hires a subsidiary or outside contractor to perform the service) Do not include those trailers/containers which are picked up or delivered by a shipper or motor carrier, etc when a tariff provision requires that the shipper or motor carrier, etc , and not the railroad, perform that service. Note The count should reflect the trailers/containers for which expenses are reported in Schedule 417, line 2, column (b)

(S) Report under Manne Terminals, Item 16, the tons loaded onto and unloaded from manne vessels at the expense of the reporting railroad

(T) Report the total number of foreign railroad cars on line at the end of the year (except surplus cars, see below) Foreign railroad cars refers to freight cars owned by other railroads whose interline rental is settled on time (by hour) and actual line-haul mileage charges under the Code of Car Hire Rules

Carners will be governed by local conditions in determining whether a car at an interchange point should be considered "on-line " Unserviceable cars include cars on repair tracks undergoing or awaiting repairs. They include cars on repair tracks repaired and awaiting switching, cars on repair tracks undergoing or awaiting repairs switching, cars awaiting movement to repair tracks held in train yards (excluding cars which are to be repaired in the train yard without loss of time), cars moving empty in trains en route to shop, and cars stored awaiting disposition

Surplus cars are cars which are in serviceable condition for loading on the last day of the year, but have not been placed for loading within 48 hours. This count can be an annual average based on weekly count of cars that have not been placed for loading within 48 hours.
