IRB_00016469

Principal Investigator: Ashok Tuteja

Title: Diarrhea-Predominant Irritable Bowel Syndrome in Persian Gulf Veterans

This Continuing Review Application has been reviewed and approved by a University of Utah IRB convened board. The convened board approved your study on 2/18/2009 . Federal regulations and University of Utah IRB policy require this research protocol to be re-reviewed and re-approved within 1 year from the approval date.

Your study will expire on 2/4/2010 11:59 PM.

Any changes to this study must be submitted to the IRB prior to initiation via an amendment form.
