

1. NAHMS Equine 2015 Needs Assessment

This survey has been developed to allow the National Animal Health Monitoring System (NAHMS) to better set priorities for a 2015 study of the equine industry. We thank you for your participation in this important needs assessment.

1. Enter the number of equids you currently own:

Number of equids:

2. Enter your 5-digit zip code:

Zipcode:

3. Select the category from the following list which best describes your primary involvement in the horse industry.

- Veterinarian
- Horse owner
- Horse care provider, such as farm or stable owner or employee
- Horse trainer or judge
- Other

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The OMB control number for this information collection is 0579-XXXX. The time required to complete this information collection is estimated to average .25 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

2. NAHMS Equine 2015 Needs Assessment

4. Select the primary use from the following list for the horse(s) you own and/or are involved with.

- Racing for which there is parimutuel betting
- Showing or competition other than racing
- Breeding
- Farm or ranch use
- Pleasure use or as a companion
- Other

5. Select from the following list the primary breed of horse you own and/or are involved with.

- Quarter horse
- Thoroughbred or Standardbred
- Colored breed (Paint, Appaloosa, etc.)
- Arabian
- Other breed or nonregistered horse

3. NAHMS Equine 2015 Needs Assessment

6. Rank each of the following general issues as high, medium, or low priority for a national equine health study.

	High	Medium	Low
Determine occurrence of equine health problems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Determine how often various health management practices, such as vaccination and deworming, are implemented	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Assess the impact of management practices on equine health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Assess the impacts of horses on the environment (i.e., manure handling) and the environment on horses (i.e., air quality)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Study humane issues such as transport of horses, racing injuries, and geriatric horse care.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify)

7. Which topic in the previous question is your number one priority for a national equine health study?

- Occurrence of equine health problems
- Use of health management practices
- Impact of management practices
- Environmental issues
- Humane issues
- Other

4. NAHMS Equine 2015 Needs Assessment

8. Rank each of the following specific infectious diseases as high, medium, or low priority for a national equine health study.

	High	Medium	Low
Equine infectious anemia (EIA)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equine viral arteritis (EVA)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equine influenza	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Strangles, Streptococcus equi	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Rhodococcus equi	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Vesicular stomatitis (VS)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equine herpesviruses, rhinopneumonitis	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equine protozoal myelitis (EPM)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Salmonellosis	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equine rotavirus	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cryptosporidia	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Eastern or Western encephalitis, sleeping sickness	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Botulism, shaker foal syndrome	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify)

9. Which of the following diseases is your number one priority for a national equine health study?

- Equine infectious anemia (EIA)
- Equine viral arteritis (EVA)
- Equine influenza
- Strangles (*Streptococcus equi*)
- Rhodococcus equi*
- Vesicular stomatitis (VS)
- Equine herpesviruses, rhinopneumonitis
- Equine protozoal myelitis (EPM)
- Salmonellosis
- Equine rotavirus
- Cryptosporidia
- Eastern or Western encephalitis, sleeping sickness
- Botulism, shaker foal syndrome
- Other

5. NAHMS Equine 2015 Needs Assessment

10. Rank each of the following conditions or problems as high, medium, or low priority for a national equine health study.

	High	Medium	Low
Respiratory problems such as infections or breathing problems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Digestive problems such as colic or diarrhea	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Leg problems such as lameness, injuries, or developmental problems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reproductive problems such as abortion or infertility	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Spinal problems such as wobbles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Eye problems such as blindness or injuries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Skin problems such as hair loss or itching	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify)

11. Which condition in the previous question is your number one priority for a national equine health study?

- Respiratory problems
- Digestive problems
- Leg problems
- Reproductive problems
- Spinal problems
- Eye problems
- Skin problems
- Other

6. NAHMS Equine 2015 Needs Assessment

Thank you for devoting your valuable time to help direct the focus of the NAHMS equine health study.
