This change of worksheet addresses modifications to five forms currently approved under OMB No. 0581-0178. The forms are used by the Idaho-Eastern Oregon Potato Committee (Committee) to locally administer the Federal marketing order. All changes are merely cosmetic and the hours per response for these forms remain unchanged. Below is a justification for the changes to the five forms without a form number.

Five forms without a form number: The Committee has changed their office location and the previous address is no longer valid. Therefore, the new address with new office and fax numbers are provided. Potato producers and handlers are aware of this change and this will not require additional time or burden.
