## FOR HIRE DIVE/SNORKEL OPERATIONS

#### IMPORTANT INFORMATION ABOUT THIS INFORMATION COLLECTION

#### 1. Authorizations to Collect the Information

The National Marine Sanctuaries Act (16 USC 1431, et seq.) authorizes the Flower Gardens Bank National Marine Sanctuary to establish regulations to protect sanctuary resources or resolve user conflicts. This act also authorizes the Sanctuary to do research and collect information necessary for evaluating new regulations.

### 2. How the Information Will Be Used

The Flower Gardens Bank National Marine Sanctuary has developed a public process to evaluate and revise its current management plan and regulations. Through this public process and in consultation with the Sanctuary Advisory Council, the Flower Gardens Bank National Marine Sanctuary is evaluating several alternatives for expanding its boundaries to cover other banks in the Northwest Gulf of Mexico, establishing a research only area to test the impacts of fishing, and revise other regulations on use of dive flags by dive vessels, minimum distance and speeds for other vessels operating near dive vessels, and vessel discharges. All current and revised regulations would apply to boundary expansion areas. The Sanctuary Advisory Council or a Sanctuary Advisory Council Working Group, with members representing different user groups, will help evaluate and make recommendations to the FGBNMS on boundary expansion and research only area alternatives and revisions of other regulations.

The information collected here will be used by the Sanctuary Advisory Council or its working group and management of the Flower Gardens Bank National Marine Sanctuary in evaluating alternative boundaries for boundary expansion and research only areas alternatives. The objective will be to minimize the socioeconomic impacts of boundary expansion and research only area alternatives. The information will also be used by NOAA in completing socioeconomic impact analyses of any regulations resulting from any proposed boundary expansion, research only area or other new regulations.

#### 3. Statement of Burden

Public reporting burden for this collection of information is estimated to average about three hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden, to Dr. Vernon R. (Bob) Leeworthy, Chief Economist, National Ocean Service, office of National marine Sanctuaries, 1305 East West Highway, SSMC 4, 11<sup>th</sup> floor, Silver Spring, MD 20910.

## 4. Your Participation and Protections of Proprietary Information

Your participation is voluntary. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless the collection of information displays a currently valid OMB Control Number.

Any information that identifies you or your business (name, name of business, address and telephone number) will not be given to anyone, including the government agencies sponsoring this information collection. The information that identifies you or your business will be destroyed by the contractor collecting the information at the end of the information collection. All other information will be available for distribution.

## PERSON DAYS AND TRIP COSTS

25. Please provide your best estimate of the number person days by type of activity for last year and the percentage of person days by activity and area. (Interviewer – show map of areas). A person day is one person for a whole day or any part of a day. 10 people on-board for an overnight trip would be 20 person days.

Activity	Total Person- days	NWGOM (%)	Area 1 (%)	Area 2 (%)	Area 3 (%)	Area 4 (%)
SCUBA diving						
Snorkelers						
Fishing						
Wildlife Observation						
All Activities						

26. Please provide your best estimate of last years' number of person days by activity and bank for the three banks in the current Flower Gardens Bank National Marine Sanctuary.

Activity	East Flower Gardens	West Flower Gardens	Stetson
SCUBA diving			
Snorkelers			
Fishing			
Wildlife Observation			
All Activities			

27. Please provide your best estimate of the cost per day for a typical day of operation by activity.

Activity	Fuel/Oil	Ice	Bait	Food/ Supplies	Other	Crew	Captain (if not owner)
SCUBA diving							
Snorkeling							
Fishing							
Wildlife Observation							

28. Please provide the percentage of your person days of operation across each 1-minute by 1-minute grid cell for each activity. This is a forward looking rather than just your past activity patterns. We want to know where you expect you will conduct your activities in the future. This will be used to assess the possible impacts of expanding the boundaries of the Flower Gardens Bank National Marine Sanctuary or assessing a possible research only area. All hook-an-line fishing will be allowed in boundary expansion areas as in the current FGBNMS. All activities will be eliminated from a research only area. (refer to detailed maps with grid overlays and nautical chart reference points).

i.	Word of mouth		

For the next set of questions, please provide your answer on a 1 to 5 scale, where 1 means **Strongly agree**, 2 means **Moderately agree**, 3 means **Neutral**, 4 means **Moderately disagree**, and 5 means **Strongly disagree** 

- 2. The process that NOAA has used to develop rules and regulations for the FGBNMS was open and fair to all groups.
- 1 2 3 4 5 I don't know
- 3. The process has used by NOAA to develop boundaries and regulations for the FGBNMS zones was open and fair to all groups.
- 1 2 3 4 5 I don't know
- 4. It has not mattered whether the average person participated in the workshops and meeting on the FGBNMS because the average person could not influence the final decisions.
- 1 2 3 4 5 I don't know

- 5. NOAA has not addressed the concerns of other federal and state governments in developing rules and regulations for the FGBNMS.
- 1 2 3 4 5 I don't know
- 6. NOAA has not addressed the concerns of individual citizens in developing rules and regulations for the FGBNMS.
- 1 2 3 4 5 I don't know
- 7. Once that the FGBNMS regulations have been in effect, there has been no way that the average person to voice his/her opinion on the usefulness of the regulations.
- 1 2 3 4 5 I don't know
- 8. The procedures that NOAA has established to deal with violations of FGBNMS regulations have been fair and just.
- 1 2 3 4 5 I don't know

#### **NOTES**

## OMB No. 0648-07; 9. Expiration date: .

### ATTITUDES ABOUT MANAGEMENT STRATEGIES AND REGULATION

In this section, we want to know what you think about current and proposed management strategies in the FGBNMS, the effects of those management strategies and regulations, and how you think the FGBNMS management has performed.

In management plan review public scoping and Sanctuary Advisory Council meetings, FGBNMS is thinking about expanding its current boundaries and creating a research only area. For boundary expansion, there are a number of alternatives, but all would extend the current regulations in FGBNMS to the boundary expansion areas. Hook-and-line fishing is currently allowed in the FGBNMS. For the research only area, all activities would be prohibited. See map of areas proposed for potential boundary expansion.

For the next set of questions, please provide your answer on a 1 to 5 scale, where 1 means Strongly agree, 2 means Moderately agree, 3 means Neutral, 4 means Moderately

disagree, and 5 means Strongly disagree							
9. I support the FGBNMS as it is currently established.
