Subject: public comment on federal register this is completely unnecessary spending - shut it down

this disease is color free.it attacks yellow, white, brown and black people. there is no necessity in setting up different web sites and spending tax dollars for certain races based on color. one site fits all when you have breast cancer. this program simply gouges taxpayers to racially discriminate based on color of skin whent the disease does not care what color you are. this program shoudl transcend race. this is simply gouging spending for no good reason. the trauma is the same. the treatment is the same. the way you need to respond is the same. it doesnt change because you are yellow or red skin. this is a stupid excuse to make work and to spend money at cdc. no wonder the usa is going down the tube in health care. they spend money on entirelyunnecessary stupid projects. cut this budget immediately to zero. this is total racial discrimination. this is a ridiculous project. this comment is for thepublic record. jean public
