YSI Post-Use Survey

Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, Mailstop D74, Atlanta, GA 30333; ATTN: PRA 0920-XXXX. Do not return the completed form to this address.

Welcome and thank you for visiting the Young Sisters Initiative: A Guide to a Better You! (YSI program)! The YSI program is targeted to African American young breast cancer survivors to provide you with information and resources to help you during your cancer journey. The YSI program provides you with information on coping with fear of recurrence, fertility, and sexual dysfunction; ways to cope with psychosocial and reproductive health issues, and ways to cope with the side effects of breast cancer treatment. You previously agreed to complete a brief survey after accessing the YSI program. The following survey asks you a series of questions about your experiences with the YSI program.
