

Traditional Foods Shared Data Elements Reporting Form - revised Sept.

Traditional Foods Data Sharing Element Form

Form Approved

OMB No.: 0920-xxxx

Exp. Date: mm/dd/yyyy

Public reporting burden of this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX)

Traditional Foods Shared Data Elements Reporting Form - revised Sept.

Traditional Foods Data Sharing Element Form

The purpose of this form is to collect shared data elements from each 'traditional foods' grantee. Each reporting period is for six months. Data will be aggregated by CDC across all grantees each six months. Grantees can request individual reports for their respective programs. Contact info. - Email: mvf9@cdc.gov - Phone: 505-232-9907 - Yahoo Group Link: [click here](#)

Survey Monkey Guidelines/Instructions

Welcome to Survey Monkey (SM) for the Traditional Foods and Sustainable Ecologies project! These guidelines are to assist you with the SM data entry tool.

- 1) The data source to populate SM is your local evaluation data only. SM is not meant to be an environmental scan of your community, but to reflect the evaluation data you have gathered for your Traditional Foods and Sustainable Ecologies program.
- 2) You are NOT expected to populate every question or domain. Only enter relevant local evaluation data collected for each reporting period.
- 3) Some of your local data may not "fit" SM. Highlights of these data can be reported in your meeting presentations and yearly continuation application.
- 4) Please have your 'Traditional Foods' Shared Data Elements Excel spread sheet available as you navigate SM. The spread sheet provides the whole SM layout.
- 5) There are three domains to report activities: Traditional Foods, Physical Activities, and Social Support. Please determine which main domain best fits the primary purpose of your respective activities. Each domain is for activities not reported in other domains.
- 6) In the chosen domain, check the radio button to report on that domain only. If the main domain activity includes activity types of another domain(s), check the respective button(s). Please include a brief description of these activities under the main domain(s) activity section. To prevent double-counting, these activities will not be counted separately.
- 7) Please aggregate your data numerically over the 6 month reporting period. You can enter SM at different times to enter data. If you choose to report monthly, for example, please add the numerical data each time to create a cumulative sum for each activity. Upon completion, your entries will reflect six months of information. All data will be retained over the reporting period.
 - a. For the total number of participants in each section, please provide the total number of all participants over the six month reporting period.
 - b. Of that total number of participants over six months of activities, please provide how many were participating for the first time.
- 8) All data will be cleared at the same time for every six month reporting period, so it is critical to enter data on time. You will have six weeks following each reporting period to enter all you activities for the respective reporting period.
- 9) When you have completed data entry for the reporting period, please contact us to download your data. Please let us know if you would like your local SM data returned to you in an excel spreadsheet.

1. Name of person to contact for questions regarding this submission:

(First, Last Name)

Traditional Foods Data Sharing Element Form

2. Traditional Food Grantee Name

- Aleutian Pribilof Islands Association, Inc., Alaska
- Catawba Cultural Preservation Project, South Carolina
