Public Burden

Paperwork Reduction Act Notice. The Paperwork Reduction Act of 1995 says we must tell you why we are collecting this information, how we will use it and whether you have to give it to us. The reasons and purpose of this survey are described in the introduction and instructions for this survey and your response is voluntary. Failure to provide full and complete information, however, may reduce the possibility of NSF continuing support for the award or project subject to this monitoring survey. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The OMB control number for this survey is 3145-0199. The estimated average burden associated with this collection of information is .25 hours per respondent. Comments concerning the accuracy of this burden estimate and suggestions for reducing the burden should be sent to Suzanne Plimpton, Reports Clearance Officer for OMB 3145-0199, NSF/DAAS, 4201 Wilson Boulevard, Arlington, VA 22230.

Initial Survey of K–12 Institute Participants

The National Science Foundation (NSF) is collecting annual information about each of its Math and Science Partnership (MSP) projects. The purpose is to assess the overall implementation of the MSP program and to monitor the progress of individual MSP grants.

This form is designed to obtain information from **each K–12 teacher and administrator** who has enrolled in a MSP Institute program during the **[INSERT SCHOOL YEAR]** school year. For the purposes of this collection, this includes any teacher or administrator enrolled in the summer Institute following the **[INSERT SCHOOL YEAR]** school year. The Principal Investigator (PI) of one of the MSP Institutes has identified you as being an appropriate respondent.
