6. Introduction

Hello, Dr. . . . , I am *(Your name)*. **I'm calling for the Centers for Disease Control and Prevention regarding their study of ambulatory care. You should have received a letter from the Director of the National Center for Health Statistics, explaining the study.** *(Pause)* **You've probably also received a letter from the Census Bureau. We are acting as data collection agents for the study.**

IF DOCTOR DOES NOT REMEMBER NCHS LETTER; THE LETTER STATES:

The Centers for Disease Control and Prevention's National Center for Health Statistics (NCHS) is conducting the National Ambulatory Medical Care Survey (NAMCS). This annual study, which has been in the field since 1973, collects information about the large portion of ambulatory care provided by physicians and mid-level providers throughout the United States. Research utilizing the NAMCS helps to inform physicians, health care researchers, and policy makers about the changing characteristics of ambulatory health care in this country. The information that will be requested includes data about the patient visit (e.g., demographics, diagnoses, services, and treatments), physician practice characteristics (e.g., practice type), and the use of electronic medical records.

Many organizations and leaders in the health care community, including those providing the enclosed letter of endorsement, have expressed their support and join me in urging your participation in this meaningful study. You will be asked to complete a one-page questionnaire on a sample of about 30 patient encounters during a randomly assigned one-week reporting period. Additionally, there is a short interview (approximately 30 minutes) with you about the nature of your practice. Participation is voluntary, and you or your staff may refuse to answer any question or may stop participating at any time without penalty or loss of benefits. The following are some key points about the survey:

- Data collection for the NAMCS is authorized by Section 306 of the Public Health Service Act (Title 42, U.S. Code, 242k).
- All information collected will be held in the strictest confidence according to Section 308(d) of the Public Health Service Act (42, U.S. Code, 242m(d)) and the Confidential Information Protection and Statistical Efficiency Act (Title 5 of PL 107-347). This information will be used for statistical purposes only. No patient names, social security numbers, or addresses are collected.
- This study conforms to the Privacy Rule as mandated by HIPAA, because disclosure of patient data is permitted for public health purposes, the NCHS Research Ethics Review Board has approved NAMCS.
- U.S. Census Bureau employees, who administer the study, have taken an oath to abide by Title 13, U.S. Code, Section 9, which requires them to keep all information about your practice and patients confidential.

A representative of the Census Bureau, acting as our agent, will be calling you to schedule an appointment regarding the details of your participation. If you have any questions regarding your participation, please call a NAMCS representative at (800) 392-2862. Additional information on the survey may be obtained by visiting the NAMCS participant Web site at www.cdc.gov/namcs. We greatly appreciate your cooperation.

Section II – INDUCTION INTERVIEW

Before we begin, I would like to give you a little background about this study.

Systematic information about the characteristics and problems of the people who consult providers in their offices is essential for medical researchers, educators, and others who are concerned with medical education, manpower needs, and the changing nature of health care delivery.

In response to the demand for this information, the Centers for Disease Control and Prevention, in close consultation with representatives of the medical profession, developed the National Ambulatory Medical Care Survey.

Your part in the study is very simple, carefully designed, and should not take much of your time. It consists of your participation during a specified 7-day period. During that time, you would supply a minimal amount of information about patients you see.

Now, before we get to the actual procedures, I have some questions to ask you about your practice. The answers you give will be used only for classification and analysis. Of course, ALL information you provide for this study will be held in strict confidence.

<p>14a. Overall, at how many office locations, do you see ambulatory patients? Do not include settings such as EDs, outpatient departments, surgicenters, and Federal clinics.</p>	<p>Number of locations ↘</p> <div style="border: 1px solid black; height: 30px; width: 100%;"></div>

<p>b. Why is that? Record verbatim.</p> <div style="border: 1px solid black; height: 30px; width: 100%; margin-top: 5px;"></div>	
<p>c. Since it's very important that we include any ambulatory patients that you might see in your office during that week, I'll leave forms with you – just in case your plans change. I'll check back with your office just before (Starting date) to make sure, and if necessary I can explain them in detail then.</p> <p style="font-size: small;">Give the doctor the folio and enter the folio number on page 17. Then continue with item 16a on page 8.</p>	

FR, PLEASE READ BEFORE CONTINUING

FR Instruction – Even if the physician is not available during the reporting week, continue with item 16a on page 8.

b. Roughly, how many managed care contracts does this practice have such as HMOs, PPOs, IPAs, and point-of-service plans?

If necessary read– Managed care includes any type of group health plan using financial incentives or specific controls to encourage utilization of specific providers associated with the plan.

FR NOTE – Include Medicare managed care and Medicaid managed care, but not traditional Medicare and Medicaid. Include any private insurance managed care plans. Be sure the response is about contracts and not patients.

Include all the different plans an insurance provider may have and for which the physician has a contract. For example, the physician may have a contract for each of the plans Aetna may offer: a PPO, IPA, and point-of-service plan. This would equal 3 contracts, not 1 contract. It may be necessary to obtain information from the billing office of the practice.

Visit Sampling

To select a sample of patient visits, the physician's office will need to know where to start sampling (**Start With**) and how to select subsequent patient visits (**Take Every**).

To determine Take Every (**TE**) and Start With (**SW**) numbers follow these instructions. Read down the "Estimated visits for week" column to the line that corresponds to the total entry in **ITEM 17e**. Then, read across the "Days physician will see patients that week" line to the column that corresponds to the entry in **ITEM 17a**. Circle the appropriate number. This number is the physician's Take Every number for all office locations. Then transcribe this number below, and onto the front of the folio, and to the Patient Visit Worksheet if it is used.

INSTRUCTIONS

GIVE THE PHYSICIAN A FOLIO AND A COPY OF THE SAMPLE PATIENT RECORD FORM (NAMCS-73), AND EXPLAIN HOW TO COMPLETE THE FORMS.

Cover the following points —

- (1)** Who to list/who not to list on the Patient Visit Worksheet found in the back of the NAMCS-26
 - List every ambulatory patient visit to all in-scope locations during the reporting period.
 - INCLUDE patients the physician doesn't see but who receive care from an assistant, nurse, nurse practitioner, physician assistant, etc.
 - EXCLUDE patients who do not seek care or services (e.g., they come to pay a bill or leave a specimen).
 - EXCLUDE telephone contacts with patients.

- (2)** Show doctor instruction card in folio pocket and go over Patient Record item by item, paying particular attention to —

Item 2, Injury/Poisoning/Adverse Effect – If any part of this visit was related to an injury or poisoning or adverse effect of medical or surgical care or an adverse effect of medicinal drug, then mark the appropriate box. If this visit was not related to any of these, then mark the last option, "None of the above."

Item 3, Reason for Visit – To be recorded in patient's own words. We want the patient's own complaint here, not the physician's diagnosis. If the patient has no complaint, the physician should enter the reason for the visit.

Section II – INDUCTION INTERVIEW – Continued

INSTRUCTIONS – Continued

Items 5a(1), Provider's Primary Diagnosis for this Visit – Can be tentative or provisional or expressed as a problem. Physician should not record "Rule Out" diagnosis (R.O.). Enter any other diagnosis related to the visit (e.g., depression, obesity, asthma, etc.) in items 5a(2) and 5a(3).

Items 5b, Chronic Disease Checklist – Mark all chronic diseases that the patient has, regardless of entry in item 5a. This item supplements the diagnoses reported in item 5a. If none of the conditions listed apply, then mark "None of the above."

Item 6, Vital Signs – When possible, record specific values for the 4 vital signs. For height and weight, enter the value on the line next to the type or measurement system used. If height was not measured at this visit and patient is 21 years of age or over, enter the most recent height recorded.

Item 8, Health Education – Mark all services ordered or provided at this visit.

Item 9, Non-Medication Treatment – Mark and/or list all non-medical treatment including surgical or non-surgical procedures ordered or provided at this visit.

Item 10, List medication/immunization names – Record up to 8 medications that were ordered, supplied, administered or told to continue at the visit. Include Rx and OTC medications, immunizations, allergy shots, anesthetics, chemotherapy, and dietary supplements. Use SPECIFIC BRAND OR GENERIC DRUG NAMES as entered on prescription or medical records. Do NOT enter broad drug classes such as "pain medication." Record if the medication/immunization was new or continued.

Item 13, Time Spent with Provider – Best estimate of time spent in face-to-face contact with the patient and the sampled provider. The answer may be zero (0), if the patient was attended entirely by a registered nurse or technician and did not see the sampled physician/CHC provider.

Item 14, Laboratory Test Results – If applicable, please make sure provider is aware of items on back of PRF and completes information about tests drawn within last 12 months. If primary medical specialty is listed in Appendix E in the NAMCS-26 Instruction Booklet, please complete checkbox on front of folio. Also, physician should complete Item 14.

- (3) Explain to the provider, where appropriate, that the receptionist, nurse, or assistant can list patients on the Patient Visit Worksheet as they enter the office. They may also complete items 1–4 on the Patient Record form.
- (4) Instruct provider to enter number of patients seen and number of PRF's completed on front of folio – at the end of each day.

34a. CLOSING STATEMENT

Thank you for your time and cooperation Dr. . . . I will call you on Monday, _____ to see if (everything is all right/your plans have changed). If you have any questions (Hand doctor your business card) please feel free to call me. My telephone number is also written in the folio.
