Routine Customer Feedback” (OMB Control Number: 0920-0953)**

TITLE OF INFORMATION COLLECTION: NIOSH Manual of Analytical Methods Survey

PURPOSE: The purpose of the survey is to improve the NIOSH Manual of Analytical Methods (NMAM). The NMAM is a collection of analytical methods that are used by analytical laboratories around the world. The last edition of the NMAM was published in 2004. Technology has changed significantly since the last edition. We are soliciting feedback to improve the NMAM to make it easier for our customers to use. This may include putting the NMAM into a different format such as an e-book, providing an application that can be used on a tablet computer, improving the search function to make methods easier to find, and providing new methods that stakeholders need.

DESCRIPTION OF RESPONDENTS:

Our respondents will be users of the NMAM. They include analytical laboratories, chemists, environmental scientists, industrial hygienists, and other researchers.
