

The Office of Head Start (OHS) is seeking information on the use of the **Infant/Toddler Associate Degree Courses** that can be accessed for free by educational institutions from <http://eclkc.ohs.acf.hhs.gov/hslc/tta-system/ehsnrc/Early%20Head%20Start/itech>.

You may remember that OHS funded a grant with the University of Cincinnati and its partners to develop associate degree-level courses that focus on infant and toddler development and care. The courses are packaged into 15 modules which are available in both English and Spanish. They were designed to be easily added into existing courses or kept together as an infant/toddler major within an associate degree program. The courses may be used for distance learning and in classroom settings.

We appreciate you taking the time to complete the following short survey so that we can better understand how you have used these courses. The survey should take 10 – 15 minutes to complete.
