Background

The proposed instrument will collect information from a sample of Senior Companion clients and caregivers. The purpose of the survey is to assess the feasibility of conducting a longitudinal, quasi-experimental evaluation of the impact of independent living and respite services on clients' social ties and perceived social support. The information will be collected by trained interviewers using multi-modal formats including paper, online, or telephone survey. The results of the survey may also be used to inform the feasibility of using a similar instrument to measure client and caregiver outcomes for an evaluation of RSVP.

The instrument uses items from the Health and Retirement Study (HRS), an ongoing study funded by the National Institute on Aging/NIH (NIA U01AG009740) and Social Security Administration.

DEPARTMENT OF ENERGY

U.S. Energy Information Administration

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), U.S. Department of Energy.

ACTION: Notice and request for OMB review and comment.

SUMMARY: EIA has submitted a request to the Office of Management and Budget (OMB) to revise a currently-approved data collection under the provisions of the Paperwork Reduction Act of 1995. EIA proposes the following changes to Form EIA-886, *Annual Survey of Alternative Fueled Vehicles*, data collection: (1) The addition of a new vehicle classification code to allow EIA to capture data on plug-in hybrid electric vehicles (PHEVs), which are new to the alternative fuel industry, and (2) the redesign of the questionnaire for the purposes of improving data quality and reducing reporting burdens on respondents to the data collection.

The Form EIA-886 data are collected from suppliers and users of alternative-fueled vehicles (AFVs). EIA uses data from these groups as a basis for estimating total AFV and alternative transportation fuel (ATF) use in the U.S. These data serve as market analysis tools for federal/state agencies, AFV suppliers, vehicle fleet managers, and other interested organizations and persons. The data are used to satisfy the annual reporting requirements to Congress by providing statistical measures on the extent to which the objectives of the Energy Policy Act of 1992 are being achieved. These data are also needed to satisfy numerous public requests for detailed information on AFVs and ATFs (in particular, the number of AFVs distributed by state, as well as the amount and location of the ATFs being consumed).

DATES: Comments regarding this collection must be received on or before December 27, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4718 or contacted by email at chad_s_whiteman@omb.eop.gov.
