

ICR 201206-1902-003 on FERC-920 (NOPR in Docket RM12-3 on the ‘EQR System Refresh’)

Burden included in FERC-516 for current EQR filers, data, and system, pre-rules. Until OMB’s PRA approval of the final rules and FERC-920, the existing burden for the current filers is included in FERC-516. After completion of those steps (possibly including a future final rule in RM12-3 if/when FERC issues one), we anticipate removing burden from the FERC-516 (to eliminate double counting). The EQR would become a stand-alone requirement called FERC-920.

Electric Quarterly Report as contained in FERC-516 for current EQR filers, data, and system, and prior to rules in Dockets RM12-3-000 (‘EQR System Refresh’) ¹ , RM10-12 (‘Data Transparency’) ² , and RM01-8-012 (‘Simultaneous Exchange’) ³					
	No. of Respondents (Filers)	No. of Responses per Respondent per Year	Estimated Recurring Burden per Respondent per Quarterly Response (Hours)	Estimated Annual Recurring Burden per Respondent (Hours)	Total Annual Estimated Burden by Type of Entity (Hours)
Companies within non-California RTO, and large cos. within Cal. RTO	405	4	32.000	128.000	51,840.000
Medium/small companies within Cal. RTO	20	4	80.000	320.000	6,400.000
Companies not within RTO	663	4	3.000	12.000	7,956.000
Companies with no transactions	695	4	0.083	0.332	230.740
TOTAL	1,783				66,426.740

¹ The subject proposed rule in RM12-3 is pending OMB review under FERC-920 (ICR 201206-1902-003).

² The proposed rule in RM10-12 (issued 4/21/2011) was submitted to OMB under FERC-920 (ICR 201104-1902-003, OMB decision issued 8/8/2011). The RM10-12 final rule was issued on 9/21/2012 and published in the Federal Register on 10/11/2012. The final rule in RM10-12 will be submitted to OMB for PRA review after conclusion of the pending OMB review of the subject NOPR in RM12-3, under FERC-920 (ICR 201206-1902-003).

³ The proposed rule in RM01-8-012 (issued 3/15/2012) was submitted to OMB for review under FERC-516 (ICR 201203-1902-004, OMB decision issued 5/18/2012).
