Total Respondent Cost (labor + non)	-\$96,760

### **Reason for Changes in Burden and Cost**

- Adjusted the labor hours and labor cost per facility to recognize the completion of the one-time activities that occurred in the first year of data collection.
- Adjusted the number of respondents to reflect current estimates of the number of respondents in the affected subparts.
- Updated the labor rates used to calculate labor costs to reflect 2011 dollars (see Appendix F).
