SUPPORTING STATEMENT

A. Justification:

1. On October 2, 2012, the Commission released the Notice of Proposed Rulemaking, *Expanding the Economic and Innovative Opportunities of Spectrum Through Incentive Auctions*, Docket No. 12-268, FCC 12-118 (“IA NPRM”). The IA NPRM contains rules and policies for the incentive auction mandated by Congress in the Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, 125 Stat. 156 (2012). Following the completion of the incentive auction process, eligible stations that are repacked¹ to new channel assignments may request a waiver of the service rules in lieu of seeking reimbursement of their repacking expenses by submitting an informal filing. In addition, stations that need additional time to relocate to their new channel assignments may be required to submit a request for extension of time (FCC Form 337), tolling notification, or request for Special Temporary Authority (STA). **These new requirements are provided in 47 C.F.R. § 73.3700.**

There will be no changes to FCC Form 337 as a result of the proposed requirements adopted in FCC 12-118.

FCC Form 337.

The FCC Form 337, Application for Extension of Time to Construct a Digital Television Broadcast Station, is used by all low power television, TV translator and Class A television digital permittees to apply for extension of time within which to construct their digital facility. This form must be filed at least sixty, but not more than ninety, days prior to the applicable construction deadline. Applicants who file this form based on financial hardships must retain documentation fully detailing and supporting their financial representations as well as any steps taken to overcome the circumstances preventing construction.

Special Temporary Authority (STA) Requests (47 CFR § 73.1635). Broadcast stations (AM, FM, TV, Class A TV or LPTV licensees or permittees) may file a request for STA approval to permit a station to operate a broadcast facility for a limited period at a specified variance from the terms of the station’s authorization or requirements of the FCC rules. Stations may file a request for STA approval for a variety of reasons. The request must describe the operating modes and facilities to be used. Types of STA requests include Engineering and Legal STAs.

¹ Repacking occurs when stations that are assigned a new operating channel following completion of the incentive auction process.

Notifications:

- **Change in Official Mailing Address for Broadcast Station (47 CFR § 1.5).** Broadcast stations may file this form to report any changes in the station's mailing address, but cannot use this form to correct or change the name of the licensee.
- **Consummation Notice.** Broadcast stations may file this form to notify the Commission when an assignment of license or transfer of control is consummated. The form also may be used by the station to request an extension of time to consummate.
- **Silent Notifications (47 CFR § 73.1740).** Broadcast stations (AM, FM, TV or Class A TV licensees) may file this form to notify the Commission of the station's suspension of broadcast operations. Broadcast stations may also use this form to request a silent STA or extension thereof. Types of Silent Notifications include Notification of Suspension and Resumption of Operations. Pursuant to Section 73.1740, broadcast station licensees must notify the Commission when events beyond their control make it impossible to continue operation or to adhere to the required operating schedules set forth in this rule. In addition, they must notify the Commission when they resume normal operations. (No further authority is needed for limited operation or discontinued operation for a period not exceeding 30 days.) Should events beyond the licensees control make it impossible for compliance within the required 30-day time period, broadcast station licensees must file an informal letter request for silent operations ("Silent STA," discussed below in informal filings section).
- **Section 73.1615 notifications (47 CFR § 73.1615).** Broadcast stations (AM, FM, TV or Class A TV licensees) must file a notification under 47 CFR 73.1615(c) when such a station is in the process of modifying existing facilities as authorized by a construction permit and determines it is necessary to either discontinue operation or to operate with temporary facilities to continue program service for a period not more than 30 days. Licensees or permittees of directional or nondirectional FM, TV or Class A TV or nondirectional AM must file a notification and comply with 47 CFR 73.1615(a). Licensees or permittees of a directional AM station whose modification does not involve a change in operating frequency must file a notification and comply with 47 CFR 73.1615(b). Licensees or permittees of a directional AM station whose modification does involve a change in frequency and determines it is necessary to discontinue operation for a period not more than 30 days must file a notification and comply with 47 CFR 73.1615(d)(2).

Title: Special Temporary Authorization (STA) Requests; Notifications; and Informal Filings; Sections 1.5, 73.1615, 73.1635, 73.1740 and 73.3598; CDBS Informal Forms; Section 74.788; Low Power Television, TV Translator and Class A Television Digital Transition Notifications; FCC Form 337; Section 73.3700, Service Rule Waiver in Lieu of Reimbursement

- **Tolling Notifications (47 CFR § Section 73.3598).** Broadcast stations (TV/DTV,² Class A TV, low power TV, TV translator, TV booster, AM, FM, International Broadcast, FM translator, FM booster, and LPFM permittees) may file this form to notify the Commission of an event that would toll their deadline to construct their TV facility. Section 73.3598 requires a permittee to notify the Commission as promptly as possible and, in any event, within 30 days of a tolling event, i.e., when construction is prevented due to (1) an act of God (e.g., floods, tornados, hurricanes, earthquakes, etc.); (2) the grant of the permit is the subject of administrative or judicial review (i.e., petitions for reconsideration and applications for review of the grant of a construction permit pending before the Commission and any judicial appeal); (3) construction is delayed by a cause of action pending in court related to requirements for construction or operation of the station (i.e., zoning or environmental requirements); or (4) international coordination where resolution of the international coordination issue is truly beyond the control of the station (e.g., where the failure to obtain coordination will not permit the station to construct facilities sufficient to replicate its analog coverage area). Stations must report progress at six-month intervals, detailing how the tolling event continues to cause delays in construction, any construction progress, and the steps it has taken and proposes to take to resolve any remaining impediments to construction. (Any construction permit for which construction has not been completed and which an application for license has not been filed will be automatically forfeited upon expiration of the construction permit.).
- **Low Power Television, TV Translator and Class A Television Digital Transition Notification.** Low power television, TV translator, and Class A television stations that have not already transitioned to digital must submit a notification to the Commission (through an informal filing) of their decision to either flash cut on their existing analog channel or to continue operating their digital companion channel and return their analog license.

Informal Filings:

- **Section 73.1615 informal letter requests (47 CFR § 73.1615).** Broadcast stations (AM, FM, TV or Class A TV licensees or permittees) must file an informal letter request under 47 CFR 73.1615(c)(1) when such a station is in the process of modifying existing facilities pursuant to 47 CFR 73.1615(a) or (b) and determines it is necessary to either discontinue operation or to operate with temporary facilities to continue program service for a period of more than 30 days. Licensees or permittees that filed notifications under 47 CFR 73.1615(d)(2) but which determine that it is necessary to discontinue operation for a period more than 30 days must file an informal letter request and comply with 47 CFR 73.1615(d)(1) and (2).

²As of June 12, 2009, a TV/DTV station permittee may obtain an extension of time to construct its DTV facility only pursuant to the tolling provision in Section 73.3598.

Title: Special Temporary Authorization (STA) Requests; Notifications; and Informal Filings; Sections 1.5, 73.1615, 73.1635, 73.1740 and 73.3598; CDBS Informal Forms; Section 74.788; Low Power Television, TV Translator and Class A Television Digital Transition Notifications; FCC Form 337; Section 73.3700, Service Rule Waiver in Lieu of Reimbursement

- **Silent STAs and Extensions (47 CFR § 73.1740)**. Broadcast stations (AM, FM, TV or Class A TV licensees) that suspended broadcast operations (and filed a silent notification) pursuant to Section 73.1740 and which finds it necessary to continue its suspension of operations for more than 30 days must file an informal letter request (“Silent STA”) with the Commission under 47 CFR § 73.1740(a) (4) for additional time. If necessary, the station may file a request for an extension of its Silent STA.
- **Service Rule Waiver in Lieu of Reimbursement (47 CFR § 73.3700)**. Following the completion of the incentive auction process, eligible stations that are repacked to new channel assignments may request a waiver of the service rules in lieu of seeking reimbursement of their repacking expenses by submitting an informal filing.

Copies of all STA requests, notifications, informal filings and tolling notifications must also be retained in the station’s local public inspection file. This recordkeeping requirement is contained in OMB Control No. 3060-0214. Sections 73.3526(e) and 73.3527(e) require broadcast station licensees and permittees to retain in the station’s local public inspection file a copy of any application tendered for filing with the FCC, together with all related material.

This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Statutory authority for this collection of information is contained in Sections 1, 4(i) and (j), 7, 154, 301, 302, 303, 307, 308, 309, 312, 316, 318, 319, 324, 325, 336, and 337 of the Communications Act of 1934, as amended.

2. FCC staff use the data to determine whether to grant and/or accept the requested special temporary authority (“STA”) (or other request for FCC action), the required notification, informal filing, application filings or other non-form submission.³ FCC staff will review for compliance with legal and technical regulations, including but not limited to ensuring that impermissible interference will not be caused to other stations.

3. All STA requests, applications, notifications, informal filings and other “non-form” submissions *may* be filed electronically via the FCC’s Consolidated Database System (“CDBS”). These filings may also be filed by letter, but only if expressly authorized by rule or Commission approval. (We estimate than less than 15% of these filings will be made by paper).

4. No other agency imposes a similar information collection on the respondents. There is no similar data available.

³ Generally, “non-form” filings are notifications or requests filed with the Commission that are submitted by informal letter as opposed to a specific Commission form.

a) STA Requests. An attorney would prepare and submit the request for a Legal STA, estimated above to be 180 filings, and a consulting engineer will prepare and submit the request for an Engineering STA, estimated above to be 1,107 filings (including Band Transition filings). We estimate that the average salary for the attorney is \$300/hour and for a consulting engineer is \$250/hour. In addition, a licensee must submit a fee for each request by a commercial broadcast station for special temporary authority at \$170/request. We estimate that 85% of all requests filed (1,200) will be for commercial stations (1,200 x 85% = 1,020 requests).

1,107 Engineering STA requests x 4 hours x \$250/hour =	\$1,107,000
1,020 Feeable STA requests x \$170 Fee/ request =	<u>\$173,400</u>
Annual Cost Burden =	\$1,496,400

Title: Special Temporary Authorization (STA) Requests; Notifications; and Informal Filings; Sections 1.5, 73.1615, 73.1635, 73.1740 and 73.3598; CDBS Informal Forms; Section 74.788; Low Power Television, TV Translator and Class A Television Digital Transition Notifications; FCC Form 337; Section 73.3700, Service Rule Waiver in Lieu of Reimbursement

\$300/hour and for a consulting engineer is \$250/hour. Because these filings may be reviewed and/or filed by either or both an outside attorney or engineer consultant, we estimate the average salary to be \$275/hour. There are no filing fees attached to these notification filings with the Commission.

360 Consummation Notices x 1 hour x \$275/hour =	\$99,000
100 Silent Notifications x 1 hour x \$275/hour =	\$27,500
100 Rule 73.1615 notifications x 1 hour x \$275/hour =	\$27,500
267 Tolling Notifications and Waivers x 1 hour x \$275/hour =	\$73,425
244 Digital Transition Notifications x 1 hours x \$275/hour =	<u>\$67,100</u>
Annual Cost Burden =	\$240,525

c) Informal Filings. A consulting engineer and/or an attorney would prepare and submit the informal letter depending on the circumstances. We estimate that the average salary for a consulting engineer is \$250/hour and for the attorney is \$300/hour. Because these filings may be reviewed and/or filed by either or both an outside attorney or engineer consultant, we estimate the average salary to be \$275/hour. In addition, a licensee must submit a fee for each request by a commercial broadcast station for special temporary authority at \$170/request. We estimate that 85% of all requests filed will the Commission will be for commercial stations (150 x 85% = 128 requests rounded up).

120 informal letter requests x 4 hours x \$275/hour =	\$132,000
270 Silent STA requests x 1 hour x \$275/hour =	\$ 74,250
128 informal letter requests x \$170 Fee / request =	<u>\$ 21,760</u>
202 Service Rule Waivers x 1 hour x \$275/hour =	<u>\$ 55,550</u>
Annual Cost Burden =	\$283,560

d) FCC Form 337 Applications. The Commission assumes that respondents would consult with an attorney before completing the FCC Form 337 and the attorney would review the completed form before it is transmitted to the Commission. It will take the attorney an hour per extension request to complete the review of each form.

1,207 FCC Form 337 Applications x 1 hour/application x \$300/hour = **\$362,100**

Total Annual Cost Burden = \$1,496,400 + \$240,525 + \$283,560 + \$362,100 = **\$2,382,585**
