

## NSTS Webpage

Users can access the online NSTS by either going directly to <https://nsts.nrc-gateway.gov/nsts/welcome.do> or by going to the NSTS webpage and clicking on "Login". Red circles show the path to get to the online NSTS.

### Main Page:

The screenshot shows the NSTS webpage in Microsoft Internet Explorer. The browser title is "NRC: National Source Tracking System - Microsoft Internet Explorer provided by USNRC". The address bar shows "http://www.nrc.gov/security/byproduct/nsts.html". The page features the U.S. NRC logo and navigation menu. The main content area is titled "National Source Tracking System" and includes a description of the system and a list of links.

**National Source Tracking System**

The NSTS is a major security initiative of the NRC. This highly secure, accessible and easy-to-use computer system tracks high-risk radioactive sources from the time they are manufactured or imported through the time of their disposal or export, or until they decay enough to no longer be of concern. This website has been developed to provide our stakeholders with the current status of program activities, tools and resources to aid in using the system, and mechanisms to provide direct feedback to us.

Users will have already had to go through the credentialing process and obtained a smartcard and smartcard reader. The smartcard must be in the smartcard reader prior to logging in. The system will then prompt the user to enter their password.

Following login, users will be taken to the online NSTS main menu page.

The screenshot displays the NSTS main menu page. At the top, a blue box contains the text: "To receive a shipment of sources, click the **Receive Sources (Domestic)** option beneath the **Transfer Management** section." To the right of this box is a [Help](#) link. Below the box, a message states: "You are an NSTS licensee user with one or more licenses. Please select a license and click Continue." A red circle highlights the "Continue" button. The "License Number" field is set to "914-220-342". The page is divided into two main sections: "Source Management" and "Transfer Management".

**Source Management**

- [View Own Inventory](#)
- [Update Source Information](#)

**Transfer Management**

- [Transfer Sources \(Domestic\)](#)
- [Receive Sources \(Domestic\)](#)
- [Export Sources](#)
- [Receive Imports](#)
- [Update/Cancel Source Transfer](#)
- [Update/Cancel Source Export](#)

**Under the section labeled “Transfer Management”, the links take the licensee directly to the transaction type they wish to report.**

**Example:** In order to report a Receipt, the licensee will click on the “Receive Sources (Domestic)” link and be taken to additional screens to enter the necessary information to report the transaction.
