Resources for Online Reporting

The NRC has created a website with resources for online reporting of different source transactions. To assist with online reporting, there are Computer Based Training (CBT) modules for each system function in NSTS.

The online resources are available at:

http://www.nrc.gov/security/byproduct/ismp/nsts/resource-online-reporting.html

For example, a licensee needing to report a source transfer might view the CBT module for a source transfer is located at:
