

**SUPPORTING STATEMENT
for the Paperwork Reduction Act
Information Collection Submission
“Form N-3”**

A. JUSTIFICATION

1. Information Collection Necessity

Form N-3 (17 CFR 239.17a and 274.11b) is the form used by separate accounts offering variable annuity contracts which are organized as management investment companies to register under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*) (“Investment Company Act”) and/or to register their securities under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*) (“Securities Act”).

Form N-3 is also the form used to file a registration statement under the Securities Act (and any amendments thereto) for variable annuity contracts funded by separate accounts which would be required to be registered under the Investment Company Act as management investment companies except for the exclusion provided by Section 3(c)(11) of the Investment Company Act (15 U.S.C. 80a-3(c)(11)). Section 5 of the Securities Act (15 U.S.C. 77e) requires the filing of a registration statement prior to the offer of securities to the public and that the statement be effective before any securities are sold, and Section 8 of the Investment Company Act (15 U.S.C. 80a-8) requires a separate account to register as an investment company.

Form N-3 also permits separate accounts offering variable annuity contracts which are organized as investment companies to provide investors with a prospectus and a statement of additional information (“SAI”) covering essential information about the separate account when it makes an initial or additional offering of its securities. Section 5(b) of the Securities Act requires that investors be provided with a prospectus containing the information required in a registration statement prior to the sale or at the time of confirmation or delivery of the securities.

2. Information Collection Purpose

The purpose of Form N-3 is to meet the filing and disclosure requirements of the Securities Act and the Investment Company Act and to enable filers to provide investors with information necessary to evaluate an investment in the security. This information collection differs significantly from many other federal information collections, which are primarily for the use and benefit of the collecting agency. The information required to be filed with the Commission permits verification of compliance with securities law requirements and assures the public availability and dissemination of the information.

3. Consideration Given to Information Technology

The Commission's electronic filing system (Electronic Data Gathering, Analysis and Retrieval or "EDGAR") is designed to automate the filing, processing, and dissemination of full disclosure filings. The system permits publicly held companies to transmit filings to the Commission electronically. This automation has increased the speed, accuracy, and availability of information, generating benefits to investors and financial markets. Form N-3 is required to be filed with the Commission electronically on EDGAR. (17 CFR 232.101(a)(1)(i) and (iv)). The public may access filings on EDGAR through the Commission's Internet Web site (<http://www.sec.gov>) or at EDGAR terminals located at the Commission's public reference rooms. Prospectuses and SAIs may be sent to investors by electronic means so long as certain requirements are met.¹ The Commission has no information concerning the percentage of such documents sent electronically, but believes it is a small percentage.

4. Duplication

¹ See Use of Electronic Media for Delivery Purposes, Securities Act Release No. 7233, Exchange Act Release No. 36345, Investment Company Act Release No. 21399 (Oct. 6, 1995) (60 FR 53458 (Oct. 13, 1995)).

The Commission periodically evaluates rule-based reporting and recordkeeping requirements for duplication, and reevaluates them whenever it proposes a rule or a change in a rule. The requirements of Form N-3 are not generally duplicated elsewhere.

5. Effect on Small Entities

The current disclosure requirements for Form N-3 do not distinguish between small entities and larger entities. The burden on smaller entities may be greater than for larger entities. This burden includes the cost of producing, printing, and filing, and disseminating prospectuses and SAIs. The Commission believes, however, that imposing different requirements on smaller investment companies would not be consistent with investor protection and the purposes of the registration statements. The Commission reviews all rules periodically, as required by the Regulatory Flexibility Act, to identify methods to minimize recordkeeping or reporting requirements affecting small businesses.

6. Consequences of Less Frequent Collection

The purpose of Form N-3 is to meet the filing and disclosure requirements of the Securities Act and the Investment Company Act and to enable filers to provide investors with information necessary to evaluate an investment in the security. Less frequent filing would be inconsistent with the filing and disclosure requirements of the Securities Act and the Investment Company Act. In addition, if the form were to be filed less frequently, investors may not be provided with the information necessary to evaluate an investment in the security.

7. Inconsistencies with Guidelines in 5 CFR 1320.5(d)(2)

Not Applicable.

8. Consultation Outside the Agency

The Commission and the staff of the Division of Investment Management participate in an ongoing dialogue with representatives of the investment company industry and through public conferences, meetings, and informal exchanges. These various forums provide the Commission and the staff with a means of ascertaining and acting upon paperwork burdens confronting the industry. The Commission requested public comment on the collection of information requirements in Form N-3 before it submitted this request for extension and approval to the Office of Management and Budget. The Commission received no comments in response to its request.

9. Payment or Gift

The respondents receive no payments or gifts.

10. Confidentiality

Not Applicable.

11. Sensitive Questions

Not Applicable.

12. Estimate of Time Burden

The estimate of the annual number of registration statements filed on Form N-3 is based on the average annual number of filings received by the Commission over the past three years. The hour burden estimates for preparing and filing Form N-3 are based on the Commission's experience with the contents of the form. The number of burden hours may vary depending on, among other things, the complexity of the filing and whether preparation of the form is performed by internal staff or outside counsel. The estimated average burden hours are made solely for purposes of the Paperwork Reduction Act and are not derived from a quantitative, comprehensive, or even representative survey or study of the burdens associated with

Commission rules and forms.

Form N-3 generally imposes two types of reporting burdens on investment companies: (1) the burden of preparing and filing the initial registration statement; and (2) the burden of preparing and filing post-effective amendments to a previously effective registration statement. Separate accounts organized as management investment companies and offering variable annuities register as investment companies under the Investment Company Act and register their securities under the Securities Act on Form N-3. Based on a review of Form N-3 filings made with the Commission, Commission staff estimates that the annual burden hours imposed by Form N-3 are as follows:²

Calculation of Hour Burden of Initial Form N-3 Filings

• Number of initial Form N-3 filings annually	0
• Average number of portfolios per filing	0
• Number of portfolios referenced in initial Form N-3 filings annually	0
• Current hour burden per portfolio for initial Form N-3 filing	0
• Total annual hour burden for initial Form N-3 filings	0

Calculation of Hour Burden of Post-Effective Amendments

• Number of post-effective amendments filed annually	7
• Average number of portfolios per filing	2
• Number of portfolios in post-effective amendments to Form N-3 filings annually	14
• Current hour burden per portfolio for preparing post-effective amendments	155.2
• Total annual hour burden to prepare post-effective amendments (14 x 155.2)	2172.8

² Commission staff reviewed initial filings and post-effective amendments for Form N-3 filed with the Commission during January 1, 2009 to December 31, 2011. There were no initial filings of Form N-3 during that time period.

Total Annual Hour Burden

- Annual hours for post effective amendments +
annual hours for initial Form N-3 filings
(0 + 2172.8) 2172.8

Based on an estimated hourly wage rate of \$320, Commission staff estimates the annual internal time cost equivalent of the hour burden of Form N-3 is approximately \$695,296.³

13. Total Annual Cost Burden

Cost burden is the cost of goods and services purchased to prepare and update Form N-3, such as for the services of independent auditors and outside counsel. The cost burden does not include the hour burden discussed in Item 12. Estimates are based on Commission staff's discussions with fund representatives and the Commission's experience with the filing of registration forms.

As discussed above, Commission staff estimates that, on an annual basis, 0 portfolios will be referenced in initial filings on Form N-3 and 14 portfolios will be referenced in post-effective amendments of Form N-3 filings. Commission staff further estimates the cost burden for preparing a post-effective amendment to a previously effective registration statement is \$9950 per portfolio. Thus, the total cost burden allocated to Form N-3 would be as follows:

Cost Burden of Preparing and Filing Initial Form N-3

- Cost burden per portfolio for initial Form N-3 filings \$0

³ The internal time cost equivalent is calculated by multiplying the total annual hour burden (2172.8 hours) by the estimated hourly wage rate of \$320. The estimated wage figure is based on published rates for Compliance Attorneys (\$322) and Senior Programmers (\$318). The \$322/hour figure for a Compliance Attorney and \$318/hour figure for a Senior Programmer are from SIFMA's Management & Professional Earnings in the Securities Industry 2011, modified by Commission staff to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead. The estimated wage rate was further based on the estimate that Compliance Attorneys and Senior Programmers would divide time equally, resulting in a weighted wage rate of \$320 (((\$322 x .50) + (\$318 x .50)).

- Number of portfolios referenced in initial Form N-3 filings annually 0
- Cost burden of initial Form N-3 filings \$0

Cost Burden of Preparing and Filing Post-Effective Amendments

- Cost burden per portfolio of post-effective amendments Form N-3 filings \$9950
- Number of portfolios referenced in post-effective amendments to Form N-3 filings annually 14
- Cost burden of post-effective amendments to Form N-3 filings (14 x 9950) \$139,300

Total Cost Burden for Form N-3

- Initial Form N-3 filings + post-effective amendments (\$0 + \$139,300) \$139,300

14. Federal Government Cost

The annual cost of reviewing and processing registration statements, post-effective amendments, proxy statements, shareholder reports, and other filings of investment companies amounted to approximately \$20.5 million in fiscal year 2011, based on the Commission's computation of the value of staff time devoted to this activity and related overhead. A portion of those costs relate to processing and reviewing Form N-3 filings submitted to the Commission.

15. Changes in Burden

Annual Hour Burden. Currently, the approved annual hour burden for preparing and filing registration statements on Form N-3 is 13,024 hours based on the previous estimate of 17 responses per year. The new estimate of the total annual hour burden is 2172.8 hours based on the new estimate of 14 responses per year. The decrease in the total annual hour burden is 10,851.2 hours. This decrease is due to the decrease in our estimates of the annual number of responses for both initial and post-effective amendments.

Total Cost Burden. The current approved total cost burden for preparing and filing registration statements on Form N-3 is \$601,400, based on the previous estimate of 17 responses per year. Based on the new estimate of 14 responses per year, the new estimate of the total cost burden is \$139,300 in external costs per year, resulting in a decrease of \$462,100 per year. This decrease is due to the decrease in our estimates of the annual number of responses for both initial and post-effective amendments.

16. Information Collection Planned for Statistical Purposes

Not Applicable.

17. Approval to Omit OMB Expiration Date

We request authorization to omit the expiration date on the electronic version of the form for design and IT project scheduling reasons. The OMB control number will be displayed.

18. Exceptions to Certification Statement

Not Applicable.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

The collection of information does not employ statistical methods.
