U.S. Supplier (USL) Ag Export Services: Main

The U.S Supplier List (USL) provides foreign buyers with contact information about U.S. exporters of food, farm, seafood and forest products. This service is widely promoted by our 80 overseas offices to ensure that international buyers will have access to your information through a network of FAS Websites targeted to overseas markets. There are more than 20,000 international buyers and importers which FAS works with to locate U.S. Suppliers and purchase products.

We are committed to making this service as beneficial as possible for both U.S. exporters and our overseas customers. It is therefore important to the integrity of the service that listed companies are responsive to legitimate inquiries for their listed products from their listed regions. Companies which are unwilling or unable to respond to such inquiries should not register.
