

**Table 2. Summer Electronic Benefits Transfer for Children – Summer Questionnaire  
Changes and Reasons for Changes**

Section Heading		Changes and Reasons for Changes
Original Instrument	Proposed Instrument	
A. Introduction	A. Introduction	<p>Moved question A1 to first question to provide rationale for call before other questions</p> <p>Added question A2a and expanded A4.3 to confirm eligibility and enhance attractiveness of survey for respondent; A4.4 includes the original question A5</p> <p>Deleted original questions A6.1-A6.3 as it is no longer necessary to locate a respondent living outside the household</p> <p>Deleted question A0.1 as in now included in reworded introduction at A8</p> <p>Reworded questions to clarify introduction for respondent</p>
B. Household Characteristics	B. Household Characteristics	<p>Added question B1a to confirm household that did not complete baseline is ineligible for survey</p> <p>Added question B4c to verify birthdate of school-age child who is 20 or older</p> <p>Added questions B5-B5c to expand series of follow-up questions for household roster</p> <p>Added question B6.1a to confirm that household completing baseline has no children in household</p> <p>Deleted original questions B2.1 and B7 to reduce respondent burden and added question B7.2 to determine presence of children in household in summer</p> <p>Reworded questions to clarify meaning of questions for respondent</p>

C. Child Demographics	C. Child Demographics	<p>Reworded questions to clarify meaning of questions for respondent</p> <p>Deleted original questions C2-C4 to reduce respondent burden; not needed since respondent demographics are used for household characteristics</p>
D. Dietary Behaviors – Child	E. Diet Behaviors- Child	<p>Moved section to accommodate moving original Food Security Section F to an earlier position in the questionnaire</p> <p>Moved questions within section to reorder questions to start with cereal, a more cognitively challenging question, continuing with milk, and ending with other beverages</p> <p>Reworded questions to clarify meaning of questions for respondent</p> <p>Added questions E6, E12,E19, E20, E22, and E23 to complete dietary factors needed for analysis of food frequency data (food consumption is a child outcome)</p> <p>Deleted original questions D14-D16 based on analysis of POC data and not needed for impact analysis for treatment group.</p> <p>Deleted question D19 as responses were not useful in POC analysis.</p>
E. Program Participation – Child	F. Program Participation – Child	<p>Moved section to accommodate move of section F to an earlier position in the questionnaire</p> <p>Added question F1.1 to determine if respondent is accurately reporting meal location</p> <p>Added question F3.1 to collect data on access to free supper meals for impact analysis</p> <p>Added questions F4.2-F4.3c because impact analysis requires additional data on alternate sources of free or paid summer meals</p>
F. Food Security – Household	D. Food Security – Household	<p>Moved section to be comparable with placement in Spring Baseline Questionnaire</p> <p>Added questions D4b, D8b, and D13b to probe for number of days for respondents who answer ‘don’t know’ to the previous question; improves quality of data and classification of food security (main study outcome)</p>

G. Shopping and Eating Behavior – Household	H. Shopping and Eating Behavior – Household	<p>Moved section to follow sequence of Shopping and Eating Behavior and Program Participation-Household sections in Spring Baseline Questionnaire</p> <p>Added questions H4-H5a to determine whether “out-of-pocket expenditures” included regular WIC, regular SNAP or SEBTC benefits; improves data quality</p>
H Program Participation - Household	G. Program Participation - Household	<p>Moved section to be comparable to Spring Baseline Questionnaire</p> <p>Added question G3.1 to collect data on amount of regular SNAP benefits for impact analysis</p> <p>Added question G6.1 to disaggregate receipt of benefits from use of benefits Reworded questions to clarify meaning of questions for respondent</p> <p>Deleted original questions H3, H7-H8.1, H10, and H11 based on analysis of POC data; data can be obtained from other sources; reduces respondent burden</p>
I. Caregiver Demographics	I. Caregiver Demographics	<p>Added question I1 to collect respondent’s gender; improves data quality</p> <p>Added question I6a to verify date of birth of respondent who may be under 18 (i.e., if information conflicts with earlier response to question A4.3)</p> <p>Reworded questions to clarify meaning of questions for respondent</p>
J. Closing and Address Verification	J. Closing and Address Verification	<p>Reworded questions to clarify meaning of questions for respondent</p> <p>Deleted original question J2 to reduce respondent burden; information is covered in consent language</p>
