CERTIFICATION OF ACCURACY OF INFORMATION PROVIDED

I am aware that this program is supported by funding from the United States Government and, therefore, is subject to Federal law regarding false statements and fraud, particularly the criminal provisions of 18 U.S. Code Section 1001. I certify, under penalty of law, that the submitted student application contains no false or fraudulent representations, statements, or entries. An individual receiving a scholarship under this program shall be required to repay the full amount of the scholarship to the National Oceanic and Atmospheric Administration if it is determined that the individual, in obtaining or using the scholarship, engaged in fraudulent conduct or failed to comply with any term or condition of the scholarship.

The information requested on the application materials will be used in connection with the selection of qualified applicants and may be disclosed to qualified reviewers and staff assistants as part of the review process; to the institution the applicant is attending or is planning to attend or is employed by for the purpose of facilitating review or award decisions, or administering the awards; to government contractors, experts, volunteers and researchers and educators as necessary to complete assigned work; to other government agencies needing data regarding applicants or as part of the review process, or in order to coordinate programs; and to another Federal agency, court or party in a court or Federal administrative proceeding if the government is a party. Information from this system may be merged

with other computer files to carry out statistical studies, the results of which do not identify individuals. Disclosure may be made of awardees' names, home institutions, and fields of study for public information purposes. Submission of the information is voluntary; however, failure to provide full and complete information may reduce the possibility of your receiving an award.

Under certain circumstances (such as an internship at a Government-funded facility), the U.S. Government conducts background investigations to establish that individuals are eligible for a required security clearance. The background investigations for national security positions are conducted to develop information to show whether you are reliable, trustworthy, of good conduct and character, and loyal to the United States. In addition to filling out a form (such as the Standard Form 86 which may be viewed at: http://www.opm.gov/forms/html/sf.asp), inquiries also may be made about a person's adherence to security requirements, honesty and integrity, vulnerability to exploitation or coercion, falsification, misrepresentation, and any other behavior, activities, or associations that tend to show the person is not reliable, trustworthy, or loyal.

NOTE: Application will be copied and used solely for the purpose of selecting scholarship recipients and administering the Undergraduate Scholarship Program. Disclosure of the information is subject to Public Law 93-579 (Privacy Act of 1974) and NOAA regulations.

Yes, I have read the above information and certify as to the accuracy of the information in my application.
