This study is funded by the U.S. Food and Drug Administration's (FDA's) Center for Tobacco Products (CTP) and conducted by RTI International. For this study, we would like you to complete two surveys – one now and another in a week or two. Each survey asks teenagers what they think about cigarette smoking. Over 3,500 teenagers will complete both surveys. Each survey will take about 10 minutes to complete.

Your participation in this research study is completely up to you. As part of the survey, you will view some images related to smoking. You may feel uncomfortable looking at some of the images; however, you've probably seen similar images online or in health class. Also, the survey asks questions about your experiences and thoughts regarding cigarette smoking; however, you may skip any questions you do not want to answer. During the survey, we do not ask for your name; therefore, your name will not be connected to your answers. Furthermore, we will not share any information you provide in the survey with anyone outside the research team, including your parents.

To ensure your answers are kept private, please complete the survey in a place where no one can look over your shoulder and view your answers. Also, please complete the survey in one sitting and close the screen when you are done taking the survey.

If you have any questions about the study, you may call Katherine Kosa of RTI at 1-800-334-8571, extension 23901. If you have any questions about your rights as a study participant, you may call RTI's Office of Research Protection at 1-866-214-2043.
