since this collection has been going on since 1957, you havent sufficiently analyzed the data you have for for 60 years yet so why are you asking taxpayers to pay more to your agency to do more colelcting when the citizens get nothinig from this collection. taxpayers have funded you for 60 years and they got nothing out of this ihugely expensive information colleciton.nothing at all came out of it. it was simply wasted bureaucratic mish mosh. shut down this colleciton. we do not needthis information at all. this survey is hugely wasteful. it is a bureaucratic mess. the budget for it shoudl be zero. management at this agency seems to be lacking. downsize this agency by 50%. cut the budget to zero. this comment is for the public record.jean public
