

Burden Disclosure: Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA# 0925-0668. Do not return the completed form to this address.

Survey on NIAID's Institutional Research Training Grant (T32) Program

1. Are there any limitations or advantages to the current T32 FOA that hinders or provides the best training to our future scientists?
2. As a T32 PI, what is needed to train the next generation of scientists and provide them with the best toolset to succeed in the current funding climate?
3. Training dollars aside, what else would you consider as being important in training the next generation of scientists?
4. Should training focus on the needs of both academic and non-academic biomedical research?
