SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0176.
Title: 30 CFR 585, Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf.

Forms: BOEM-0002, BOEM-0003, BOEM-0004, BOEM-0005, BOEM-0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to issue leases, easements, or rights-of-way on the OCS for activities that produce or support production, transportation, or transmission of energy from sources other than oil and gas (renewable energy). Specifically, subsection 8(p) of the OCS Lands Act, as amended by section 388 of the Energy Policy Act of 2005 (Pub. L. 109-58), directs the Secretary of the Interior to issue any necessary regulations to carry

out the OCS renewable energy program. The Secretary delegated this authority to the Bureau of Ocean Energy Management (BOEM).

The BOEM has issued regulations at 30 CFR part 585 that establish procedures for administering the renewable energy program on the OCS and for authorizing other energy and marine-related activities that involve the alternate use of existing facilities on the OCS. This notice concerns the reporting and recordkeeping elements required by these regulations.

Respondents operating under these regulations conduct commercial and noncommercial technology projects that include installation, construction, operation and maintenance, and decommissioning of offshore facilities, as well as possible onshore support facilities. The BOEM must ensure that these activities and operations on the OCS are performed in a safe and environmentally sound manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Therefore, BOEM needs information concerning the proposed activities, facilities, safety equipment, inspections and tests, and natural and manmade hazards near the site, as well as assurance of fiscal responsibility.

The BOEM uses forms to collect some information to ensure proper and efficient administration of OCS renewable energy leases and grants and to document the financial responsibility of lessees and grantees. Forms BOEM-0002, BOEM-0003, BOEM-0004, and BOEM-0006 are used by renewable energy entities on the OCS to designate an operator and to assign or relinquish

a lease or grant. Form BOEM-0005 is used to procure and submit a bond for the purpose of meeting financial assurance requirements as set forth in the regulations. As a result of respondent input, BOEM is rewording one line on BOEM-0005 to match language on a similar form for the oil and gas program; this does not change the burden. The BOEM maintains the submitted forms as official lease and grant records pertaining to operating responsibilities, ownership, and financial responsibility.

We will protect information considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 585.113, addressing disclosure of data and information to be made available to the public and others. No items of a sensitive nature are collected. Responses are mandatory or required to obtain a benefit.

Frequency: On occasion or annually.

Description of Respondents: Companies interested in renewable energy-related uses on the OCS and holders of leases and grants under 30 CFR Part 585.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this collection is 30,902 hours. The following table details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: The estimated non-hour cost burdens total \$3,816,000. The non-hour cost burdens consist of service fees for BOEM document/study preparation,

costs for paying a contractor instead of BOEM, and costs for a site-specific study and report to evaluate the cause of harm to natural resources.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an

agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *” Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on October 10, 2012, BOEM published a **Federal Register** notice (77 FR 61633) announcing that we would submit this ICR to OMB for approval. This notice provided the required 60-day comment period. We received one comment. The Marine Mammal Commission states that BOEM’s reporting requirements provide a systematic and uniform method to track compliance with regulations, including those that protect marine resources. Therefore, the Commission supports BOEM’s request to OMB to approve the renewal of this collection.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
