Office of Management and Budget

THROUGH: Privacy, Information and Records Management Services
U.S. Department of Education

FROM: Alex Goniprow *AG*
Deputy Assistant Secretary for Management
Office of Elementary and Secondary Education

SUBJECT: Transmittal – Technical Revisions to the SY 2012-13 Consolidated State Performance Report (#1810-0614), Part I and Part II

I am forwarding proposed technical modifications to the Consolidated State Performance Report (CSPR) for the SY 2012-13 collection. The current CSPR was approved (OMB #1810-0614) in July 2012 and will expire July 31, 2015.

Part I of the SY 2012-13 CSPR will be due to the Department on or before December 20, 2013. Part II will be due on or before February 14, 2014.

We are requesting modifications to the CSPR to: (1) improve the quality and validity of the data the Department receives by improving the clarity and intent of questions; (2) update the collection to reflect changes to state data collections due to ESEA Flexibility; and (3) delete items that are not aligned with the reporting requirements. The proposed modifications result from questions and feedback we received from States, Congress, and other interested parties during the SY 2011-12 CSPR submission periods, data quality issues program offices identified during data quality reviews of State submissions, and question-by-question reviews program offices conducted in consultation with the Office of General Counsel (OGC) to ensure that the wording of each question was clear and consistent with the intent of the governing statute, and that each question was yielding useful and/or necessary information.

Summary of Proposed Modifications for 2012-13

Section 1.2: Participation in State Assessments

- Modifies structure of question to better capture the way states are submitting racial and ethnic data to EDFacts.

www.ed.gov

400 MARYLAND AVE., SW, WASHINGTON, DC 20202

Our mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.

Section 1.3: Student Academic Achievement

- Modifies structure of question to better capture the way states are submitting racial and ethnic data to EDFacts.

Section 1.4: School and District Accountability

- Accommodates changes for ESEA Flexibility states by providing an alternative to the AYP question for flexibility states, by using existing EDFacts data on annual measurable objectives.

Section 1.9: Education for Homeless Children and Youths Program

- Divides achievement data by LEAs with and without McKinney Vento subgrants. Will use an aggregation of LEA-level EDFacts data instead of State-level EDFacts data

Section 1.10: Migrant Child Counts

- Transfers contents of this section to section 2.3 in Part II to simplify collection.
- Restructures open ended questions into lists and check boxes to reduce burden.

Section 2.2: William F. Goodling Even Start Family Literacy Programs (Title I, Part B, Subpart 3)

- Deletes section since programs are no longer be funded in SY 2012-13.

Section 2.3: Education of Migrant Children (Title I, Part C)

- Absorbs contents from section 1.10 with changes specified above.
- Renames some sections and titles, and rewords some guidance to make the information collection more consistent with terms used by the program in the field.
- Reorganizes some sections for clarity.
- Deletes some questions to eliminate duplication.

Section 2.11: Graduation Rates

- Modifies structure of question to better capture the way states are submitting racial and ethnic data to EDFacts.

Section 2.12: Lists of Schools and Districts

- Additional school statuses for flexibility states added to CSPR for consistency with EDFacts collection.

The proposed 2012-13 changes use existing EDFacts data to populate the CSPR; therefore, they do not add burden to the CSPR collection. The migrant section continues to have manual entry questions, but they have shifted from open ended questions to short checklists to reduce burden. The Even Start section has been eliminated, also reducing burden.

Some 2012-13 modifications, which added questions to the CSPR, were already cleared through OMB as a supplement to the 2011-12 documents. The added questions increased burden. The removal of Section 2.2 as part of these technical changes will be a decrease to the burden, which will result in a net burden change of 8 more total burden hours for respondents. Total estimated

burden will be 11,794 hours. The specific modifications requested are detailed in Attachment A. Also included are complete copies of the 2012-13 collection (Part I and II).

Thank you for your consideration of this request. If you have questions, please contact Jane Clark of the Office of Elementary and Secondary Education's Management and Support Unit at 202-401-1373 or jane.clark@ed.gov.
