SUMMARY: The 2012/14 Beginning Postsecondary Students Longitudinal Study (BPS:12/14), conducted by the National Center for Education Statistics (NCES), is designed to follow a cohort of students who enroll in postsecondary education for the first time during the 2011-2012 academic year, irrespective of date of high school completion. The

study collects data on student persistence in, and completion of, postsecondary education programs; their transition to employment; demographic characteristics; and changes over time in their goals, marital status, income, and debt, among other measures.

DATES: Interested persons are invited to submit comments on or before December 18, 2012.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that Federal agencies provide interested parties an early opportunity to comment on information collection requests. The Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: 2012/14 Beginning Postsecondary Students Longitudinal Study: (BPS:12/14) Field Test.

OMB Control Number: 1850-0631.

Type of Review: Revision.

Total Estimated Number of Annual Responses: 13,975.

Total Estimated Number of Annual Burden Hours: 2,294.

Abstract: Data from BPS are used to help researchers and policymakers better understand how financial aid influences persistence and completion, what percentages of students complete various degree programs, what early employment and wage outcomes are for certificate and degree attainees, and why students leave school. This request is to conduct the BPS:12/14 first follow-up field test, including panel maintenance, student interviews and reinterviews, and administrative record matching. Following the field test study in 2013, NCES will submit a request for clearance of the BPS:12/14 full scale data collection to be conducted in spring 2014. Because only minimal changes are expected after the field test, NCES is requesting a waiver of the 60-day **Federal Register** Notice for the full-scale collection clearance submission.

Dated: October 16, 2012.

Stephanie Valentine,

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.
