Survey Privacy

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators, co-principal investigators, trainees, or other participants. Submission of the requested information is not mandatory. Information from this data collection system will be retained by the National Science Foundation (NSF), a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form, or data explicitly requested as "for general use," will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c. [See the NSF Privacy Policy.](#)

Public Burden

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Pursuant to 5 CFR 1320.5(b), an agency may not conduct or sponsor, and a person is not required to respond to an information collection unless it displays a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is 3145-0164. The public reporting burden for the entire collection of information is estimated to average 80 hours per award for Alliance awards and 12 hours per award for other RDE awards, including the time for reviewing instructions. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0164, Facilities and Operations Branch, Division of Administrative Services, National Science Foundation, 4201 Wilson Blvd., Suite 295, Arlington, VA 22230.

RDEWeb is an online system that collects information required for effective administration, communication, program and project monitoring and evaluation and for measuring attainment of NSF's program, project, and strategic goals, as identified by the President's Accountable Government Initiative, the Government Performance and Results Act (GPRA) Modernization Act of 2010, and the NSF's Strategic Plan. Data collected will also be used when responding to queries from Committees of Visitors, Congress, and scientific experts. The data can also be used as a preliminary step in more detailed future evaluation efforts, such as the sort of rigorous evaluations described in the May 2007 Report of the Academic Competitiveness Council, which was established by the Deficit Reduction Act of 2005 (P.L. 109-171) to serve as a multiagency effort to identify Federal STEM education programs and establish their effectiveness.

All information that you submit to this system, including project participant data, comes from existing project data sources that are maintained by your project and/or institution. The reporting period for this collection is **September 1, 2010 – August 31, 2011** and RDEWeb will be **open for data collection from December 2, 2011 – February 1, 2012**

You can complete the required sections in any order. Icons beside each link will help you track your progress and alert you to potential problems as you move through the sections. The icons will indicate one of four statuses: Not Started,  In Progress, Complete, or  Needs Correction. Some questions will be marked as  Required; the other questions are optional. Use the  Show/Hide links to reveal additional options.

NSF has contracted ICF Macro to conduct this data collection. If you have any questions about the system or need any technical assistance, you can e-mail ICF Macro staff at support@rdeweb.org, or you can speak to an ICF Macro staff member by calling (800) 392-2047.

Data Submission Status: **Not Ready For Submission**

Clicking on the "Submit Award Data" button constitutes acknowledgement and confirmation of the unreported data indicated under Not Reported Count below.

The "Submit Award Data" button is disabled because only the PI can submit project data to NSF and only when all sections have a "Complete" status.

Data Entry Status

- If applicable, please complete the **Data Corrections** section before completing the **Institutions** section. NSF asks that awards review and correct the institution-level student count data as needed.
- All other sections can be completed in any order.
- All sections must be completed before project data can be submitted.
- **Not Reported Count** is the number of records in a section that contain data elements that have not been reported. Missing data are not counted.

Warning: The following problems need to be fixed before submission:
 Please indicate if all Project Personnel have been added.

Project Personnel – 100001 – AwardAlliance

- Individuals who are paid directly by the institution for their time and effort to complete any award work, or the institution has given their time to the project gratis. These individuals are typically identified, but do not have to be, in the NSF Budget as "Senior Personnel" or "Other Personnel," or they may have been added by the institution after the NSF Budget was approved. At some institutions these individuals may be paid by stipend, but they are not project participants. Project personnel may include consultants and subawardee personnel who might not be employees of the institution.
- To add rows to the table, click on the "Add a Project Personnel Record" link.
- To remove a row from the table, click on the "Delete" link for that row.
- When records for all personnel have been added, **indicate that this section is complete** by marking the checkbox below.
- Status Column** : Change the status of project personnel from the previous reporting cycle by clicking on the "Active" or "Inactive" link. Previous project personnel are defaulted to "Active" status.

2. Student Information

- "Student Information" is the second of ten pages.
- Please provide information about this student for the 2011–2012 reporting period.

* 1. Student Type:
(during the 2011–2012 reporting period)

- Graduate student
- Undergraduate student (4-year school)
- Undergraduate student (2-year school)
- Non-credit post-secondary student
- High school student (Senior-12th Grade)
- High school student (Junior-11th Grade)
- High school student (Sophomore-10th Grade)
- High school student (Freshman-9th Grade)
- Middle/junior high school student
- Elementary school student

For CollegeStudentFirst CollegeStudentLast, **Undergraduate student (4-year school)** was entered as the student type for the previous data collection cycle. [Contact us](#) if this is incorrect.

2. If the participant was a graduate or undergraduate student during the 2011–2012 reporting period, indicate the student's major:

(NOTE: non-credit post-secondary students should not answer this question)

- This student had not declared a major as of the 2011–2012 reporting period

- Mark the checkbox(es) next to the student's major field(s) of study.
- Do not indicate minor fields of study.

+ [Show Academic Fields](#)

For CollegeStudentFirst CollegeStudentLast, **Astronomy** was entered as the student's major field(s) of study for the previous data collection cycle. [Contact us](#) if this is incorrect.

Questions 3 through 4 are required for high school, undergraduate and graduate students

- * 3a. What degree or certification was this student pursuing during the 2011–2012 reporting period?
- None
 - Certificate of completion
 - Baccalaureate degree

For CollegeStudentFirst CollegeStudentLast, **Baccalaureate degree** was entered as the degree or certificate for the previous data collection cycle. [Contact us](#) if this is incorrect.

- * 3b. As of August 31, 2012, how many years had the student been pursuing this degree or certification? (Enter a whole number between 1 and 12.)

- The number of years a student pursued a degree/certification should increase by an increment of 1 from one consecutive reporting period to the next.
 - Example: a college student who had freshman status for 1 year and has been at sophomore status for 2 years has pursued a bachelor's degree for 3 years.
- The number of years pursuing a high school diploma should not include time spent in elementary and/or middle/junior high school.
 - Example: a first-year freshman in high school has pursued a high school diploma for 1 year.
- The number of years an undergraduate student spent at a 2-year school should be counted toward the pursuit of a subsequent baccalaureate degree.
- Students who obtain an intermediate certificate while pursuing an associate's, baccalaureate, or master's degree should count the years spent on the certificate toward the pursuit of the subsequent post-secondary degree.

For CollegeStudentFirst CollegeStudentLast, **9** was entered for the number of years the student has been pursuing this degree or certificate for the previous data collection cycle. [Contact us](#) if this is incorrect.

- * 4a. During the 2011–2012 reporting period, did this student receive a degree or certification?

- Yes
- No

4b. If yes, what degree or certification did the student receive during the 2011–2012 reporting period?

- Certificate of completion
- Baccalaureate degree

4c. If yes, what does the student plan to do during the 2012–2013 academic year?

- Pursue associate's degree
- Pursue baccalaureate degree in an RDE-defined STEM field
- Pursue graduate degree in an RDE-defined STEM field
- Pursue non-STEM degree
- Enter the workforce
- Pursue certificate/other training in an RDE-defined STEM field
- Pursue non-STEM certificate/training

Project Highlight - 100001 – AwardAlliance

Each year, NSF program officers are asked to write highlights (formerly known as nuggets) on the results of NSF research and education awards. These highlights are used to help assess NSF's performance in attaining the strategic outcome goals outlined in the NSF 2011–2016 Strategic Plan and to share successes with various groups. The guidelines and description samples below can be viewed in Microsoft Office Word, or alternatively using the free [Word Viewer](#) application (external link). The photo release form can be viewed using [Adobe Reader](#).
