Information requested in this survey is used to prepare final estimates of tobacco acreage, production, and value for the <CROP YEAR> crop. Under Title 7 of the U.S. Code and CIPSEA (Public Law 107-347), facts about your operation are kept **confidential** and used only for statistical purposes in combination with similar reports from other producers. Response is **voluntary**.

NOTE: For U.S. tobacco grown outside of New England, the preliminary prices and values for the most recently harvested crop are published in the “Crop Values – Annual Summary” in February of the year following harvest. However, the extended marketing year for New England Broadleaf tobacco requires that a separate standalone production and price survey be conducted in the March of the year following harvest. In March of 2013, final marketed production and market year average price for the 2012 Broadleaf Tobacco crop will be collected. The May 2013 Crop Production report will be the first time that a Broadleaf Tobacco price for the 2012 crop will be published by NASS. This survey was kept separate from the other “March Tobacco Inquiry” since it references a different crop year.

Please make corrections to name, address and Zip Code, if necessary.

Please report the acres harvested, total production or yield, and price received or you expect to receive for marketable tobacco harvested by this operation for the <CROP YEAR – 1> crop year. If marketing is not complete, make your best estimate of the final price per pound or dollars received for all tobacco to be marketed.

- **Include** tobacco grown on all land operated, including land rented from others.
- **Exclude** tobacco acres leased to others.
- **Exclude** shrinkage and pounds destroyed for any reason.
- **Exclude** insurance payments from dollars expected to be received.
